Mission Statement

The Ohio Traffic Safety Office (OTSO) mission is to save lives and reduce injuries on Ohio's roads through leadership and partnering efforts with others interested in traffic safety, utilizing the most innovative and efficient methods possible of managing state and federal resources.

Executive Summary

402 Program

The Federal Highway Safety Act of 1966 directed the U.S. Department of Transportation to administer various highway safety programs. This grant program provides federal funds administered through the Ohio Department of Public Safety / Ohio State Highway Patrol (OSHP) to eligible entities to be used for such projects as traffic safety education, enforcement and engineering. Funds are to be used for highway safety support based on problem identification, with the intent of reducing overall fatal and injury crashes. This program operates on a reimbursement basis.

Highway Safety Office Program

Housed under the Ohio Department of Public Safety (ODPS) within the Ohio State Highway Patrol (OSHP), the Ohio Traffic Safety Office (OTSO) administers the Section 402 State and Community grants, related National Highway Traffic Safety Administration (NHTSA) awards and initiatives and contracts for traffic safety activities. The staff consists of the Traffic Safety Commander, Traffic Safety Program Administrator, Grants Administrator, Regional Programs Manager/LEL Coordinator, Traffic Safety Resource Prosecutor (TSRP), Special Projects Coordinator, Program Administrator, Management Analyst, three Planners, Grants Coordinator and a Fiscal Specialist. The programmatic staff oversees a geographical region of the state, rather than focusing solely on grant program area(s). The state is divided into eight patrol districts. Planners and LELs are assigned grants based on the highway patrol districts so that each district will have the same planner and LEL. The Planner is responsible for overseeing the programmatic activity on each grant. The Regional Programs Manager/LEL Coordinator oversees the planners and coordinates the four regional Law Enforcement Liaisons. The Program Administrator oversees the Ignition Interlock program, assists with the web-based grants management system, the Grant Solicitation Package, HSP and AER. The Grants Coordinator and Fiscal Specialist are responsible for the fiscal activity The Grants Administrator oversees the Program Administrator, Grants on each grant. Coordinator and Fiscal Specialist, manages the web-based grants management system, coordinates the Grant Solicitation Package, HSP and AER. The Management Analyst and Special Projects Coordinator assist with the national campaigns, planning assessments, and other projects as needed throughout the year. The Traffic Safety Program Administrator oversees all staff mentioned above and is responsible for all activities of the office. The TSRP increases the ability of prosecutors and law enforcement to effectively present and prosecute traffic safety violations, particularly focusing on impaired driving and reports to ODPS Legal. The Traffic Safety Commander oversees the OTSO.

Competitive grant proposals are accepted and reviewed annually by OTSO, with funds awarded to traffic safety projects that will have the greatest impact on reducing fatal crashes

or that significantly improve traffic safety systems. Since partnerships are critical to the longterm success of a project effort, applicants are encouraged to develop broad-based support and commitment by officials and constituent groups toward addressing traffic safety concerns.

Each grant proposal must focus on one or more of these priority program areas – restraint use, impaired driving, speed management, motorcycle safety, youthful driver, distracted driving, traffic records and / or engineering. In addition, competitive grant proposals must include an evaluation strategy designed to assess the impact of proposed project activities on the selected priority area(s). Based on the proposed strategies, each grant proposal must show how the effectiveness of the proposed activities will be measured. Each proposal is compared to the *Countermeasures that Works* to ensure the projects selected for funding are evidence based.

The FFY 2015 competitive grant process solicited grant proposals for highway safety activities from state agencies, non-profit organizations, colleges, universities, hospitals, political subdivisions and other interested groups within Ohio counties and jurisdictions (based upon the number of fatal crashes). OTSO uses a targeted approach to ensure a statewide effort that will satisfy state highway safety goals and that a minimum of 40 percent of federal funds are allocated to local jurisdictions. Two hundred and eighty-three grant proposals have been received for FFY 2015. Federal funds have been tentatively allocated to 72 of Ohio's 88 counties representing 93.9 percent of Ohio's population (not counting the Ohio State Highway Patrol, whose grants operate on a statewide basis).

Many components of the FFY 2015 Highway Safety Plan are reflected in Ohio's Strategic Highway Safety Plan (SHSP). The SHSP strategically addresses Ohio's most problematic traffic safety issues and relies on a collaborative approach by the State's many safety partners to implement effective programs that impact motor vehicle crashes on Ohio's roadways. The SHSP was developed in conjunction with various safety agencies and focuses on safety for all road users, including cars, trucks, trains, motorcycles, pedestrians and bikes. The SHSP committee includes representative from various local, state and federal safety agencies. The committee meets quarterly to review crash trends and discuss key strategies being implemented across agencies to reduce crashes.

Fatalities and Injuries

In 2012, there were 1,123 fatalities and 9,780 serious injuries in traffic crashes. The number of fatalities in Ohio has decreased 5.71 percent since 2008 and the number of injuries has decreased 3.29 percent in the same timeframe.

Top Priorities

Ohio has prioritized its problem areas as follows: Impaired Driving, Occupant Protection, Speed, Motorcycles, Youth, Pedestrian, Distracted Driving, Traffic Records and Bicycle. This selection was determined based upon problem identification as it relates to the core measures.

Major Strategies

Impaired Driving

Reducing impaired driving fatalities to 328 is a strategy to reducing Ohio's overall death and injury rates. This will be accomplished through earned media, paid media, high visibility enforcement (including saturation patrols and checkpoints), and evaluation. Ohio plans to have the Impaired Driving Model fully implemented in FFY 2015. This model will reach areas of the state that have an impaired driving problem, but do not meet the minimum requirements for OVI Task Force or Impaired Driving Enforcement Program funding. Ohio is also entering its fifth year of being a DRE state and plans to have 126 DREs by the end of FFY 2015 to help remove drug-impaired drivers from the roads.

Occupant Protection

Reducing unbelted fatalities to 392 is a strategy to reducing Ohio's overall death and injury rates. Increasing seat belt usage will be accomplished through earned media, paid media, high visibility enforcement, and evaluation. Ohio will also continue to fund the Ohio Department of Health to coordinate the statewide Occupant Protection Coordinator program that addresses child passenger safety as well as older children and adults through education.

Speed

Reducing speed related fatalities to 295 is a strategy to reducing Ohio's overall death and injury rates. In FFY 2014, the Ohio State Highway Patrol (OSHP) purchased eight speed trailers. One speed trailer is housed in each OSHP District. The speed trailers are available for any law enforcement agency in the district to deploy. Speeds are being captured to determine problem identification. This information is used to assign highly visible enforcement in an effort to reduce speed related fatalities and serious injuries. This will continue in FFY 2015.

Motorcycles

Reducing motorcycle fatalities to 145 and un-helmeted fatalities to 115 are strategies to reducing Ohio's overall death and injury rates. Both of these will be accomplished through earned media, paid media, high visibility enforcement, and evaluation.

Youth

Reducing the number of driver 20 or younger that are involved in fatal crashes to 140 is a strategy to reducing Ohio's overall death and injury rates. Reducing this number will be accomplished through working with teens statewide through a peer-to-peer program. These peer-to-peer efforts are designed to: increase seat belt use; reduce speeding; reduce impaired driving; reduce distracted driving; reduce underage drinking; and reduce other risky behaviors that contribute to injuries and fatalities.

Pedestrian

Reducing the number of pedestrian fatalities to 95 is a strategy to reducing Ohio's overall death and injury rates. Since this number is a small percentage of Ohio's fatality number, this reduction will be accomplished by concentrating efforts at the local level where the highest number of pedestrian fatalities are occurring. Columbus Health Department (Franklin County) requested funding for pedestrian activities in their Safe Communities proposal.

Distracted Driving

Reducing the number of distracted driving fatal crashes to 12 and the number of distracted driving injury crashes to 1,552 is a strategy to reducing Ohio's overall death and injury rates. In 2011, Ohio began adding fields to the OH-1 (Crash Report) to capture distracted driving data. The revised OH-1 was available for use in 2012, but was not mandatory until 2013. Distracted driving data is incomplete for 2011 and 2012. Prior to the new fields, all distracted driving was captured under one field, Driver Inattention. Decreasing this number will be accomplished through earned media, paid media, high visibility enforcement, and evaluation.

Traffic Records

Through the Traffic Records Coordinating Committee, several projects have been approved for funding for FFY 2015. These projects include: Crash Reconstruction to improve the data collection at crash scenes for problem identification; Road Intersection Inventory for better data collection of intersection crashes for problem identification. Existing projects such as Crash Mapping (accurate / timely crash reporting), Crash Data Export (accurate / timely crash reporting), Crash Mapping (accurate / timely crash reporting), Citation Tracking (accurate / timely crash reporting), Citation Tracking (accurate / timely citation reporting), and EMS Trauma/Rehabilitation Registry (accurate / timely EMS data) will continue until the projects are complete.

Bicycle

Reducing the number of bicycle fatalities to 15 is a strategy to reducing Ohio's overall death and injury rates. Since this number is a small percentage of Ohio's fatality number, this reduction will be accomplished by concentrating efforts at the local level where the highest number of bicycle fatalities are occurring.

Key Partners

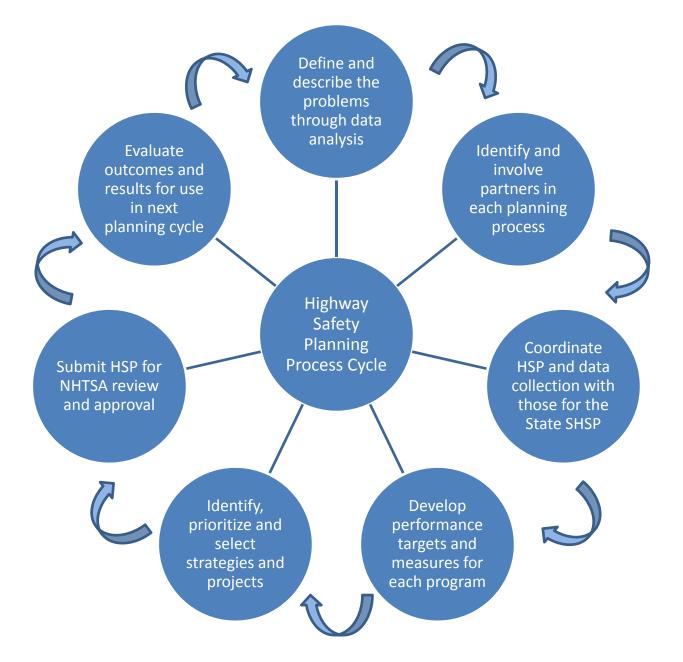

Ohio works closely with many partners throughout the year to assist in identifying problems and infrastructure needs. These partners include but are not limited to: NHTSA, Federal Highway Administration (FHWA), Governor's Highway Safety Association (GHSA), Ohio Department of Transportation (ODOT), Public Utilities Commission (PUCO), Buckeye State Sheriff's Association (BSSA), Ohio Association of Chiefs of Police (OACP), Mid-Ohio Regional Planning Committee (MORPC), Crash Outcome Data Evaluation System (CODES), Ohio State Highway Patrol, (OSHP), Motorcycle Ohio, American Motorcycle Association (AMA), Emergency Medical Services (EMS), University of Akron, Miami University of Ohio, Countywide OVI Task Forces, Safe Communities and sub-grantees.

OTSO is a member of the SHSP committee and heads one of the sub-committees. OTSO is also a member of the TRCC. Many of the agencies listed above are also members of the SHSP and TRCC. Working with these agencies in different committees allows for coordination of data and programming across many disciplines in Ohio to achieve our common goals.

Highway Safety Planning Process

At any given time during the year staff may be working on previous, current and upcoming fiscal year plans. While the planning process may be interrupted by unforeseen events and mandates, there is a general "rhythm" to putting an annual plan together.

Please note that meetings with federal, state and local partners occur continuously throughout the year; these meetings assist in identifying traffic safety problems and infrastructure needs.

Activity	Time Frame	Parties Involved
Obtain Input for Future Programming	Year – round	All Staff (Management, Planners, Grant Coordinator, Special Projects Coordinator, Program Administrator, Management Analyst, Law Enforcement Liaisons), District Staff, Post Commanders, Sub-grantees, Federal Partners, State Partners, Local Partners
Evaluate Previous Programs	October – December	Management, Planners, District Staff, Post Commanders
Annual Evaluation Report (AER) Submitted	December 31	Management, Planners
Begin Problem ID	January – February	Management
Finalize Problem ID	March	Management
Notify Eligible Agencies	March - April	Planners, Law Enforcement Liaisons, District Staff, Post Commanders
Finalize Proposal Package	March	Management
Pre-Grant Web Presentations	April	Management, Program Administrator, Planners, LELs, Potential Sub-Grantees
Highway Safety Plan (HSP) Development	May – June	Management, Program Administrator, Planners, Recommendations from "Obtain Input for Future Programming"
Proposal Deadline	May 15	
Proposal Review	May - July	Management, Planners, Program Administrator, Grant Coordinator, Law Enforcement Liaisons, District Staff, Post Commanders
Proposal Recommendations	June	Management, Planners, Program Administrator, Grant Coordinator, Law Enforcement Liaisons, District Staff, Post Commanders
HSP Submission	July 1	Management, Program Administrator
Grant Executions	September	Management, Planners, Program Administrator, Grant Coordinator
Pre-Activity Web Presentations	September	Management, Program Administrator, Planners, LELs, Sub- Grantees
HSP and Grant Implementation	October 1	Management, Planners, Program Administrator, Grant Coordinator

Problem Identification

Problem Identification Process

A variety of resources are used to determine and prioritize the State's traffic safety problems and traffic safety-related infrastructure needs. Federal priorities, past evaluations and recommendations from resources such as the most recent National Highway Traffic Safety Administration (NHTSA) assessments (motorcycle, impaired driving, occupant protection, traffic records and EMS), *Countermeasures That Work*, results from University of Akron's data analysis on motorcycle crashes and results from annual observational seat belt surveys and telephone surveys are reviewed to identify program direction.

Meetings with federal, state and local partners throughout the year also assist in identifying problems and infrastructure needs. Examples of these meetings include but are not limited to the following partners: Ohio's Strategic Highway Safety Plan (SHSP) planning committee and subcommittees, Traffic Records Coordinating Committee (TRCC), ODOT's Office of Systems Planning and Program Management Section, Ohio Department of Health's Alcohol and Drug Testing Section, Ohio Department of Health's Injury Prevention Section, OVI Task Forces, Safe Communities, district traffic safety meetings, motorcycle safety strategic planning committee, Crash Outcome Data Evaluation System (CODES), Commercial Vehicle Strategic Plan planning committee, national and regional NHTSA meetings, the Governor's Highway Safety Association annual meeting and the national LifeSavers conference. Strategic plans developed as a result of several of these meetings provide clear direction on prioritizing the state's identified problems and countermeasures that will be considered for funding.

In addition to the document review and participation in meetings, OTSO analyzes Ohio's demographic, registration, driver license and crash data. For FFY 2015, an in-depth analysis of traffic crash data was conducted to not only identify and prioritize the states traffic safety problems, but to target fatal crash locations for traffic safety programming. The traffic crash data used for this analysis was from Fatality Analysis Reporting System (FARS) calendar years 2008, 2009, 2010, 2011 and 2012 and the Ohio Department of Public Safety (ODPS) Ohio Crash Facts calendar years 2008, 2009, 2010, 2011 and 2012. Ohio's demographic, registration, driver license and crash data can be found on pages 10 through 35.

Once the state's problems have been identified, the grant solicitation package is developed. The grant solicitation package identifies the types of grants that will be considered for review (e.g., high visibility enforcement overtime, OVI Task Force, Safe Communities, and general). Each year, the solicitation package is available online at http://ghsogrants.dps.ohio.gov. Depending on the type of grant, potential grantees identify required goals, project activities and evaluation measures as part of the application process.

