# Contact Information

- Contact information may change throughout the year, the OTSO will keep sub-grantees as up to date as possible.
- These Contact Information slides will be updated as needed. Please refer back to these slides.

# Traffic Safety Grant Program Overview

- The Federal Highway Safety Act of 1966 directed the National Highway Traffic Safety Administration (NHTSA) and the Federal Highway Administration (FHWA) of the U.S. Department of Transportation to jointly administer various highway safety projects. This federal grant program provides federal funds administered through the Ohio Department of Public Safety (ODPS), Ohio State Highway Patrol (OSHP)/ Ohio Traffic Safety Office (OTSO) to eligible entities to be used in part for, but not limited to, traffic safety education, enforcement and engineering projects.

# Traffic Safety Grant Program Overview

- Funds are to be used for short-term highway safety support, with the intent that other sources of funding will sustain programs over the long term.
- The federal grant program operates on a reimbursement basis.
- The OTSO will use the following criteria to determine each grant proposal's funding eligibility:
  - Met the submission deadline
  - Met the minimum proposal requirements
  - Explained how the proposal specifically helps reduce Ohio's traffic-related fatal crashes

# Traffic Safety Grant Program Overview

- The OTSO will award grants based on:
  - The amount of funding available to the OTSO
  - The total number of proposals submitted to the OTSO
  - Past performance of the sub-grantee (if applicable)
- The OTSO reserves the right to limit the number of grants awarded and the awarded amounts at any time based on available funding, ability to impact statewide goals and performance.

# Traffic Safety Grant Program Overview

- FFY 2018 Traffic Safety Grant Proposals must be submitted via the website no later than 11:59 p.m. on Monday, May 22, 2017.
- Late proposals will not be considered for funding. The OTSO is not responsible for an applicant's personal computer or internet access failure occurring at the proposal deadline. In the event that the OTSO experiences an internal server malfunction, the OTSO will notify Proposal Administrators of an updated submission deadline.

# Competitive Grants Funding Priorities

- Ohio has joined the national effort, *Toward Zero Deaths: A National Strategy on Highway Safety*.
- In 2016, there were 1,133 fatalities on Ohio's roads. Ohio's current fatality rate is 0.94 fatalities per 100 million vehicle miles traveled.
- Competitive grants will be directed toward those state and local community traffic safety activities that will have the greatest impact toward fatal crash reduction.
- Each proposal should focus on one or more of these issues:
  - Alcohol/drug-impaired driving
  - Restraint use
  - And/or Speed management

# Problem Identification Process

- For FFY 2018, the OTSO conducted an in-depth analysis of traffic crash data to identify and prioritize traffic safety problems and to target fatal crash locations for traffic safety programming. The OTSO focuses the majority of its grant funding on these areas. They have been identified as locations where programming may have the most impact on a statewide level.
- The data used in this process include traffic crash data from 2014, 2015 and 2016.

# Standard Proposal Guidelines for All Grants

Proposal Guidelines

# Safe Communities Program

- The OTSO conducted an in-depth analysis of traffic crash data to identify and prioritize traffic safety problems and to target fatal crash location for traffic safety programming. The OTSO focuses the majority of its grant funding based on programming that will have the greatest impact on reducing fatalities statewide. The data used in this process includes traffic crash data from 2014, 2015 and preliminary 2016 data. The Safe Communities Program is a competitive grant program. Competitive grants will be directed toward those community traffic safety activities that will help Ohio achieve its goals.

# Safe Communities Program

All Safe Communities grant-related activities must be conducted under the following guidelines:

- **Data Collection and Analysis**
  - All Safe Communities programs are required to collect and update local jurisdiction data. Gather information such as demographics, assessments of high risk crash locations or situations, costs due to injury, and other pertinent data to establish clear problem identification in the county.
- **Coalition Building**
  - The Safe Communities program cannot survive solely on the efforts of the coordinator. The coordinator must seek the active participation and partnership of law enforcement, schools, government officials, engineers, service organizations, health and medical providers, businesses, media, county/community leaders and others interested in improving traffic safety in the community.

# Safe Communities Program

## Traffic Safety Strategies

- Programs with a 3-year fatal crash average between 0.00 and 9.89 may conduct strategies focusing on a maximum of three specific traffic safety areas.
- Programs with a 3-year fatal crash average between 9.90 and 19.78 may conduct strategies focusing on a maximum of four specific traffic safety areas.
- Programs with a 3-year fatal crash average of 19.79 and higher may conduct strategies focusing on a maximum of five specific traffic safety areas.
- These three specific traffic safety program areas must be addressed:
  - Impaired Driving/Alcohol-related fatal crashes
  - Seat Belt Usage/ “Click It or Ticket” initiatives
  - Motorcycle Awareness
- Additional strategies must be supported by local fatal crash problem identification.

# Safe Communities Program

- Submit a press release to the local media by the 15<sup>th</sup> day of each month (minimum of quarterly if the month didn't have a fatal) an update of the traffic fatalities in the county.

# Safe Communities Program