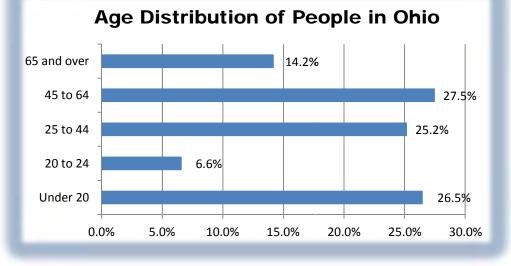

Pre-proposal presentations were developed and released electronically for potential subgrantees to review statewide goals, OTSO's expectations and to serve as a guide to submit the proposal using the online GRANTS System.

Ohio has prioritized its problem areas as follows: Impaired Driving, Occupant Protection, Speed, Motorcycles, Youth, Pedestrian, Distracted Driving, Traffic Records and Bicycle. This selection was determined based upon problem identification as it relates to the core measures.

Ohio Demographics

The following Ohio-specific information is from the U.S. Census Bureau's American Community Survey, 2012 5 – Year Estimates Survey.

	Denulation				
	Population			Race	
Total		11,533,561	White		83.0 Percei

In the U.S. Census Bureau's *American Community Survey, 2012 5 – Year Estimates Survey,* Ohio has a population of 11,533,561. Ohio has 88 counties, 251 cities, 681 villages and 1,309 townships. There are 121,342.161 miles of roads. About 16 percent, or 19,256.327, miles are state maintained (IR, US and SR) and 84 percent, or 102,085.834 miles, are local maintained.

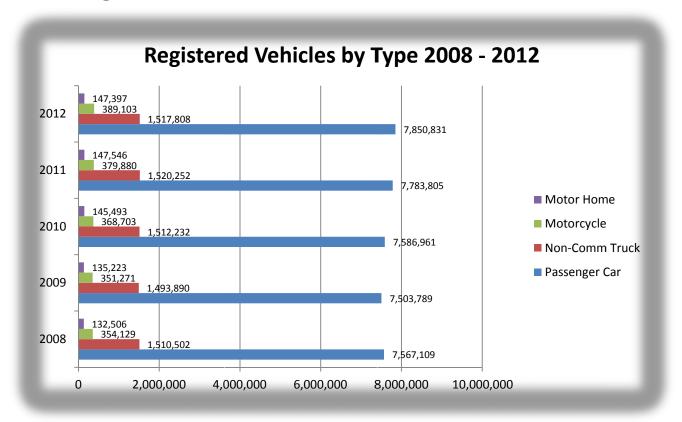

<u>Climate</u>

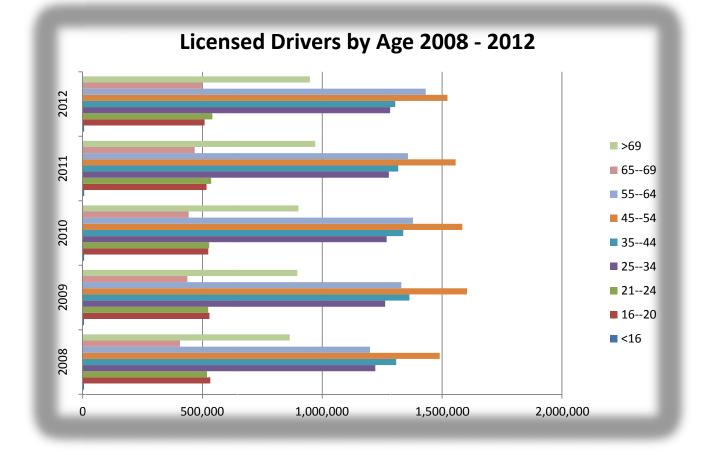

While Ohio's winters range from cool to cold with moderate year-round precipitation, severe lake effect snowstorms are not uncommon in the area southeast of Lake Erie. Snow is not uncommon throughout the state between November and March (5 out of 12 months – 41.67 percent of the year). However, only 35.58 percent of fatalities and 36.03 percent of serious injuries (2008 – 2012) occurred November – March.

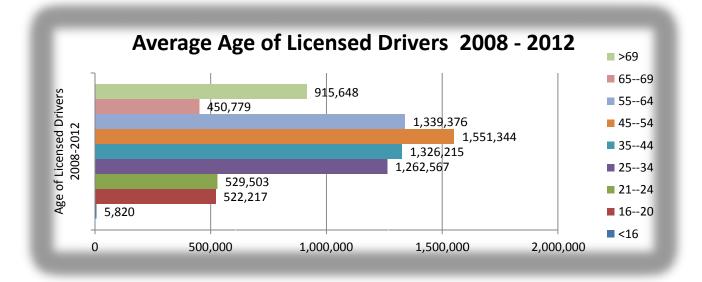

<u>Media</u>

Ohio has 42 TV stations, 550 commercial radio stations, 81 daily newspapers, 154 weekly newspapers and 12,539 outdoor billboards. There are nine markets in Ohio and five of these markets cover areas in five (Indiana, Kentucky, Michigan, Pennsylvania, West Virginia) neighboring states.

Vehicle Registration/Driver License Data

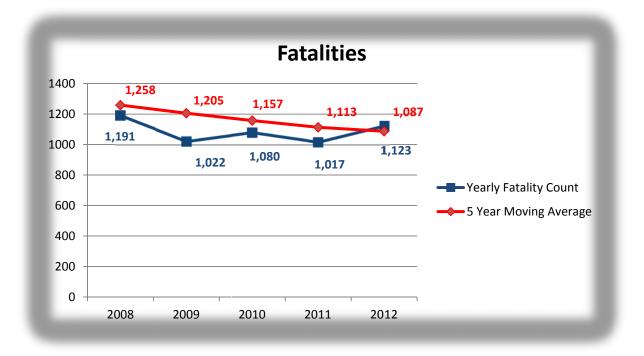

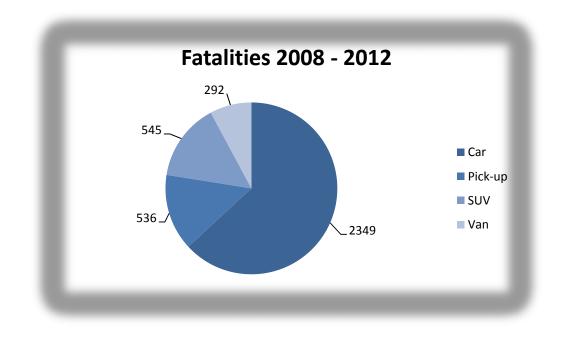

Ohio Data Analysis and Identified Problem Areas

Fatality/Serious Injury

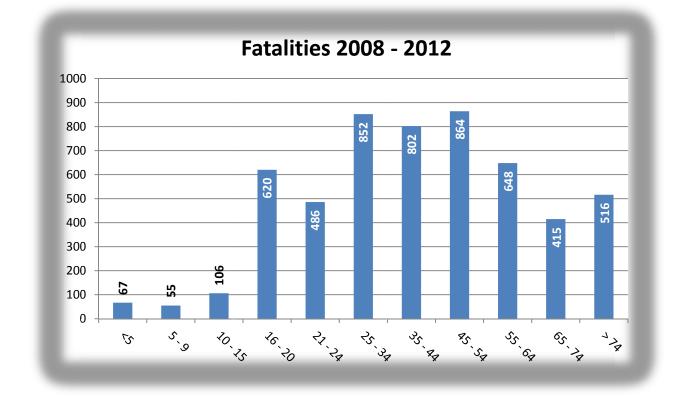

The number of traffic fatalities has decreased 5.71 percent over the five-year period (2008 – 2012). The five year average has decreased 13.5 percent since 2008.

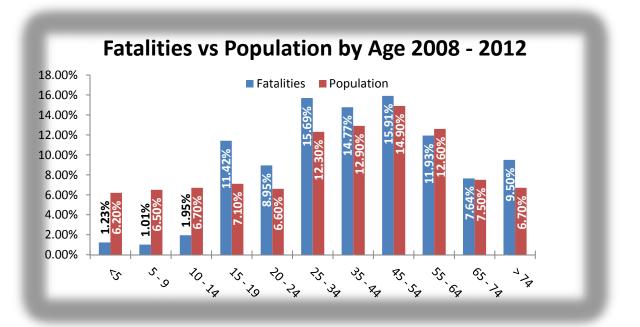

Between 2008 and 2012, 63.11 percent of all fatalities occurred in cars and 14.40 percent occurred in pick-up trucks. This shows a decrease in passenger car fatalities (2007 – 2011 was 64.08 percent) and an increase in pick-up trucks (2007 – 2011 was 13.69 percent).

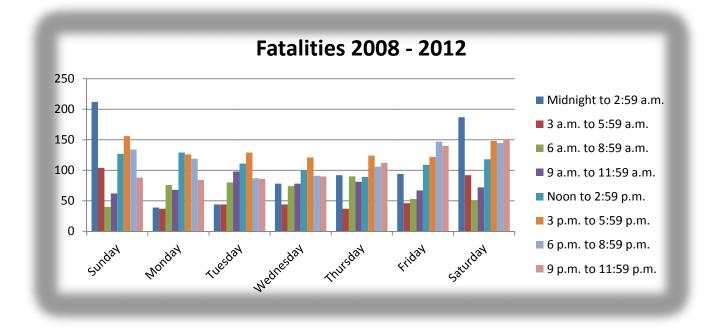

Fatalities occurred most often in the 45 - 54 age group, then the 25 - 34 age group and the 35 - 44 age group. This is similar to the 2007 - 2011 data with the 25 - 34 age group then the 45 - 54 age group.

When we reduce the fatalites by age group to the percent of all fatalites then compare that percentage to the percantage that the same same age group is of Ohio's population, we can see what age group is over represented in fatalities. The largest over represented age group is 15 - 19. Next is the 25 - 34 age group. Also over represented are the over 74 age group, the 20 - 24 age group, the 35 - 44 age group and the 45 - 54 age group.

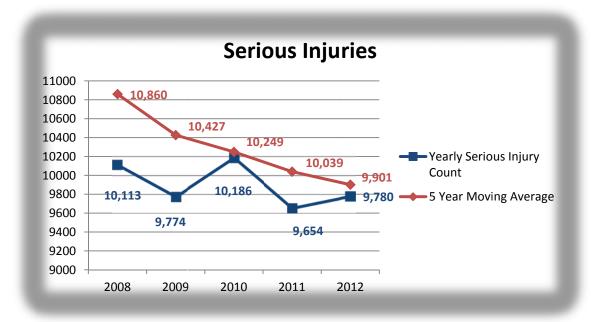

Between 2008 and 2012, 7.35 percent of fatal crashes occurred between midnight and 3:00 am on Saturday and Sunday mornings. These times are much higher than any other day of week/time frame. This is up slightly from the 2007 through 2011 timeframe where 7.14 percent of all fatal crashes occurred during these times/dates.

Between 2008 and 2012, 63.84 percent of all fatal crashes occurred on rural roadways.

The 2008-2012 average fatality rate (fatalities/vehicle miles traveled) is 0.98. The fatality rate has decreased 8.18 percent over the five year period (2008 - 2012). The average urban fatality rate is 0.53 and has increased 3.39 percent and the average rural fatality rate is 1.90 and has decreased 18.60 percent during the same time period.

The number of serious injuries has decreased 3.29 percent over the five-year period (2008 – 2012). The five year average has decreased 8.83 percent since 2008.

Analysis

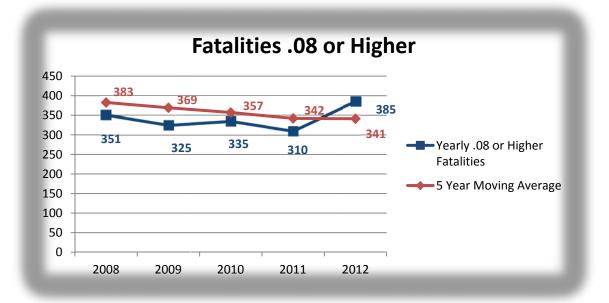

Fatalities increased 10.53 percent in 2012; however provisional 2013 numbers show an 11.84 percent decrease to 990. The five year moving average continues to show a decrease each year. Ohio continues to base funding decisions on a three year trend, however current trends are monitored to ensure all possible countermeasures are being pursued to enable Ohio to continue towards the National goal of Towards Zero Deaths.

Only 32.37 percent of Ohio's Vehicle Miles Traveled (VMTs) are rural, however 61.62 percent of all fatal crashes occur on rural roadways. Ohio will use the model (earned media (education/outreach), paid media, enforcement and evaluation) to reach these segments of Ohio's roadways.

Despite an increase in serious injuries in 2012, Ohio's five year moving average is showing a decrease of 8.83 percent over the last five years. Ohio will continue to monitor data on serious injuries to see if the increase in 2012 indicates a problem that warrants additional attention in this area.

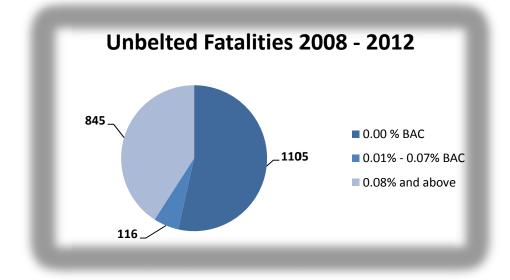

Impaired Driving

The number of fatalities in crashes involving a driver or motorcycle operator with a blood alcohol concentration of .08 g/dL or higher has increased 9.69 percent over the five-year period (2008 – 2012). The five year average has decreased 10.97 percent since 2008.

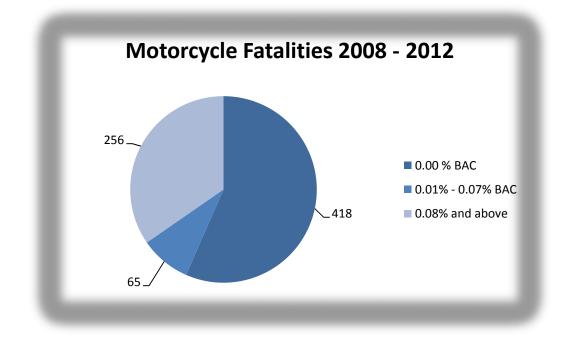

Between 2008 and 2012 Ohio averaged 385 alcohol-related (any impairment level) fatal crashes (Ohio Traffic Crash Facts) in Ohio. The five year moving average has decreased 11.69 percent in the last five years.

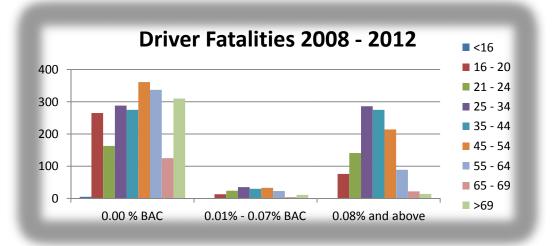

Unbelted fatalities that tested between .01 and .07 BAC accounted for 5.61 percent of all unbelted fatalities between 2008 and 2012. Test results showing 0.00 BAC accounted for 53.48 percent and .08 percent and above accounted for 40.90 percent. Although the overall number of unbelted fatalities that were .08 and above decreased from the 2007 - 2011 average, .08 and above now represent a greater portion of our unbelted fatalities.

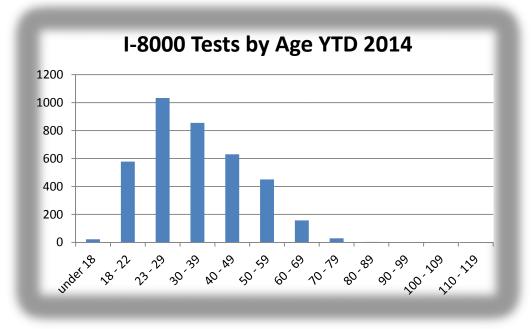

Motorcycle operator fatalities that tested between .01 and .07 BAC accounted for 8.80 percent of all motorcycle fatalities between 2008 and 2012. Test results showing 0.00 BAC accounted for 56.56 percent and .08 and above accounted for 34.64 percent. Similar to the unbelted numbers, the overall number of motorcycle fatalities that were .08 and above decreased from the 2007- 2011 average but .08 and higher now represents a greater portion of the motorcycle fatalities.

Between the years of 2008 and 2012, the age groups of 25 - 34 and 35 - 44 were nearly identical in number and were significantly higher than any other age group in driver fatalities with a BAC of .08 or higher. This was the same in the 2007 – 2011 data.

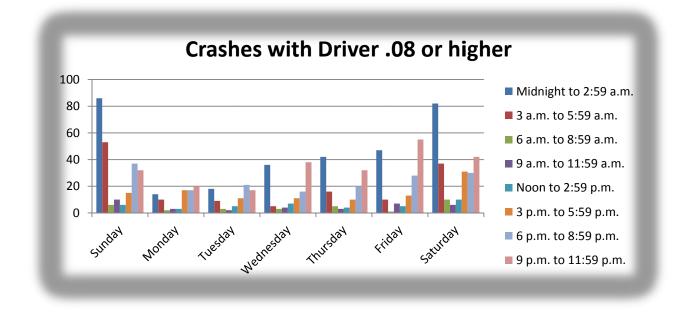

Year to date tests from the I-8000s show the highest age groups tested are 23 - 29 and 30 - 39.

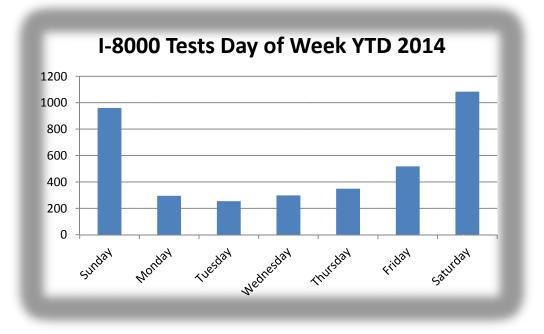

Pedestrian fatalities that tested between .01 and .07 BAC accounted for 24.10 percent of all pedestrian fatalities between 2008 and 2012. Test results showing 0.00 BAC accounted for 47.36 percent and .08 percent and above accounted for 28.54 percent. The percent of pedestrian fatalities that tested .08 and above has increased since the 2007 – 2011 data. See chart under Pedestrian.

Between 2008 and 2012, 85.72 percent of the crashes involving a driver with a BAC of .08 or higher were male; this is down slightly from the 2007 - 2011 data. Over sixty-three percent of the crashes involving a driver with a BAC of .08 or higher, occurred on a rural roadway. Again this is down slightly from the 2007 - 2011 data.

Between 2008 and 2012, 15.51 percent of the crashes involving a driver with a BAC of .08 or higher occurred between midnight and 3:00 am on Saturday and Sunday mornings. This is similar to the 2007 – 2011 data.

Year to date tests from the I-8000s also show Saturday and Sunday are the highest test days in Ohio.

Analysis

Over 40 percent of all unbelted fatalities tested .08 BAC or higher. Ohio will continue to examine this data to determine what countermeasures will be effective on this target audience.

Ohio will continue to focus efforts toward impaired riding. Almost 35 percent of motorcycle operator fatalities tested a .08 BAC or higher.

Drivers between 25 - 34 and 35 - 44 are the two highest age groups of driver fatalities that tested .08 or higher. These two groups were nearly identical in number (286 and 275 respectively) and were significantly higher than any other age group. Year to date test results from the I-8000s also show that the 23 - 29 age group and the 30 - 39 age group are the highest test age groups.

On 85.72 percent of fatal crashes where the driver tested a .08 BAC or higher, the driver was male. Male drivers only account for 48.14 percent of licensed drivers.

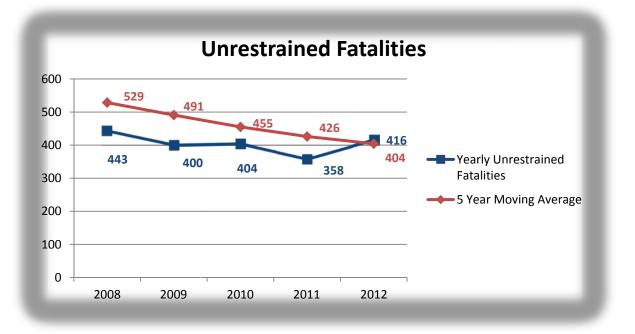

Over 63 percent of crashes that had the driver test a .08 or higher occurred on a rural roadway. Only 32.37 percent of Ohio's VMTs are rural.

Ohio will continue to use the model (earned media (education/outreach), paid media, enforcement and evaluation) to reach the target audiences of: motorcyclists, males aged 25 – 44 and rural Ohio during the peak alcohol times of weekend nights.

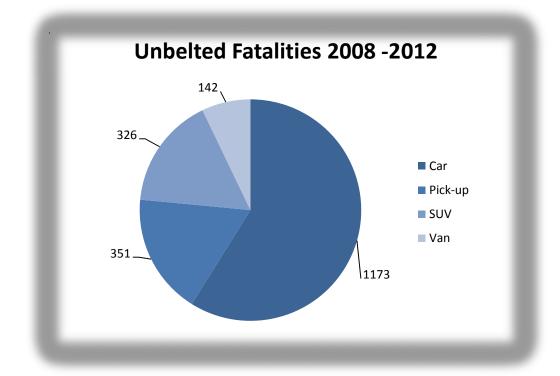

Occupant Protection

In 2013, Ohio reached an 84.5 percent observed seat belt use rate, using the new NHTSA methodology.

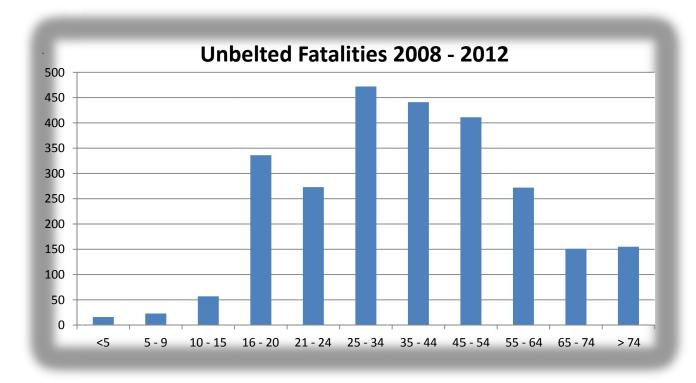

The number of unrestrained fatalities has decreased 6.09 percent over the five-year period (2008 – 2012). The five year average has decreased 23.63 percent since 2008.

Between 2008 and 2012, 58.89 percent of all unbelted fatalities occurred in cars and 17.62 percent occurred in pick-up trucks. The percentage of unbelted fatalities in pick-up trucks is up slightly from the 2007 – 2011 data of 16.73 percent.

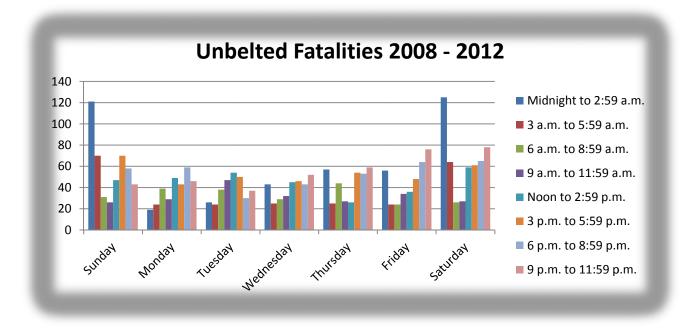

Unbelted fatalities occurred most often in the 25 - 34 age group, then the 35 - 44 age group and the 45- 54 age group.

Between 2008 and 2012, 73.57 percent of unbelted fatalities were male. Between 2008 and 2012, 64.14 percent of all unbelted fatalities occurred on a rural roadway.

Between 2008 and 2012, 9.44 percent of unbelted fatalities occurred between midnight and 3:00 am on Saturday and Sunday mornings.

Unbelted fatalities that tested between .01 and .07 BAC accounted for 5.61 percent of all unbelted fatalities between 2008 and 2012. Test results showing 0.00 BAC accounted for 53.48 percent and .08 percent and above accounted for 40.90 percent. Although the overall number of unbelted fatalities that were .08 and above decreased from the 2007 - 2011 average, .08 and above now represent a greater portion of our unbelted fatalities. See chart under Impaired Driving.

Analysis

Ohio's observed seat belt usage rate increased from 82.0 percent to 84.5 percent. Ohio will continue to use the model (earned media (education/outreach), paid media, enforcement and evaluation) to increase observed the seat belt usage rate.

Between 2008 and 2012, 58.89 percent of all unbelted fatalities occurred in cars and 17.62 percent occurred in pick-up trucks. In comparison, 63.11 percent of all fatalities occurred in cars and 14.40 percent occurred in pick-up trucks.

Unbelted fatalities are occurring most often in the 25 - 34 age group. However, the 35 - 44 and 45 - 54 are not far behind. Although the 16 - 20 year old age group ranks fourth overall, this age group represent 12.89 percent of all unbelted fatalities but only 7.10 percent of Ohio's population.

Ohio's licensed drivers are 48.14 percent male; however 73.57 percent of the unbelted fatalities are male.

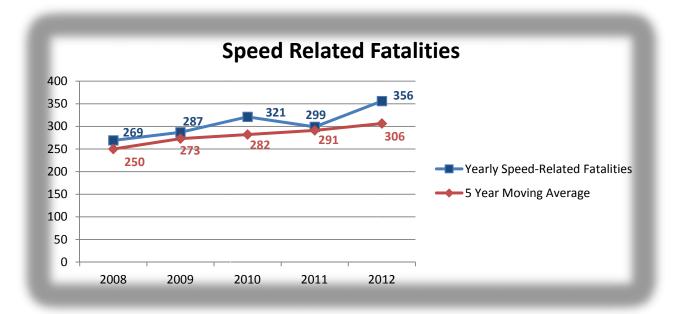

Only 32.57 percent of Ohio's VMTs are rural; however 64.14 percent of the unbelted fatalities occurred on rural roadways.

Between the years of 2008 and 2012, 37.20 percent of all fatalities were unbelted. This percent decreased 2.52 percent over the previous five year average. Over nine percent of all

unbelted fatalities occurred between midnight and 3:00 am Saturday and Sunday mornings. Ohio will also focus efforts on the areas mentioned above (pick-up truck drivers, ages 16 - 20 and 25 - 54, males and rural roadways) to decrease the percent of unbelted fatalities.

Speed

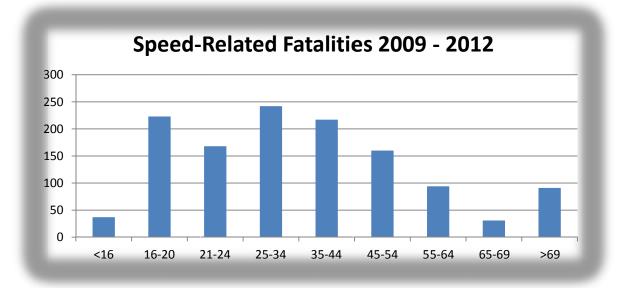

The number of speed related fatalities has increased 32.34 percent over the five-year period (2008 – 2012). The five year average has increased 22.40 percent since 2008.

Speed was a factor in 32.53 percent of the fatal motorcycle crashes between 2009 and 2012.

Speed was a factor in 39.88 percent of the youth (under 20) fatalities between 2009 and 2012.

Speed related fatalities occurred most often in the 25-34 age group, then the 16-20 age group and the 35-44 age group.

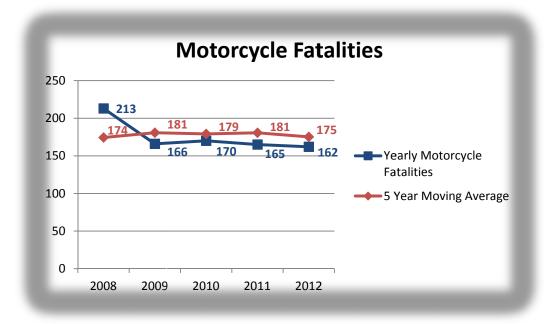

Analysis

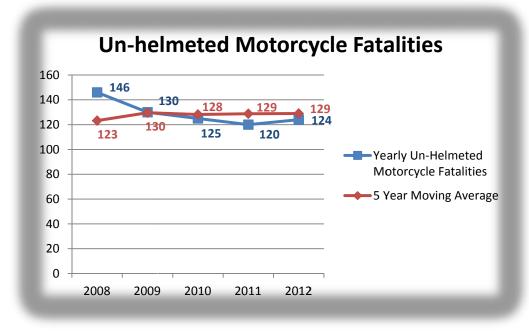

Speed-related fatal crashes have fluctuated in the last three years. Speed is a factor in 32.58 percent of fatal motorcycle crashes and 39.88 percent of youth fatalities. Ohio has purchased eight speed trailers for use around the state. One trailer has been assigned to each patrol district for use by all law enforcement within the district to help battle this issue.

Motorcycle Safety

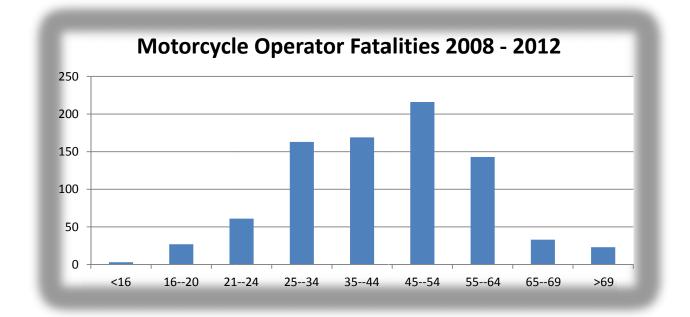

The number of motorcycle fatalities has decreased 23.94 percent over the five-year period (2008 – 2012). The five year average has increased .57 percent since 2008.

The number of un-helmeted motorcycle fatalities has decreased 15.07 percent over the fiveyear period (2008 – 2012). The five year average has increased 4.88 percent since 2008.

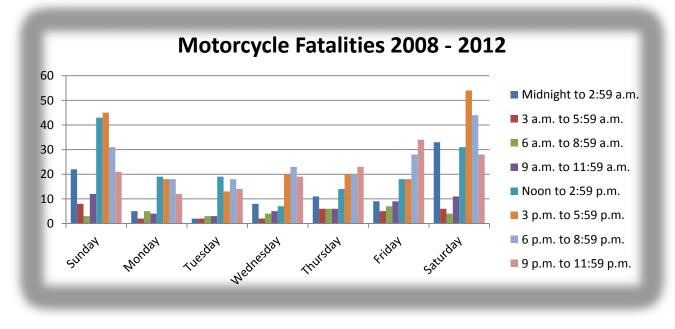

Motorcycle fatalities occurred most often in the 45 - 54 age group, then the 35 – 44 age group and the 25 - 34 age group. These are the same groups and order as the 2007-2011 data.

Between 2008 and 2012, 96.14 percent of motorcycle operator fatalities were male. This is a slight decrease from the 2007 through 2011 data of 96.40 percent. Over 61 percent of the motorcycle fatal crashes occurred on a rural roadway; down from 62 percent in the 2007 – 2011 data.

Between 2008 and 2012, 6.17 percent of motorcycle fatalities occurred between 3:00 pm and 6:00 pm on Saturday afternoons. This is down 4.71 percent from the 2007 through 2011 data. The next highest periods are 5.14 percent between 3:00 pm and 6:00 pm Sunday afternoon, 5.03 percent between 6:00 pm and 9:00 pm Saturday evening and 4.91 percent between noon and 3:00 pm on Sunday afternoon. These four time frames make up 21.26 percent of motorcycle fatalities compared to 21.09 percent in the 2007 – 2011 data.

FFY2015 Highway Safety Plan

Motorcycle operator fatalities that tested between .01 and .07 BAC accounted for 8.80 percent of all motorcycle fatalities between 2008 and 2012. Test results showing 0.00 BAC accounted for 56.56 percent and .08 and above accounted for 34.64 percent. Similar to the unbelted numbers, the overall number of motorcycle fatalities that were .08 and above decreased from the 2007- 2011 average but .08 and higher now represents a greater portion of the motorcycle fatalities. See chart under Impaired Driving.

Speed was a factor in 32.53 percent of the fatal motorcycle crashes between 2009 and 2012.

Analysis

Many of the numbers involving motorcycles are moving the right direction; however Ohio still has problems to address. The number of motorcycle fatalities has decreased over the last five years. However over 73 percent of the motorcycle fatalities between 2008 and 2012 are un-helmeted. The number of motorcycle fatalities has decreased; however motorcycle fatalities represent over 16 percent over Ohio's fatalities compared to just under four percent of Ohio's registered vehicles.

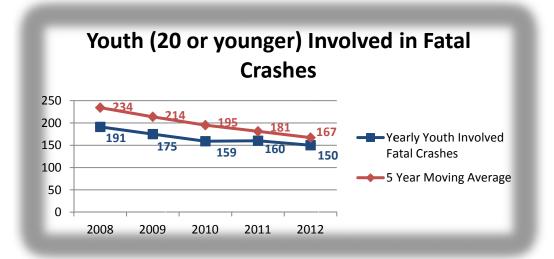

Most of the operator fatalities continue to occur in the following age groups: 45 - 54, 35 - 44 and 25 - 34.

Only 32.37 percent of Ohio's VMTs are rural; however over 61 percent of the motorcycle fatal crashes are occurring on rural roadways.

Based on this data, Ohio will focus its efforts to increase helmet use, reduce impaired riding and speeding among males aged 25 - 54 riding on Ohio's rural roadways during the peak times of Saturday and Sunday afternoons.

Youthful Driver

The number of young drivers (20 or younger) involved in fatal crashes has decreased 21.47 percent over the five-year period (2008 - 2012). The five year average has decreased 28.63 percent since 2008.

Speed was a factor in 39.88 percent of the youth (20 and under) fatalities between 2009 and 2012.

In 2012, there were 9 fatalities where the driver, 20 or younger, had a BAC of .08 or higher. This number is down 40 percent since 2008.

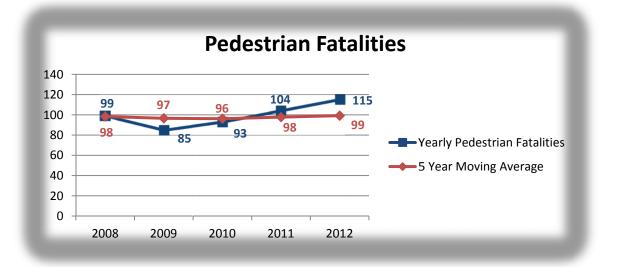

Analysis

Ohio has reduced the number of drivers aged 20 or younger involved in fatal crashes steadily over the last five years. This number is down over 21 percent. Speed continues to be a problem among youth fatalities (20 and under). The number of drivers ages 20 or younger involved in fatal crashes with a BAC of .08 or higher has decreased 40 percent over the last five years.

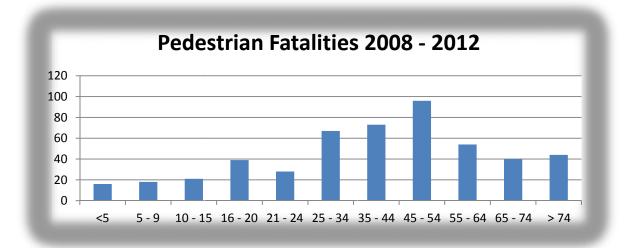

Ohio will continue to focus efforts towards this age group with an emphasis on speed, impaired driving and distracted driving.

Pedestrian Safety

The number of pedestrian fatalities has increased 16.16 percent over the five-year period (2008 – 2012). The five year average has increased 1.02 percent since 2008.

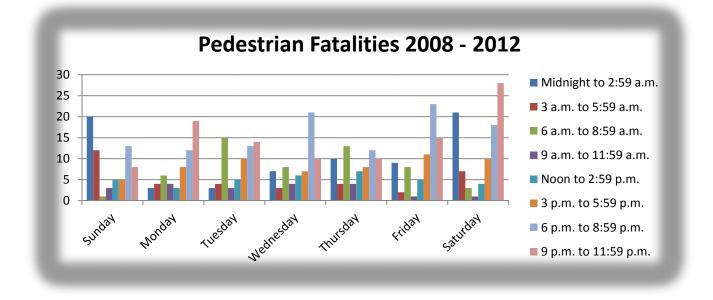

Pedestrian fatalities occurred most often in the 45 - 54 age group, then the 35 - 44 age group and the 25 - 34 age groups.

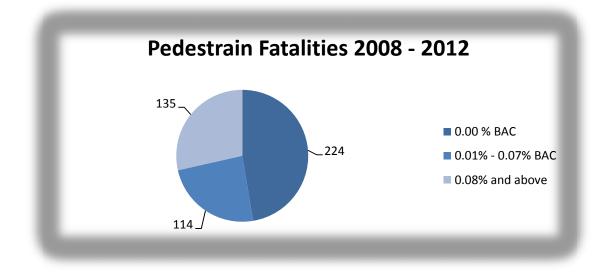

Between 2008 and 2012, 67.22 percent of pedestrian fatalities were male. This is a slight decrease from the 2007-2011 data. Almost 62 percent of the pedestrian fatalities occurred on an urban roadway. This is an increase from the 2007-2011 data.

Between 2008 and 2012, 5.68 percent of pedestrian fatalities occurred between 9:00 pm and midnight Saturday night. The next highest periods are 4.67 percent between 6:00 pm and 9:00 pm Friday evening and 4.26 percent between midnight and 3:00 am Saturday morning and 4.26 percent between 6:00 pm and 9:00 pm Wednesday evening. This is fairly consistent with the 2007 through 2011 data with the exception of the Wednesday evening. This has increased 29.48 percent from the 2007-2011 data. There appears to be an anomaly in 2012 for that day/time period.

Pedestrian fatalities that tested between .01 and .07 BAC accounted for 24.10 percent of all pedestrian fatalities between 2008 and 2012. Test results showing 0.00 BAC accounted for 47.36 percent and .08 percent and above accounted for 28.54 percent. The percent of pedestrian fatalities that tested .08 and above has increased since the 2007 – 2011 data.

Analysis

Ohio has seen an increase in pedestrian fatalities. Pedestrian fatalities are occurring most often in the 45 - 54 age group. Fatalities in the next age groups (35 - 44 and 25 - 34) are significantly lower than those in the 45 - 54 age group.

Ohio's population is 48.81 percent male; however 67.22 percent of pedestrian fatalities are male.

Almost 63 percent of pedestrian fatalities occur on urban roadways.

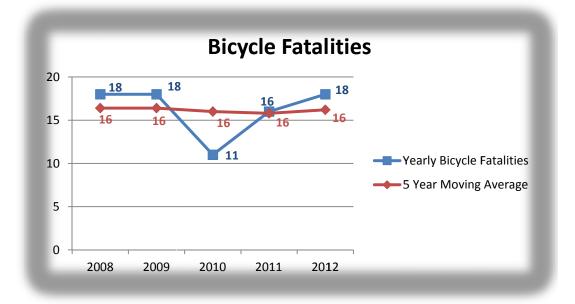

Over 52 percent of all pedestrian fatalities tested some level of alcohol: 24.10 percent .01 - .07 BAC and 28.54 percent .08 BAC or higher.

Pedestrian fatalities occur most often between 9:00 pm and midnight on Saturday night. The next highest day/time frames are between 6:00 pm and 9:00 pm Friday evening and between midnight and 3:00 am Saturday morning.

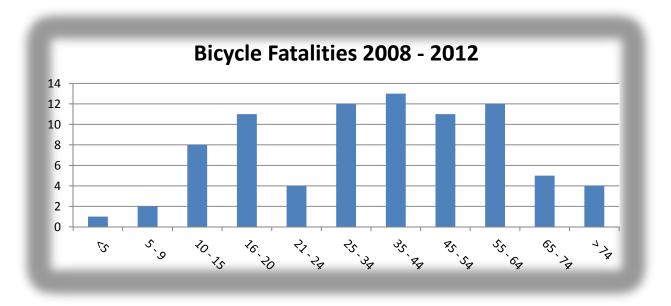

Looking at the statistics statewide, the pedestrian problem appears to be among adults, in urban areas, that have some level of alcohol involvement on the weekends. However, since pedestrian fatalities are only 9.14 percent of all fatalities, Ohio will fund local projects that have pedestrian fatality problems based on local problem identification. In FFY 2015, Columbus Health Department (Franklin County) requested funding for pedestrian activities in their Safe Communities proposals. Franklin County had 50 pedestrian fatalities between 2010 - 2012. These fatalities are 16.3 percent of the statewide pedestrian fatalities in those years.

Bicycle Safety

The number of bicycle fatalities has fluctuated between 11 and 18 over the five-year period (2008 – 2012). The five year average has remained at 16 since 2008.

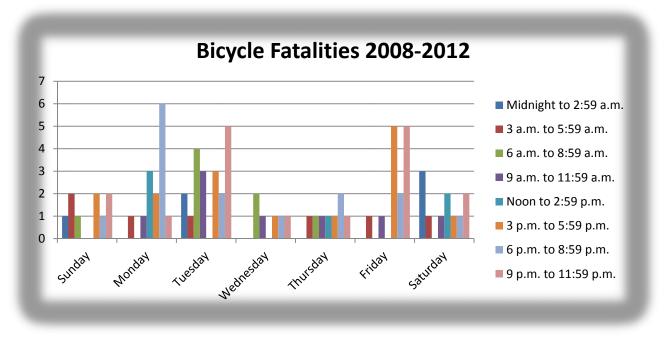

Bicycle fatalities occurred most often in the 35-44 age group, closely followed by the 25-34 and 55-64 age groups.

Between 2008 and 2012, 85.37 percent of bicycle fatalities were male. Over 62 percent of the bicycle fatalities occurred on an urban roadway.

Between 2008 and 2012, 7.32 percent of bicycle fatalities occurred between 6:00 pm and 9:00 pm Monday evenings. The next highest periods are 9:00 pm to midnight Tuesday nights; 3:00 pm to 6:00 pm Friday afternoons and 9:00 pm to midnight Friday nights with 6.10 percent each.

Bicycle fatalities that tested between .01 and .07 accounted for 6.56 percent of tested bicycle fatalities between 2008 and 2012. Test results showing 0.00 BAC accounted for 73.77 percent and .08 and above accounted for 19.67 percent.

Analysis

Ohio has remained constant in bicycle fatalities with a five year average of 16 since the 2004 – 2008 data. Although the fatalities are occurring most often in the 35-44 age group, the next highest groups (25-34 and 55-64) are each only one fatality behind and the next highest groups (45-54 and 16-20) are each only one fatality behind them. So the fatalities are occurring between ages 16-20 and 25-64.

Over 73 percent of the tested bicycle fatalities tested .00 BAC. Over 85 percent are male and over 62 percent occur on urban roadways.

In regards to the time of day/day of week, even though the data shows 6:00 pm to 9:00 pm on Monday as the time when most of the fatalities are occurring; the next three time periods mentioned (9:00 pm to midnight Tuesdays, 3:00 pm to 6:00 pm and 9:00 pm to midnight Fridays) are each only one fatality behind. The total number of bicycle fatalities between 2008 and 2012 for all four time frames is 21.

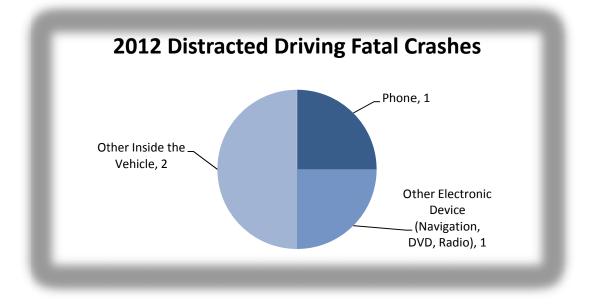

Looking at the statistics statewide, the bicycle problem appears to be mainly among adults, in urban areas. However, since bicycle fatalities are only 1.49 percent of all fatalities, Ohio will fund local projects if warranted based on problem identification.

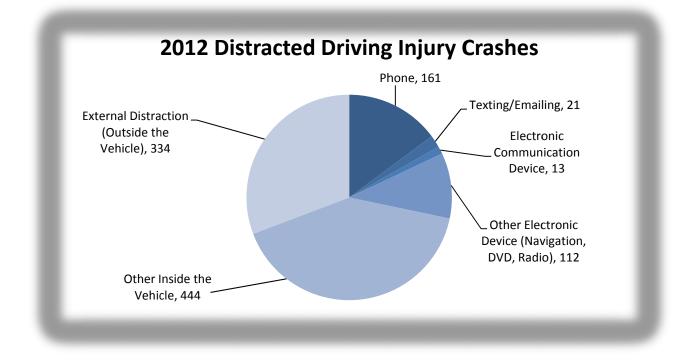

Distracted Driving

In 2011, Ohio began adding fields to the OH-1 (Crash Report) to capture distracted driving data. The revised OH-1 was available for use in 2012, but was not mandatory until 2013. Distracted driving data is incomplete for 2011 and 2012. Prior to the new fields, all distracted driving was captured under one field, Driver Inattention.

The 2008 - 2012 five year average for fatal crashes attributed to distracted driving is 13 and the average for the same time period for injury crashes is 1,612. Ohio has set targets using the old data, but will be collecting data using the updated distracted driving fields to monitor trends and will adjust the targets according the data.

Beginning in 2012, distracted driving is broken down into multiple categories.

Traffic Records

In 2009, Ohio participated in a Traffic Records Assessment. The report identified that improvements could be made in the following areas: timeliness of crash report submission and timeliness of data processing electronic citations. The Traffic Records Coordinating Committee (TRCC) meets every other month to review progress made in the areas mentioned in the assessment; update members on current projects; and propose new projects that will address the concerns highlighted in the most recent assessment.

Analysis

Ohio will be working on the following projects this year: LBRS, Crash Data Export, Crash Mapping, Crash Pad, Citation Tracking, Crash Reconstruction, EMS Trauma Registry, EMS Rehabilitation Registry and Road Intersection Inventory. These projects will improve the accuracy and the timeliness of crash reporting and timeliness of data processing electronic citations.

Performance Targets

- C-1) Reduce traffic fatalities 7.45 percent from 1,087 (2008 2012 average) to 1,006 by 2015.
- C-2) Reduce serious traffic injuries 6.74 percent from 9,901 (2008 2012 average) to 9,234 by 2015.
- C-3a) Reduce the fatalities/VMT rate 6.12 percent from 0.98 (2008 2012 average) to 0.92 by 2015.
- C-3b) Reduce the rural fatalities/VMT rate 5.79 percent from 1.90 (2008 2012 average) to 1.79 by 2015.
- C-3c) Reduce the urban fatalities/VMT rate 5.66 percent from .53 (2008 2012 average) to .50 by 2015.
- C-4) Reduce unrestrained passenger vehicle occupant fatalities (all seat positions) 2.97 percent from 404 (2008 2012 average) to 392 by 2015.
- C-5) Reduce impaired driving fatalities (.08 and above) 3.81 percent from 341 (2008 2012 average) to 328 by 2015.
- Increase the number of DRE evaluations 6.09 percent from 575 (2012 2013 average) to 610 by 2015.*
- Increase the number of DREs from 112 (2014 baseline) to 136 by 2015.
- C-6) Reduce speed-related fatalities 3.59 percent from 306 (2008 2012 average) to 295 by 2015.
- C-7) Reduce motorcyclist fatalities 17.14 percent from 175 (2008 2012 average) to 145 by 2015.
- C-8) Reduce un-helmeted motorcyclist fatalities 10.85 percent from 129 (2008 2012 average) to 115 by 2015.
- C-9) Reduce drivers age 20 or younger involved in fatal crashes 16.17 percent from 167 (2008 2012 average) to 140 by 2015.
- C-10) Reduce pedestrian fatalities 4.04 percent from 99 (2008 2012 average) to 95 by 2015.**
- C-11) Reduce bicycle fatalities 6.25 percent from 16 (2008 2012 average) to 15 by 2015.**
- Reduce distracted driving fatal crashes 7.69 percent from 13 (2008 2012 average) to 12 by 2015.***
- Reduce distracted driving injury crashes 3.72 percent from 1,612 (2008 2012 average) to 1,552 by 2015.***
- B-1) Increase statewide seat belt compliance 0.59 percent from 84.5 (2013 baseline) to 85.0 by 2015.
- Ohio has 76 out of 88 counties that are LBRS (Location Based Response System) compliant with an additional 5 counties that are in the process. Ohio's goal is to have 79 counties compliant by December 31, 2015
- Currently 45 percent of Ohio's crash reports are submitted electronically. Ohio's goal is to increase this to 47 percent by December 31, 2015.
- Currently Ohio does not have a statewide citation tracking system. Ohio's goal is to have a pilot project up and running by December 31, 2014.

- Ohio will process sub-grantee reimbursement claims in an average of 6 days. In FFY 2013, the average was 13.6 days.
- Ohio will award at least 45 percent of awarded grant funds to local benefit. Currently 48.4 percent is awarded to local benefit.
- Ohio will liquidate 60 percent of its funds in FFY 2015. In FFY 2013, Ohio liquidated 39.82 percent.****
- Ohio will increase mobilization reporting to 85 percent from 71.32 percent in FFY 2013.
- The FFY 2015 goal is for the TSRP to attend regional and national training and to provide at least 30 training opportunities statewide for prosecutors and law enforcement.

*2012 was the first full year of DRE evaluations in Ohio. Once multiple years of data have been collected, Ohio will begin using the same goal setting methods based on trends as described on page 35.

**The trends for speed, pedestrian, and bicycle were increases. A standard 1.25 percent per year from 2012 reduction was used for each of these goals to ensure the goal was a reduction by 2015.

*** In 2011, Ohio began adding fields to the OH-1 (Crash Report) to capture distracted driving data. The revised OH-1 was available for use in 2012, but was not mandatory until 2013. Distracted driving data is incomplete for 2011 and 2012. The trend method was used to set the goals, however the goals may need to be re-evaluated as the new data becomes available.

**** Liquidation rate does not include 164-HE funds.

Ohio Performance Measures

	Description	2008	2009	2010	2011	2012	2015 Goal

Performance Measure and Target Setting

Historically, Ohio crash data, VMT and population have been used to establish goals for priority areas including occupant protection, alcohol, speed and motorcycle. OTSO analyzes the previous five years of data from FARS, Ohio Crash Facts, Ohio Statewide Observational Seat Belt Surveys and ODOT to set their goals for the upcoming fiscal year. These goals also take into account the national and regional goals developed by NHTSA. The amount of reduction/increase for each goal was set based on past trends. Each individual year's data is averaged into a five year average. The amount of increase/decrease between each year is averaged. This average is used to calculate the amount of increase/decrease from the five year average to the single year goal. Miami University of Ohio reviewed and approved the initial methodology used. OTSO met with the SHSP chair to review the fatal, fatality rate and serious injury goals.

Project Selection Process

A review team (Commander, Traffic Safety Administrator, Grants Administrator, Regional Programs Manager, Program Administrator, Grant Coordinator, the assigned regional Planner, regional Law Enforcement Liaison, and OSHP District Staff) reviewed the grant proposals. The review team determined if each proposal: met the submission requirements; addressed an identified problem; was likely to have an impact; clearly stated proposal activities; contained an adequate evaluation plan; and contained a cost effective budget. Each proposal is compared to *Countermeasures that Work* to ensure the project proposed is evidence based. County Fact Sheets that provide detailed problem identification information for the county were reviewed to ensure activities proposed were aligned with local problem identification. These fact sheets are developed by ODOT and were provided to the sub-grantee during the proposal process.

The grant management staff compiles a list of all proposals received. The list is submitted to the Traffic Safety Commander with funding recommendations. The Traffic Safety Commander and ODPS Director/GR make the final decision on which proposals are funded.

Ohio focuses the majority of its grant funding toward counties and jurisdictions with the highest number of fatal crashes. Programming in these locations is likely to have the greatest impact on statewide goals. Throughout the year, grants are monitored to verify that funding is being utilized as stipulated in the project's work plan.

Target:

Performance Targets

- C-1) Reduce traffic fatalities 7.45 percent from 1,087 (2008 2012 average) to 1,006 by 2015.
- C-2) Reduce serious traffic injuries 6.74 percent from 9,901 (2008 2012 average) to 9,234 by 2015.
- C-3a) Reduce the fatalities/VMT rate 6.12 percent from 0.98 (2008 2012 average) to 0.92 by 2015.
- C-3b) Reduce the rural fatalities/VMT rate 5.79 percent from 1.90 (2008 2012 average) to 1.79 by 2015.
- C-3c) Reduce the urban fatalities/VMT rate 5.66 percent from .53 (2008 2012 average) to .50 by 2015.
- C-4) Reduce unrestrained passenger vehicle occupant fatalities (all seat positions) 2.97 percent from 404 (2008 2012 average) to 392 by 2015.
- C-5) Reduce impaired driving fatalities (.08 and above) 3.81 percent from 341 (2008 2012 average) to 328 by 2015.
- Increase the number of DRE evaluations 6.09 percent from 575 (2012 2013 average) to 610 by 2015.*
- Increase the number of DREs from 112 (2014 baseline) to 136 by 2015.
- C-6) Reduce speed-related fatalities 3.59 percent from 306 (2008 2012 average) to 295 by 2015.
- C-7) Reduce motorcyclist fatalities 17.14 percent from 175 (2008 2012 average) to 145 by 2015.
- C-8) Reduce un-helmeted motorcyclist fatalities 10.85 percent from 129 (2008 2012 average) to 115 by 2015.
- C-9) Reduce drivers age 20 or younger involved in fatal crashes 16.17 percent from 167 (2008 2012 average) to 140 by 2015.
- C-10) Reduce pedestrian fatalities 4.04 percent from 99 (2008 2012 average) to 95 by 2015.**
- C-11) Reduce bicycle fatalities 6.25 percent from 16 (2008 2012 average) to 15 by 2015.**
- Reduce distracted driving fatal crashes 7.69 percent from 13 (2008 2012 average) to 12 by 2015.***
- Reduce distracted driving injury crashes 3.72 percent from 1,612 (2008 2012 average) to 1,552 by 2015.***
- B-1) Increase statewide seat belt compliance 0.59 percent from 84.5 (2013 baseline) to 85.0 by 2015.
- Ohio has 76 out of 88 counties that are LBRS (Location Based Response System) compliant with an additional 5 counties that are in the process. Ohio's goal is to have 79 counties compliant by December 31, 2015
- Currently 45 percent of Ohio's crash reports are submitted electronically. Ohio's goal is to increase this to 47 percent by December 31, 2015.

- Currently Ohio does not have a statewide citation tracking system. Ohio's goal is to have a pilot project up and running by December 31, 2014.
- Ohio will process sub-grantee reimbursement claims in an average of 6 days. In FFY 2013, the average was 13.6 days.
- Ohio will award at least 45 percent of awarded grant funds to local benefit. Currently 48.4 percent is awarded to local benefit.
- Ohio will liquidate 60 percent of its funds in FFY 2014. In FFY 2012, Ohio liquidated 39.82 percent.****
- Ohio will increase mobilization reporting to 85 percent from 71.32 percent in FFY 2013.
- The FFY 2015 goal is for the TSRP to attend regional and national training and to provide at least 30 training opportunities statewide for prosecutors and law enforcement.

*2012 was the first full year of DRE evaluations in Ohio. Once multiple years of data have been collected, Ohio will begin using the same goal setting methods based on trends as described on page 35.

**The trends for speed, pedestrian, and bicycle were increases. A standard 1.25 percent per year from 2012 reduction was used for each of these goals to ensure the goal was a reduction by 2015.

*** In 2011, Ohio began adding fields to the OH-1 (Crash Report) to capture distracted driving data. The revised OH-1 was available for use in 2012, but was not mandatory until 2013. Distracted driving data is incomplete for 2011 and 2012. The trend method was used to set the goals, however the goals may need to be re-evaluated as the new data becomes available.

**** Liquidation rate does not include 164-HE funds.

Project Number: NF-2015-00-00-00

Project Title: Ohio Strategic Highway Safety Plan (SHSP) Coordinating Committee

Description:

Ohio's SHSP identifies the State's most critical traffic safety issues and problems, countermeasures being implemented and partners contributing resources to impact those problems and issues. OTSO participates in the SHSP coordinating committee and chairs the High-Risk Behaviors/Drivers subcommittee. MAP 21 requires the HSP and the SHSP coordinate. Ohio has had an active role in the SHSP committee since the inception and this will continue.

Budget:

Funding Level \$0Funding SourceN/ALocal Benefit\$0

Project Number: SA-2015-00-00-00

Project Title: Safe Communities

Description:

The Countermeasures That Work: A Highway Safety Countermeasure Guide for State Highway Safety Offices Seventh Edition, 2013, lists Communication and Outreach as an effective strategy for impaired driving, seat belt usage, speed, distracted driving, motorcycle safety, older drivers and pedestrians. According to NHTSA's website, "the U.S. Department of Transportation has made a commitment to the philosophy that communities are in the best position to affect improvements in motor vehicle and other transportation-related safety

problems." In FFY 2014, the OTSO conducted an in-depth analysis of traffic crash data to identify and prioritize traffic safety problems and to target fatal crash locations for traffic safety programming. Maximum amounts for each county were set based on the average number of fatal crashes for 2011, 2012 and 2013. New programs had to have a minimum of a 3 year average of 2 fatal crashes to be eligible for funding. For FFY 2015, Ohio will fund 48 countywide Safe Communities programs which will involve more than 1,300 communities. These counties reach 83.5 percent of Ohio's population.

These coordinated communities will play an active role in addressing traffic safety issues. Each program must include strategies focusing on seat belt use, impaired driving and motorcycle safety. Ohio's Safe Communities network uses local coalitions to deliver traffic safety messages and programs throughout the year at the local level. Safe Communities provides the education/earned media portion of our enforcement campaigns while our law enforcement agencies including the Ohio State Highway Patrol conduct the enforcement portion.

Since Safe Communities are multi-jurisdictional with many different agencies and organizations within the county making up the coalitions, traffic safety will be addressed through partnerships with local businesses, law enforcement, engineering, hospitals, health care providers, schools, faith-based organizations, ethnic/non-English speaking communities, community groups and others that have a vested interest in traffic safety.

All Safe Community sub-grantees are required to attend District meetings. Items discussed at the District meetings include: Re-caps of previous blitzes/national campaigns, upcoming blitzes/national campaigns, current crash trends, enforcement activities, educational activities and other timely traffic related information specific to the district. Sub-grantees coordinate activities and plan locations based on local data and data shared at these meeting to ensure all activities are highly visible and are based on problem identification.

Project Title: Roadway Safety Training

Description:

In conjunction with Ohio's SHSP, Ohio works with ODOT to provide safety related courses for engineers and surveyors from ODOT as well as locals (county and municipal governments). Courses are approved by OTSO prior to scheduling to ensure that topics are highway safety related. Courses that may be approved for funding in FFY 2015 include: Principles and Tools for Road Weather Management, Road Safety Audits/Assessments, Roadside Safety Design, Modern Roundabouts: Intersections Designed for Safety, and Developing a Pedestrian Safety Action Plan.

Project Title: Drive Sober or Get Pulled Over Earned Media Plan

Description:

The Countermeasures That Work: A Highway Safety Countermeasure Guide for State Highway Safety Offices Seventh Edition, 2013, states there are four basic strategies to reduce impaired driving: deterrence, prevention, communications and outreach, and alcohol Mass Media Campaigns are specifically mentioned as an effective treatment. countermeasure. Earned media is one of Ohio's communication and outreach strategies to inform the public of the dangers of impaired driving. Ohio uses many different networks to ensure earned media is achieved statewide (e.g. law enforcement, Safe Communities, Ohio Partnership for Traffic Safety (OPTS), etc.). OPTS is a statewide network of employers and safety advocates that Ohio uses to distribute messages and materials to reach the 21 - 40 year old age group. The earned media plan will span the entire federal fiscal year with the heaviest emphasis during the Drive Sober or Get Pulled Over Crackdown. Messaging will be consistent with the National Communication Plan and will consist of the following components:

- Campaign toolkit developed for distribution to Ohio's law enforcement partners, Safe Communities programs, corporate partners and others that have a vested interest in traffic safety.
- The toolkit will include updated sample news releases, letter to the editors, fact sheets, newsletter articles and artwork.
- Broadcast e-mails to all safety partners directing them to the National Highway Traffic Safety Administration (NHTSA) Web site as the mini-planners are released.
- Coordinated media events by the Ohio Department of Public Safety (ODPS), Ohio's Safe Communities programs and law enforcement partners.
- Weekly traffic safety e-mail broadcast.

ODPS will continue to partner with other state agencies to issue joint press releases and assist with media exposure.

Project Title: Impaired Driving Materials

Description:

The Countermeasures That Work: A Highway Safety Countermeasure Guide for State Highway Safety Offices Seventh Edition, 2013, states there are four basic strategies to reduce impaired driving: deterrence, prevention, communications and outreach, and alcohol treatment. Impaired driving materials are one of Ohio's communication and outreach strategies to inform the public of the dangers of impaired driving. The national Drive Sober or Get Pulled Over alcohol crackdown around the Labor Day Holiday combines highly visible law enforcement with both local and national media exposure. Paid media during the crackdown will highlight that law enforcement will be strictly enforcing impaired driving laws. Law enforcement agencies across the state will be encouraged to participate in the 2015 crackdown scheduled tentatively for August 21 – September 7, 2015. This money will be spent to provide law enforcement agencies and other partners (Safe Communities, traffic safety partners, etc.) around the state with materials (e.g., banners, signs, bumper magnets etc.) to promote the message.

Project Title: Drive Sober or Get Pulled Over Alcohol Crackdown Paid Media

Description:

The Countermeasures That Work: A Highway Safety Countermeasure Guide for State Highway Safety Offices Seventh Edition, 2013, states there are four basic strategies to

reduce impaired driving: deterrence, prevention, communications and outreach, and alcohol treatment. Mass Media Campaigns are specifically mentioned as an effective countermeasure. Paid media is a big component of Ohio's communication and outreach strategies to inform the public of the dangers of impaired driving. The national Drive Sober or Get Pulled Over alcohol crackdown around the Labor Day holiday combines highly visible law enforcement with both local and national media exposure. Advertising during the crackdown highlights that law enforcement will be strictly enforcing impaired driving laws during the crackdown period. Law enforcement agencies across the state will be encouraged to participate in the 2015 crackdown scheduled tentatively for August 21 – September 7, 2014.

The goal of the paid media plan for the 2015 alcohol crackdown is to decrease the number of impaired drivers and alcohol related fatalities. The media objective is to increase awareness of highly visible law enforcement with both local and national media exposure.

The target audience is defined as anyone who drives impaired or is likely to drive impaired on Ohio's roadways. In 2015, media will be heavily directed toward a younger male audience. Once again, the primary media target will be 18 - 34 year old males; however, other demographic audiences might be targeted based on Ohio's current crash data and on data from the 2014 statewide telephone surveys when they become available. Media will also be directed toward Ohio's multicultural communities.

The following is a projected media strategy for the paid media plan during the 2015 alcohol crackdown.

The following parameters will be adhered to:

- The total budget will not exceed \$400,000.
- The advertising will provide broadcast coverage in the major Ohio markets to Cleveland, Cincinnati, Columbus and Dayton, as in 2014.
- Flight weeks will be 8/21/2015 9/7/2015.
- Creative units available will include a :30 television spot and :30 radio spots.
- The target audience will be men 18 34 years.
- PSA units (unpaid media) will be no less than 30 40 percent of the buy and will be scheduled within the flight as much as possible.
- Media will complement the national NHTSA media buy.

Media tactics will include a combination of television, radio and print media that will be used to maximize the amount of resources for the sustained alcohol paid media plan. Bonus inventory will be required by each station. Regional radio will be negotiated in counties receiving less significant impact from the larger cities. Additional cost-efficiency and greater message reach are available in many of the smaller regions by employing spot radio as a part of this plan.

The final comprehensive paid media plan will be submitted to NHTSA for review and approval prior to implementation.

The sample media buy plan which is provided as an example of what will be purchased in 2015 can be found in Appendix K. The plan will be adjusted, based upon feedback from

NHTSA's media buyer, Ohio's current crash data and information received from the 2014 telephone survey analysis.

Project Number: M6OT-2015-00-00

Project Title: Drive Sober or Get Pulled Over Mobilization

Description:

The Countermeasures That Work: A Highway Safety Countermeasure Guide for State Highway Safety Offices Seventh Edition, 2013 states that Short-Term, High-Visibility Impaired Driving Law Enforcement has demonstrated to be effective. Ohio will continue to implement and expand the national impaired driving mobilization efforts in FFY 2015. Following the national model, campaign components will include earned media (education and outreach), paid media, high visibility law enforcement and evaluation.

OTSO will work to increase the level of law enforcement participation, partner reporting levels and expand its partnership network. More than 570 agencies are expected to participate in the 2015 enforcement mobilization.

With approximately 671 law enforcement agencies in the state, OTSO is unable to fund high visibility enforcement overtime for all agencies to support the mobilizations. Offering equipment rewards has been proven to be an effective incentive to participate and generates a large amount of earned media during the national mobilization. Traffic safety related equipment will continue to be awarded to agencies who participate in the 2014 national mobilizations. Awards will be based on the level of involvement, including high visibility enforcement, media outreach and timely reporting. The DSOGPO evaluation strategy is detailed under evaluation strategies. The following funding level is for law enforcement incentives only; it does not include the paid media described in the previous section or the evaluation strategies.

Project Title: Holiday Drive Sober or Get Pulled Over Alcohol Crackdown Paid Media

Description:

The Countermeasures That Work: A Highway Safety Countermeasure Guide for State Highway Safety Offices Seventh Edition, 2013, states there are four basic strategies to reduce impaired driving: deterrence, prevention, communications and outreach, and alcohol treatment. Mass Media Campaigns are specifically mentioned as an effective countermeasure. Paid media is a big component of Ohio's communication and outreach strategies to inform the public of the dangers of impaired driving. The goal of the paid media plan for the December/January crackdown is to decrease the number of impaired drivers and alcohol related fatalities. The media objective is to increase awareness of highly visible law enforcement with both local and national media exposure.

The target audience is defined as anyone who drives impaired or is likely to drive impaired on Ohio's roadways. In 2015, media will be heavily directed toward a younger male audience. Once again, the primary media target will be 18 - 34 year old males; however, other demographic audiences might be targeted based on Ohio's current crash data and on data from the 2014 statewide telephone surveys when they become

available. Media will also be directed toward Ohio's multicultural communities.

The following is a projected media strategy for the paid media plan during the December/January crackdown.

The following parameters will be adhered to:

- The total budget will not exceed \$150,000.
- The advertising will provide broadcast coverage in the major Ohio markets to Cleveland, Cincinnati, Columbus and Dayton.
- Flight weeks are TBD.
- Creative units available will include a :30 television spot and :30 radio spots.
- The target audience will be men 18 34 years.
- PSA units (unpaid media) will be no less than 30 40 percent of the buy and will be scheduled within the flight as much as possible.
- Media will complement the national NHTSA media buy.

Media tactics will include a combination of television, radio and print media that will be used to maximize the amount of resources for the sustained alcohol paid media plan. Bonus inventory will be required by each station. Regional radio will be negotiated in counties receiving less significant impact from the larger cities. Additional cost efficiency and greater message reach are available in many of the smaller regions by employing spot radio as part of this plan.

The final comprehensive paid media plan will be submitted to NHTSA for review and approval prior to implementation. The sample media buy plan which is provided as an example of what will be purchased in 2015 can be found in Attachment K. Project Title: Sustained Impaired Driving Paid Media Plan

Description:

The Countermeasures That Work: A Highway Safety Countermeasure Guide for State Highway Safety Offices Seventh Edition, 2013, states there are four basic strategies to reduce impaired driving: deterrence, prevention, communications and outreach, and alcohol treatment. Mass Media Campaigns are specifically mentioned as an effective countermeasure. Paid media is a big component of Ohio's communication and outreach strategies to inform the public of the dangers of impaired driving. In FFY 2015, Ohio will continue to model the national communications media plan to bridge the media gaps around

the national alcohol crackdowns with an appropriate mix of media, enforcement and social-norming initiatives to extend highway safety messages.

The goal will be to sustain alcohol messaging throughout the year with the highest concentration of paid media conducted during the Drive Sober or Get Pulled Over Crackdown and the December/January crackdown. Between these times, using other recognized brands like *Fans Don't Let Fans Drive*

Drunk. and *Buzzed Driving is Drunk Driving*. provides an opportunity to extend the core safety messages. Embracing social-norming messages allows us to look for marketing alliances with businesses and organizations already branded and important to our target audiences.

An emphasis is being placed on working with media partners who not only reach our target audience, but also embrace traffic safety messages and are willing to go above and beyond the traditional media buy to provide additional bonus spots, public service announcements with high profile talent, on the ground events and integrating traffic safety messaging into social media and enforcement campaigns, live reads during major events and other innovative and unique options that will help reach specific segments of our targeted audience.

Media tactics will include a combination of television, radio and print media that will be used to maximize the amount of resources for the sustained alcohol paid media plan.

- The networks and major cable systems will be selected in each of the major statewide markets. Presently the Ohio markets have a 70 75 percent cable penetration.
- Radio buys will be planned with Morning Drive, Afternoon Drive, Evenings and Weekends. Primary formats planned are Sports, Rock, Alternative, Urban Contemporary and Country, as appropriate for each demographic.
- Sports sponsorships with college and professional teams in Ohio will be used to promote responsible drinking throughout the season.
- Bonus inventory will be negotiated with each media outlet as available and will be a requirement to participate.
- Outdoor advertising will be limited and used only when it reaches the segment of the desired target audience.

The sustained alcohol paid media plan will complement the 2015 NHTSA National Communications Plan and the 2015 NHTSA Marketing Calendar which prioritizes NHTSA special events and messaging opportunities throughout the year. The final comprehensive paid media plan will be submitted to NHTSA for review and approval prior to implementation.

Project Title: OVI Task Force Program

Description:

The Countermeasures That Work: A Highway Safety Countermeasure Guide for State Highway Safety Offices Seventh Edition, 2013, states there are four basic strategies to reduce impaired driving: deterrence, prevention, communications and outreach, and alcohol treatment. High Visibility Sobriety checkpoints and High Visibility Saturation Patrols are both specifically mentioned as effective Enforcement Deterrence strategies. Ohio's OVI Task Force program is a countywide initiative to conduct high visibility enforcement, public awareness and education focusing on impaired driving. In order to reach our goal of reducing fatalities in crashes involving a driver or motorcycle operator with a blood alcohol concentration of .08 g/dL or higher, Ohio is concentrating its OVI Task Force program in the counties that experience the highest number of alcohol-related crashes. The counties that have a yearly average of at least six alcohol related fatal crashes were eligible to apply. Almost 45 percent of all the alcohol related fatal crashes in 2011, 2012 and 2013 (470 of 1,045) occurred in the 12 counties eligible to apply for funding.

Butler County	Mahoning County
Clark County	Medina County
Cuyahoga County	Montgomery County
Franklin County	Stark County
Hamilton County	Summit County
Lucas County	Trumbull County

These 12 counties represent 44.98 percent of the alcohol related fatal crashes and 54.38 percent of Ohio's population. Each Countywide OVI Task Force is required to conduct a minimum of 16 checkpoints* (2 during the Drive Sober or Get Pulled Over Crackdown), 3 press events (1 during Drive Sober or Get Pulled Over). Saturation patrols are conducted in conjunction with the checkpoints. OVI Task Forces conduct meetings with participating agencies to coordinate activities within the task force. All OVI Task Force sub-grantees are required to attend District meetings. Items discussed at the District meetings include: Recaps of previous blitzes/national campaigns, upcoming blitzes/national campaigns, current crash trends, enforcement activities, educational activities and other timely traffic related information specific to the district. Sub-grantees coordinate activities and plan locations based on local data and data shared at these meeting to ensure all activities are highly visible and are based on problem identification.

*Clark and Medina County did not meet the eligibility requirements for a task force. Both counties are being funded through an exit strategy. Medina County is funded at 75 percent of the FFY2013 level (9 checkpoints) and Clark County is funded at 50 percent of FFY 2012 level (6 checkpoints).

Project Title: Impaired Driving Enforcement Program (IDEP)

Description:

The Countermeasures That Work: A Highway Safety Countermeasure Guide for State Highway Safety Offices Seventh Edition, 2013 lists High Visibility Enforcement as a countermeasure that produces different results. High Visibility is designed to convince the public that there are consequences to traffic violations. Grants are awarded to law enforcement agencies whose jurisdictions experienced an average of 2.0 or more fatal crashes over the three-year period of 2011, 2012 and 2013. Each agency must conduct impaired driving enforcement activity to impact their fatal crashes. Highly visible enforcement activities are conducted at strategic times throughout the year consistent with the NHTSA Communications Calendar. In addition to the required Blitzes and National Campaign listed below, overtime enforcement based on local fatal/serious injury crash problem identification is eligible for funding. All IDEP sub-grantees are required to also submit for the Selective Traffic Enforcement Program (STEP) grant to conduct all other traffic related overtime activities (i.e. speed, seat belts, aggressive, etc.). All IDEP sub-grantees are required to attend District meetings. Items discussed at the District meetings include: Re-caps of Ohio FFY2015 Highway Safety Plan 48

previous blitzes/national campaigns, upcoming blitzes/national campaigns, current crash trends, enforcement activities, educational activities and other timely traffic related information specific to the district. Sub-grantees coordinate activities and plan locations based on local data and data shared at these meeting to ensure all activities are highly visible and are based on problem identification.

Project Title: District Impaired Driving Model

Description:

Ohio's 2008 – 2012 average number of alcohol-related (any impairment level) fatal crashes is 386. This is only one less than the previous five year (2007 – 2011) average. It is important that we continue to aggressively attack the problem of impaired driving with countermeasures that have been proven to be effective. Based on evidence based research using a problem identification approach, Ohio has implemented several successful countermeasures. One of the countermeasures that have been successful in Ohio is the Countywide OVI Task Force Model. This approach combines high visibility enforcement via checkpoints and saturations patrols that include law enforcement within a county. This approach also includes strong education/media and evaluation components. The District Impaired Driving Model is an expansion of the Countywide OVI Task force concept to include all OSP Districts using the same methods to achieve the goal of reducing alcohol-related fatalities within the district. The model will include:

Checkpoints/Saturations Patrols – mini-grants will be offered based on problem identification within each OSP District to local departments (police) to ensure a district wide effort in reducing alcohol-related fatalities.

Equipment – small mobile command units will be purchased and strategically placed throughout each District. These vehicles provide a dual purpose. They allow for multiple checkpoints within a District and serve as a deterrent containing the "Drive Sober of Get

Pulled Over" message prominently displayed on the vehicle. The vehicles would also be mobilized strategically as a visual reminder and deterrent at specific events and locations.

Training – Checkpoint, SFST and ARIDE training will be conducted within the District for all agencies. This will create a consistent and uniform model throughout the state and provide each District with the opportunity to increase local agency support.

See Drive Sober or Get Pulled Over Earned Media; Impaired Driving Materials; Drive Sober or Get Pulled Over Crackdown Paid Media; Sustained Paid Media and University Evaluation for the communication/outreach, media and evaluation components that will be used with this project.

Project Title: Statewide Impaired Driving Enforcement

Description:

The Countermeasures That Work: A Highway Safety Countermeasure Guide for State Highway Safety Offices Seventh Edition, 2013, states there are four basic strategies to reduce impaired driving: deterrence, prevention, communications and outreach, and alcohol treatment. High Visibility Sobriety checkpoints and High Visibility Saturation Patrols are both specifically mentioned as effective Enforcement Deterrence strategies. There were 1,932 alcohol related fatal crashes and 27,715 alcohol related injury crashes in Ohio between 2008 and 2012. In FFY 2015, the Ohio State Highway Patrol (OSHP) will continue with their Impaired Driving Enforcement grant. They will conduct 100 checkpoints and saturation patrols. There are eight OSHP districts in the state. Each district will conduct 11-14 low man-power checkpoints with coordinating saturation patrols. At least eight of checkpoints will be conducted during Drive Sober or Get Pulled Over. OSHP will conduct Basic, Regional and Judicial Standardized Field Sobriety Testing to train law enforcement officers throughout the state.

Budget:

Funding Level\$1,100,000Funding Source405dLocal Benefit\$0

Project Title: Trace Back Program

Description:

The Countermeasures That Work: A Highway Safety Countermeasure Guide for State Highway Safety Offices Seventh Edition, 2013, states there are four basic strategies to reduce impaired driving: deterrence, prevention, communications and outreach, and alcohol treatment. Responsible Beverage Service is mentioned as a prevention strategy that shows different effectiveness. The guide states that enforcement of alcohol service laws is key, but often lacking. The Ohio State Highway Patrol, Ohio Investigative Unit will continue to implement a statewide Trace Back program that was initiated in FFY 2013 where Agents will be called out to alcohol-involved fatal and serious injury crashes to interview suspect/witnesses to "trace back" where the alcohol was consumed prior to crash. Agents will open a case to determine if alcohol was served or consumed in violation of the law in an effort to hold establishments accountable for over serving and/or selling to minors. Grant funding will pay for trace back investigations that are completed in an overtime status.

Target:

- C-4) Reduce unrestrained passenger vehicle occupant fatalities (all seat positions) 2.97 percent from 404 (2008 2012 average) to 392 by 2015.
- B-1) Increase statewide seat belt compliance 0.59 percent from 84.5 (2013 baseline) to 85.0 by 2015.

Project Number: NF-2015-00-00-00

Project Title: Click It or Ticket (CIOT) Earned Media Plan

Description:

The Countermeasures That Work: A Highway Safety Countermeasure Guide for State Highway Safety Offices Seventh Edition, 2013 states that effective, high-visibility communications and outreach are an essential part of successful seat belt law high-visibility enforcement programs. Ohio's earned media plan will span the entire federal fiscal year with the heaviest emphasis during the national CIOT mobilization. Ohio uses many different networks to ensure earned media is achieved statewide (e.g. law enforcement, Safe Communities, Ohio Partnership for Traffic Safety (OPTS), etc.). OPTS is a statewide network of employers and safety advocates that Ohio uses to distribute messages and materials to reach the 21 - 40 year old age group. Messaging will be consistent with the National Communications Plan and will consist of the following components:

- Campaign toolkit developed for distribution to Ohio's law enforcement partners, Safe Communities programs, corporate partners and others that have a vested interest in traffic safety.
- The toolkit will include updated sample new releases, letter to the editors, fact sheets, newsletter articles and artwork.
- Broadcast e-mails to all safety partners directing them to the National Highway Traffic Safety Administration (NHTSA) web site as the mini-planners are released.
- Coordinated media kick off events by both the Ohio Department of Public Safety (ODPS) and Ohio's Safe Communities programs.
- Weekly traffic safety e-mail broadcast.
- ODPS will continue to partner with other state agencies to issue joint press releases and assist with media exposure.

Project Title: Seat Belt Materials

Description:

The Countermeasures That Work: A Highway Safety Countermeasure Guide for State Highway Safety Offices Seventh Edition, 2013 states that effective, high-visibility

communications and outreach are an essential part of successful seat belt law high-visibility enforcement programs. In FFY 2015, Ohio will continue to use the CIOT and What's Holding You Back? (WHYB) for sustained seat belt messaging throughout the year. The goal of the sustained effort is to increase statewide usage of seat belts. The objective is to elevate awareness of the seat belt message while coupled with heightened enforcement throughout the state of Ohio during periods other than the CIOT mobilization.

This money will be spent to provide law enforcement agencies and other partners (Safe Communities, traffic safety partners, etc.) around the state with materials (e.g., banners, signs, posters, etc.) to promote seat belt use.

Budget:

Funding Level\$150,000Funding Source402 OPLocal Benefit\$150,000

Project Number: M2X-2015-00-00-00

Project Title: Click It or Ticket Paid Media

Description:

The Countermeasures That Work: A Highway Safety Countermeasure Guide for State Highway Safety Offices Seventh Edition, 2013 states that effective, high-visibility communications and outreach are an essential part of successful seat belt law high-visibility enforcement programs. Ohio will continue to implement and expand the national seat belt mobilization model in FFY 2015. Campaign components will include earned media (education and outreach), paid media, high visibility law enforcement and evaluation.

A higher frequency of messaging directed at low usage populations helps increase awareness and equates to a higher overall compliance rate for belt use. New media partnerships and earned media will help expand the campaign's message into the low usage populations. In FFY 2015, TV and radio spots will continue to be concentrated and aired on stations most likely to reach Ohio's targeted demographic. Media will also be directed toward Ohio's multicultural communities. Additionally, a limited

amount of targeted outdoor and print media will be used during this effort.

The target audience is defined as anyone who drives or rides in a motor vehicle within the State of Ohio. According to the ODPS's 2013 Observational Survey of Safety Belt Use, younger drivers/passengers (ages $15 \frac{1}{2} - 25$) and men are less likely to use seat belts. Throughout 2015, a heavy emphasis of paid media will be directed toward younger men with the primary media target being 18 - 34 year olds. A secondary emphasis will continue to be male urban audiences, rural and pick-up truck drivers. Gross Rating Points (GRPs) will not be calculated until the national placement has been completed.

The following is a projected media strategy for the paid media plan during the 2015 CIOT campaign.

The following parameters will be adhered to:

• The total budget will not exceed \$600,000.

- The advertising will provide broadcast coverage in the major Ohio markets to Cleveland, Cincinnati, Columbus and Dayton.
- Flight weeks are 5/11/2015 5/25/2015.
- Creative units available will include a :30 television spot and :30 radio spots.
- The target audience will be men 18 34 years.
- PSA units (unpaid media) will be no less than 30 40 percent of the buy and will be scheduled within the flight as much as possible.
- Media will complement the national NHTSA media buy.

Media tactics will include a combination of television, radio and print media that will be used to maximize the amount of resources for the sustained alcohol paid media plan. Bonus inventory will be required by each station. Regional radio will be negotiated in counties receiving less significant impact from the larger cities. Additional cost-efficiency and greater message reach are available in many of the smaller regions by also employing a statewide radio network in part for this effort.

The final comprehensive paid media plan will be submitted to NHTSA for review and approval prior to implementation. The sample media buy plan, which is provided as an example of what will be purchased in 2015, can be found in Attachment K. The plan will be adjusted based upon feedback from NHTSA's media buyer, Ohio's current crash data and information received from the 2014 telephone survey analysis.

Project Title: Click It or Ticket Mobilization

Description:

The Countermeasures That Work: A Highway Safety Countermeasure Guide for State Highway Safety Offices Seventh Edition, 2013 states that Short-Term, High-Visibility Belt Law Enforcement has demonstrated to be effective. Ohio will continue to implement and expand the national seat belt mobilization efforts in FFY 2015. Following the national model, campaign components will include earned media (education and outreach), paid media, high visibility law enforcement and evaluation.

OTSO will work to increase the level of law enforcement participation, partner reporting levels and expand its partnership network. More than 570 agencies are expected to participate in the 2015 enforcement mobilization. Click It or Ticket – Day or Night will continue to be emphasized during the mobilization.

With approximately 671 law enforcement agencies in the state, OTSO is unable to fund high visibility enforcement overtime for all agencies to support the mobilizations. Offering equipment rewards has been proven to be an effective incentive to participate and generates a large amount of earned media during the national mobilization. Traffic safety related equipment will continue to be awarded to agencies who participate in the 2014 national

mobilizations. Awards will be based on the level of involvement, including high visibility enforcement, media outreach and timely reporting. The CIOT evaluation strategy is detailed under evaluation strategies. The following funding level is for law enforcement incentives only; it does not include the paid media described in the previous section or the evaluation strategies.

Budget:

Funding Level\$300,000Funding Source402 PTLocal Benefit\$0

Project Number: M2X-2015-00-00-00

Project Title: Sustained Belt Paid Media Plan

Description:

The Countermeasures That Work: A Highway Safety Countermeasure Guide for State Highway Safety Offices Seventh Edition, 2013 states that effective, high-visibility communications and outreach are an essential part of successful seat belt law high-visibility enforcement programs. In FFY 2015, Ohio will continue to model the national communications media plan to bridge the media gaps around the national seat belt mobilization with an appropriate mix of media, enforcement and social-norming initiatives to extend highway safety messages.

The goal will be to sustain the message throughout the year and to hit the highest peak during the national mobilization when we are deploying what we know works best in changing behavior. Throughout the year, using other recognized brands like What's Holding You Back? provides an opportunity to extend the core safety messages. Embracing social-norming messages allows us to look for marketing alliances with businesses and organizations already branded and important to our target audiences. We have learned that many partners are not comfortable spending their resources to aggressively promote a strong enforcement message. A year-round mix of enforcement and social-norming messages helps to avoid these conflicts and provides us with more opportunities to keep our messages in front of the public and our target audiences.

An emphasis is being placed on working with media partners who not only reach our target audience, but also embrace traffic safety messages and are willing to go above and beyond the traditional media buy to provide additional bonus spots, public service announcements with high profile talents, on the ground event and integrating traffic safety messaging into social media and enforcement campaigns, live reads during major events and other innovative and unique options that will help reach specific segments of our targeted audience.

Media tactics will include a combination of radio, television, outdoor advertising, theater ads and print materials to maximize the amount of resources for the sustained belt paid media plan.

• The networks and major cable systems will be selected in each of the major statewide markets. Presently the Ohio markets have a 70 – 75 percent cable penetration.

- Radio buys will be planned with Morning Drive, Afternoon Drive, Evenings and Weekends. Primary formats planned are Sports, Rock, Alternative, Urban Contemporary and Country, as appropriate for each demographic.
- Sports sponsorships with college and professional teams in Ohio will be used to promote seat belt use throughout the season.
- Bonus inventory will be negotiated with each media outlet as available and will be a requirement to participate.
- Outdoor advertising will be limited and used only when it reaches the segment of the desired target audience.

High Risk Populations

Teens

Ohio is working to target rural teen seat belt usage. Huddle High Schools, Inc. distributes high school tickets for regular season events (sports, plays, etc.) for high schools throughout Ohio. Last year, OTSO cosponsored over 130 high schools (2 million ticket backs) in southeast Ohio, Columbus and Cleveland markets with a "Buckle-Up in Your Truck" seat belt message during the school year to direct target this audience.

Rural

Ohio is working to target rural seat belt usage. Through Huddle, high school sport tickets are printed with the "Buckle-Up in Your Truck" message in rural areas. Currently, 50 rural school bus shelter locations statewide are also printed with the same message. These bus shelters are located along rural routes. The message is placed on the outside of the shelter for passing traffic to see.

18 – 34 year old Male

This target audience has been identified throughout the state of Ohio as a low-usage population. Qualitative research information has generally identified the younger men (16 -24 years) within this demographic as the most "high risk" drivers and passengers. These men are also less likely to use seat belts if they travel in pic-up trucks, consume alcohol, or ride at night and/or are African American and Latino. Ohio works closely with both the state and national media buyer to target 18 - 34 year old male seat belt usage. Ohio runs seat belt messages during home games throughout the season with the following sports teams in Ohio to target this high risk population: Cincinnati Reds, Cleveland Indians, Columbus Clippers, Toledo Mudhens, and The Ohio State University. These partners generally include television, radio, interior and exterior signage. The broadcast coverage for the MLB (Major League Baseball) teams includes a broad network of stations in the region beyond just the metro market that in primarily serves.

The sustained belt paid media plan will complement the 2015 NHTSA National Communications Plan, the 2015 NHTSA Marketing Calendar which prioritizes NHTSA special events and messaging opportunities throughout the year. The final comprehensive media plan will be submitted to NHTSA for review and approval prior to implementation.

Project Title: Occupant Protection Coordinator (OPC) Program

Description:

The Countermeasures That Work: A Highway Safety Countermeasure Guide for State Highway Safety Offices Seventh Edition, 2013 list Communications and Outreach Strategies for Booster Seat Use, Child Distribution Restraint Programs, and Inspection Stations as countermeasures producing different results. In FFY 2015, Ohio Department of Health (ODH) will continue to be the lead agency for the OPC program. ODH plans to contract with seven OPC Coordinators to provide occupant restraint programming to all 88 Ohio counties. The OPC responsibilities include coordinating a child safety seat distribution program for low-income families, conducting car seat check-up

events,

coordinating the NHTSA 32-hour Standardized CPS Technician Training course and associated refresher course, disseminating occupant protection education and training for youth, and the National Campaigns for CPS and booster seats. The OPC program will continue to emphasize Ohio's booster seat law. This program has been scaled back over the last several years to keep funding in line with problem identification. Ohio has a low number of unbelted fatalities up to age nine. Ohio law requires children to be in either a car seat or booster seat until the age of eight. In addition to checking car seat and/or booster seats, technicians use the opportunity to provide seat belt education and tips to the entire family (parents, caregivers and older siblings). ODH will now oversee a program to provide special needs child safety seat clinics; provide training on how to safely transport children with special needs, and provide special needs safety seats to low income families. The OPC Coordinator that oversees the special needs program will serve as a statewide resource.

Target:

- C-1) Reduce traffic fatalities 7.45 percent from 1,087 (2008 2012 average) to 1,006 by 2015.
- C-2) Reduce serious traffic injuries 6.74 percent from 9,901 (2008 2012 average) to 9,234 by 2015.
- C-3a) Reduce the fatalities/VMT rate 6.12 percent from 0.98 (2008 2012 average) to 0.92 by 2015.
- C-3b) Reduce the rural fatalities/VMT rate 5.79 percent from 1.90 (2008 2012 average) to 1.79 by 2015.
- C-3c) Reduce the urban fatalities/VMT rate 5.66 percent from .53 (2008 2012 average) to .50 by 2015.
- C-4) Reduce unrestrained passenger vehicle occupant fatalities (all seat positions) 2.97 percent from 404 (2008 2012 average) to 392 by 2015.
- C-5) Reduce impaired driving fatalities (.08 and above) 3.81 percent from 341 (2008 2012 average) to 328 by 2015.
- C-6) Reduce speed-related fatalities 3.59 percent from 306 (2008 2012 average) to 295 by 2015.
- C-7) Reduce motorcyclist fatalities 17.14 percent from 175 (2008 2012 average) to 145 by 2015.
- C-8) Reduce un-helmeted motorcyclist fatalities 10.85 percent from 129 (2008 2012 average) to 115 by 2015.
- C-9) Reduce drivers age 20 or younger involved in fatal crashes 16.17 percent from 167 (2008 2012 average) to 140 by 2015.
- C-10) Reduce pedestrian fatalities 4.04 percent from 99 (2008 2012 average) to 95 by 2015.**
- C-11) Reduce bicycle fatalities 6.25 percent from 16 (2008 2012 average) to 15 by 2015.**
- B-1) Increase statewide seat belt compliance 0.59 percent from 84.5 (2013 baseline) to 85.0 by 2015.

**The trends for speed, pedestrian, and bicycle were increases. A standard 1.25 percent per year from 2012 reduction was used for each of these goals to ensure the goal was a reduction by 2015.

Project Number: PT-2015-00-00-00

Project Title: Selective Traffic Enforcement Program

Description:

The Countermeasures That Work: A Highway Safety Countermeasure Guide for State Highway Safety Offices Seventh Edition, 2013 lists High Visibility Enforcement as a countermeasure that produces different results. High Visibility is designed to convince the public that there are consequences to traffic violations. Grants are awarded to law enforcement agencies whose jurisdictions experienced an average of 2.0 or more fatal crashes over the three-year period of 2011, 2012 and 2013. Each agency must conduct enforcement activity (i.e., speed, seat belt, aggressive, etc.) to impact their fatal crashes. *FFY2015 Highway Safety Plan* 62 Highly visible enforcement activities are conducted at strategic times throughout the year consistent with the NHTSA Communications Calendar. In addition to the required Blitzes and National Campaign listed below, overtime enforcement based on local fatal/serious injury crash problem identification is eligible for funding. All STEP sub-grantees are required to also submit for the Impaired Driving Enforcement (IDEP) grant to conduct impaired driving related overtime activities. All STEP sub-grantees are required to attend District meetings. Items discussed at the District meetings include: Re-caps of previous blitzes/national campaigns, upcoming blitzes/national campaigns, current crash trends, enforcement activities, educational activities and other timely traffic related information specific to the district. Sub-grantees coordinate activities and plan locations based on local data and data shared at these meeting to ensure all activities are highly visible and are based on problem identification.

Project Title: Statewide STEP and Training

Description:

The Countermeasures That Work: A Highway Safety Countermeasure Guide for State Highway Safety Offices Seventh Edition, 2013 lists High Visibility Enforcement as a

countermeasure that produces different results. The Ohio State Highway Patrol (OSHP) conducts speed, occupant restraint, alcohol-related and motorcycle enforcement activity statewide to impact fatal crashes. Highly visible enforcement activities are conducted at strategic times consistent with the NHTSA Communications calendar. OSHP will conduct Basic Crash Investigation, Intermediate Crash Investigation, Technical Crash Investigation, Electronic Speed Measuring Device (ESMD), ESMD

402 PT

Instructor, ESMD Judicial Seminar; to train law enforcement officers throughout the state.

Project Title: Construction Zone Safety Project

Description:

The Countermeasures That Work: A Highway Safety Countermeasure Guide for State

Highway Safety Offices Seventh Edition, 2013 lists High Visibility Enforcement as a countermeasure that produces different results. ODOT and ODPS have formalized a partnership to reduce crashes in Ohio's construction zones. The purpose of this program is to have an enforcement presence and education campaign in identified interstate

highway construction zones. Grants are awarded to sub-grantees (local police departments, county sheriff's offices and / or the Ohio State Highway Patrol) to conduct traffic enforcement in an effort to reduce construction zone crashes. This activity will continue in FFY 2015. Between 2008 and 2012, there have been 71 fatal crashes and 6,301 injury crashes in construction zones.

Budget:

Motorcycle Safety Program Area

Target:

- C-7) Reduce motorcyclist fatalities 17.14 percent from 175 (2008 2012 average) to 145 by 2015.
- C-8) Reduce un-helmeted motorcyclist fatalities 10.85 percent from 129 (2008 2012 average) to 115 by 2015.

Project Number: NF-2015-00-00-00

Project Title: Motorcycle Safety Earned Media Plan

Description:

The Countermeasures That Work: A Highway Safety Countermeasure Guide for State Highway Safety Offices Seventh Edition, 2013 lists Communications and Outreach as a strategy that has limited or no high-quality evaluation evidence. Ohio's earned media plan will span the entire motorcycle riding season. Ohio uses many different networks to ensure earned media is achieved statewide (e.g. law enforcement, Safe Communities, Ohio Partnership for Traffic Safety (OPTS), etc.) OPTS is a statewide network of employers and safety advocates that Ohio uses to distribute messages and materials to reach the 21 - 40 year old age group. Ohio's messaging contains messages to both the motorcyclist about

riding "SMART" (Sober, Motorcycle endorsed, Alert, with the Right gear, and properly Trained) and to the motoring public about sharing the road with motorcyclists. The earned media plan consists of the following components:

- Campaign toolkit developed for distribution to Ohio's law enforcement partners, Safe Communities programs, corporate partners and others that have a vested interest in traffic safety.
- The toolkit will include updated sample new releases, letter to the editors, fact sheets, newsletter articles and artwork.
- Broadcast e-mails to all safety partners directing them to the National Highway Traffic Safety Administration (NHTSA) web site as the mini-planners are released.
- Coordinated media kick off events by both the Ohio Department of Public Safety (ODPS) and Ohio's Safe Communities programs.
- Weekly traffic safety e-mail broadcast.
- ODPS will continue to partner with other state agencies to issue joint press releases and assist with media exposure.

Project Title: Motorcycle Awareness (Share the Road)

Description:

The Countermeasures That Work: A Highway Safety Countermeasure Guide for State Highway Safety Offices Seventh Edition, 2013 lists Communications and Outreach as a strategy that has limited or no high-quality evaluation evidence. Ohio's messaging contains messages to both the motorcyclist about riding "SMART" (Sober, Motorcycle endorsed, Alert, with the Right gear, and properly Trained) and to the motoring public about sharing the road with motorcyclists. In FFY 2015, any remaining Section 2010 Funding and Section 405f funding will be used to purchase motorcycle awareness materials (e.g., banners, magnets, yard signs, etc.) aimed to increase motorists' awareness of motorcyclists, motorcycles for the training program and a truck with trailer to transport the motorcycles to the training sites.

In addition to distributing materials directly to traffic safety partners, OTSO distributes materials to the Safe Community programs for distribution.

Budget:

Funding Level	\$150,000	Funding Source	2010	Local Benefit	\$150,000

Description:

The Countermeasures That Work: A Highway Safety Countermeasure Guide for State Highway Safety Offices Seventh Edition, 2013 lists Communications and Outreach as a strategy that has limited or no high-quality evaluation evidence. Ohio's messaging contains messages to both the motorcyclist about riding "SMART" (Sober, Motorcycle endorsed, Alert, with the Right gear, and properly Trained) and to the motoring public about sharing the road with motorcyclists. In addition to the materials focusing on motorist awareness that will be purchased with Section 2010 and Section 405f funds, OTSO is committing 402 funds to provide law enforcement agencies and other partners (Safe Communities, traffic safety partners, etc.) around the state with materials (e.g., banners, signs, posters, etc.) to motorcyclist safety messages (Ride SMART – Sober, Motorcycle Endorsed, Alert, Right gear, Trained).

Budget:

Funding Level\$50,000Funding Source402 MCLocal Benefit\$50,000

Project Number: PM-2015-00-00-00

Project Title: Motorcycle Safety Paid Media

Description:

The Countermeasures That Work: A Highway Safety Countermeasure Guide for State Highway Safety Offices Seventh Edition, 2013 lists Communications and Outreach as a strategy that has limited or no high-quality evaluation evidence. Ohio's messaging contains messages to both the motorcyclist about riding "SMART" (Sober, Motorcycle endorsed, Alert, with the Right gear, and properly Trained) and to the motoring public about sharing the road with motorcyclists. Ohio's motorcycle paid media plan will complement the 2015 NHTSA National Communications Plan for the motorcycle safety. Messaging will be submitted to NHTSA for review prior to implementation.

An emphasis is being placed on working with media partners who not only reach our target audience, but also embrace traffic safety messages and are willing to go above and beyond the traditional media buy to provide additional bonus spots, public service announcements with high profile talent, on the ground events and integrating traffic safety messaging into social media and enforcement campaigns, live reads during major events and other innovative and unique options that will help reach specific segments of our targeted audience.

The final comprehensive paid media plan will be submitted to NHTSA for review and approval prior to implementation. The sample media buy plan, which is provided as an example of what will be purchased in 2015, can be found in Attachment K. The plan will be adjusted

based upon feedback from NHTSA's media buyer, Ohio's current crash data and information received from the 2014 telephone survey analysis.

Project Title: Safe Communities

Description:

See Fatal/Serious Injury Program Area for full description of Safe Communities. *The Countermeasures That Work: A Highway Safety Countermeasure Guide for State Highway Safety Offices Seventh Edition, 2013* lists Communications and Outreach as a strategy that has limited or no high-quality evaluation evidence. Each Safe Communities program must have activity in their grant for the motorcycle riding season. Each Safe Communities is required to develop partnerships and hold events at the grassroots level to reach motorcyclists in their communities. Safe Communities provides the education/earned media portion of the motorcycle campaign while our law enforcement agencies including the OSHP conduct motorcycle enforcement.

Budget:

Funding: Included in Fatal/Injury Program Area

Project Number: SF-2015-00-00-00

Project Title: Motorcycle Ohio Program

Description:

The Countermeasures That Work: A Highway Safety Countermeasure Guide for State Highway Safety Offices Seventh Edition, 2013 lists Motorcycle Rider Training as a strategy that has limited or no high-quality evaluation evidence. NHTSA's Motorcycle Safety Program Plan states that motorcycle rider training provides opportunities for novice riders to learn basic skills and returning riders can refresh and refine their skills. This plan recommends that

States conduct frequent training. This training is also a component in the Section 405f funding. The state-mandated Motorcycle Ohio (MO) program provides motorcycle safety courses to the public. In addition to training Ohio motorcyclists, MO develops and distributes public information and education materials, makes presentations regarding motorcycle safety issues and works to improve the driver licensing system for motorcyclists. MO is funded from \$6.00 of each motorcycle registration. Course tuition of \$50.00 also helps support program costs.

A 16-hour basic riding course is mandatory for 16 and 17 year olds to obtain a motorcycle endorsement. The basic course is offered at 22 fixed and four mobile training sites across the state. Successful completion of the basic course waives the state on-cycle skill test.

Separate courses are available for experienced riders and motorcyclists interested in becoming a motorcycle instructor; tuition is charged for all three of these courses. The experienced rider course is offered at seven of these sites, while the instructor preparation course is offered on an as needed basis at select training sites across the state. It is anticipated that more than 14,500 Ohioans will participate in courses in 2014.

Budget:

Project Number: PT-2015-00-00-00

Project Title: Selective Traffic Enforcement Program

Description:

See Speed Program Area for full description of Selective Traffic Enforcement Program (STEP). *The Countermeasures That Work: A Highway Safety Countermeasure Guide for State Highway Safety Offices Seventh Edition, 2013* lists High Visibility Enforcement as a countermeasure that produces different results. High Visibility is designed to convince the public that there are consequences to traffic violations. Each STEP grant is required to conduct highly visible enforcement based on local problem identification. STEP enforcement (speed, aggressive, etc.) applies to all vehicles including motorcycles. Enforcement activities specific to motorcycles would be based on local problem identification.

Budget:

Funding: Included in Speed Program Area

Project Number: M6OT-2015-00-00-00

Project Title: Impaired Driving Enforcement Program

Description:

See Impaired Driving Program Area for full description of Impaired Driving Enforcement Program (IDEP). *The Countermeasures That Work: A Highway Safety Countermeasure Guide for State Highway Safety Offices Seventh Edition, 2013* lists High Visibility Enforcement as a countermeasure that produces different results. High Visibility is designed to convince the public that there are consequences to traffic violations. Each IDEP grant is required to conduct highly visible enforcement based on local problem identification. IDEP enforcement applies to all vehicles including motorcycles. Enforcement activities specific to motorcycles would be based on local problem identification.

Budget:

Funding: Included in Impaired Driving Program Area

Project Number: CP-2015-00-00-00

Project Title: Motorcycle Campaign Evaluation (University Evaluation)

Description:

As required in the national model, campaign components will include earned media (education and outreach), paid media, high visibility law enforcement and evaluation. See Evaluation under Traffic Safety Program Management for evaluation description.

Youthful Driver Program Area

Target:

- C-9) Reduce drivers age 20 or younger involved in fatal crashes 16.17 percent from 167 (2008 – 2012 average) to 140 by 2015.
- Reduce distracted driving fatal crashes 7.69 percent from 13 (2008 2012 average) to 12 by 2015.***
- Reduce distracted driving injury crashes 3.72 percent from 1,612 (2008 2012 average) to 1,552 by 2015.***

*** In 2011, Ohio began adding fields to the OH-1 (Crash Report) to capture distracted driving data. The revised OH-1 was available for use in 2012, but was not mandatory until 2013. Distracted driving data is incomplete for 2011 and 2012. The trend method was used to set the goals, however the goals may need to be re-evaluated as the new data becomes available.

Project Number: TSP-2015-00-00-00

Project Title: Statewide Youth Program

Description:

As required in MAP-21, Ohio will offer statewide peer-to-peer youth programming through a grant with Impact Teen Drivers. Impact teen drivers will facilitate peer-to-peer education by brining leaders from student organizations, student governments and other organizations together in a statewide youth summit. Student leaders will be trained to engage their peers in promoting a safe driving culture and they will be given tools to help maintain high-profile distracted driving awareness programs/activities throughout the school year. Impact will also facilitate the evidence-based program "What Do You Consider Lethal?" program in high schools throughout the state. Priority will be given to schools in counties with high teen traffic Impact Teen Drivers plans to use a combination of school assemblies, fatality rates. classroom presentations, parent-teen workshops, and lead-the-leaders workshops to convey the message to teens. The third approach Impact Teen Drivers plans for FFY 2015 is to conduct Train-the-Trainer workshops, participate in community outreach events and disseminate education kits. These peer-to-peer efforts are designed to: increase seat belt use; reduce speeding; reduce impaired driving; reduce distracted driving; reduce underage drinking; and reduce other risky behaviors that contribute to injuries and fatalities.

Pedestrian Safety Program Area

Target:

C-10) Reduce pedestrian fatalities 4.04 percent from 99 (2008 – 2012 average) to 95 by 2015.**

**The trends for speed, pedestrian, and bicycle were increases. A standard 1.25 percent per year from 2012 reduction was used for each of these goals to ensure the goal was a reduction by 2015.

Project Number:	SC-2015-00-00-00
-----------------	------------------

Project Title: Safe Communities

Description:

See Fatal/Serious Injury Program Area for full description of Safe Communities. Each Safe Communities program can direct programming based on local problem identification. Franklin County has proposed pedestrian activities in their grant to address their pedestrian issues. Franklin County had 26 pedestrian fatalities in 2011, 13 in 2010 and 12 in 2009. Hamilton County had 5 pedestrian fatalities in 2011, 5 in 2010 and 7 in 2009. These fatalities are 24.11 percent of the statewide fatalities in those years. Franklin County Safe Communities will conduct evidence based programs that will specifically address their pedestrian problem identification.

Budget:

Funding: Incl. in Fatal/Serious Injury Program Area

Project Number: NF-2015-00-00-00

Project Title: SHSP Pedestrian Programs

Description:

Through the SHSP, ODOT is working with local governments to identify areas with a disproportionate number of pedestrian crashes and to make recommendations and

investments that improve safety for pedestrians. ODOT also continues to fund Safe Routes to assist communities in developing and implementing projects and programs that encourage and enable children in grades K-8 to walk or bike to school safely.

Project Title: Distracted Driving Earned Media Plan

Description:

The Countermeasures That Work: A Highway Safety Countermeasure Guide for State Highway Safety Offices Seventh Edition, 2013 lists Communications and Outreach as a strategy that has limited or no high-quality evaluation evidence. Ohio's earned media plan will span the entire year. Ohio uses many different networks to ensure earned media is achieved statewide (e.g. law enforcement, Safe Communities, Ohio Partnership for Traffic Safety (OPTS), etc.) OPTS is a statewide network of employers and safety advocates that Ohio uses to distribute messages and materials to reach the 21 – 40 year old age group. The earned media plan consists of the following components:

- Campaign toolkit developed for distribution to Ohio's law enforcement partners, Safe Communities programs, corporate partners and others that have a vested interest in traffic safety.
- The toolkit will include updated sample new releases, letter to the editors, fact sheets, newsletter articles and artwork.
- Broadcast e-mails to all safety partners directing them to the National Highway Traffic Safety Administration (NHTSA) web site as the mini-planners are released.

- Coordinated media kick off events by both the Ohio Department of Public Safety (ODPS) and Ohio's Safe Communities programs.
- Weekly traffic safety e-mail broadcast.
- ODPS will continue to partner with other state agencies to issue joint press releases and assist with media exposure.

Project Title: Distracted Driving Materials

Description:

The Countermeasures That Work: A Highway Safety Countermeasure Guide for State Highway Safety Offices Seventh Edition, 2013 lists Communications and Outreach as a strategy that has limited or no high-quality evaluation evidence. This money will be spent to provide law

enforcement agencies and other partners (Safe Communities, traffic safety partners, etc.) around the state with materials (e.g. banners, signs, posters, etc.) to promote the distracted driving message.

Budget:

Funding Level\$150,000Funding Source402 DDLocal Benefit\$150,000

Project Number: PT-2015-00-00-00

Project Title: Selective Traffic Enforcement Program

Description:

See Speed Program Area for full description. *The Countermeasures That Work: A Highway Safety Countermeasure Guide for State Highway Safety Offices Seventh Edition, 2013* lists High Visibility Enforcement as a countermeasure that produces different results. High Visibility is designed to convince the public that there are consequences to traffic violations. Each law enforcement agency must conduct high visibility enforcement activities to impact their fatal crashes. In addition to speed and seat belts, law enforcement will be focusing on distracted driving. Highly visible enforcement activities are conducted at strategic times throughout the year consistent with the NHTSA Communication Calendar. All STEP subgrantees will be encouraged to participate in multiple Distracted Driving blitzes throughout the year. One will be during National Distracted Driving Month in April. The second blitz will be the last week of July through the first week of August. These HVE activities will follow the model to include publicizing the activity, earned media, and enforcement. Educational and promotional materials will be sustained throughout the year educating motorists on Ohio's texting law.

Traffic Records Program Area

Target:

- Ohio has 76 out of 88 counties that are LBRS (Location Based Response System) compliant with an additional 5 counties that are in the process. Ohio's goal is to have 79 counties compliant by December 31, 2015
- Currently 45 percent of Ohio's crash reports are submitted electronically. Ohio's goal is to increase this to 47 percent by December 31, 2015.
- Currently Ohio does not have a statewide citation tracking system. Ohio's goal is to have a pilot project up and running by December 31, 2014.

Project Number: NF-2015-00-00-00

Project Title: Traffic Records Coordinating Committee (TRCC)

Description:

As required in 23 U.S.C. 405(c), Ohio continues the TRCC committee. The TRCC is comprised of state, local and federal agencies who are stakeholders in the traffic crash records system. Committee members oversee implementations of the Traffic Records Strategic Plan. OTSO participates in the TRCC working group which meets at least bi-

monthly. In FFY 2015, the TRCC will focus on implementing the priority projects that were identified in the 2009 Traffic Records Assessment.

Budget:

	Funding Level \$0	Funding Source	N/A Local Benefit	\$0
--	-------------------	----------------	-------------------	-----

Project Number: K9-2015-00-00-00 **Project Title:** Location Based Response System (LBRS)

Description:

As an identified project to improve the accuracy of crash reports, in a joint partnership with the Ohio Department of Transportation (ODOT), Ohio will continue the LBRS project. The purpose of this project is to provide a multi-jurisdictional statewide asset containing accurate street centerline information, valid address ranges for every road throughout the state, along with other critical roadway inventory items that will improve traffic crash location information and highway safety analysis, as well as enable quick response of emergency responders. This project is identified as a priority in the TRCC's strategic plan. Counties that have been completed are available online at: http://ogrip.oit.ohio.gov/ProjectsInitiatives/LBRS.aspx

Budget:

Funding Level \$350,000 Funding Source 408 Local Benefit \$800,	Funding Level	\$350.000	Funding Source	408	Local Benefit	\$800.000
---	---------------	-----------	----------------	-----	---------------	-----------

Project Numbers:	K9-2015-00-00-00
	M3DA-2015-00-00-00
Project Title:	TRCC Projects Grant

Description:

The Ohio State Highway Patrol chairs the TRCC committee. In an effort to streamline the project management process, the OSHP has been awarded a grant to oversee the TRCC grant projects. All project suggestions will continue to be submitted to the TRCC Committee. The committee will decide as a whole on whether or not to submit the project(s) to NHTSA for funding approval. Projects that will be completed by internal ODPS agencies will be overseen by the patrol through this grant. Projects that will be completed by external agencies through a grant process will continue to be awarded as sub-grants to the individual agencies. This should help liquidate the 408/405c funds in a more efficient manner. The projects being funded under the OSHP grant include:

Crash Data Export

Agencies with existing electronic records management systems still have to submit hard copy crash reports to ODPS. In order for those agencies to submit electronically, their existing software needs to be modified to be compatible with ODPS' software. After the modifications, these agencies will be able to submit crash reports electronically. In 2013, 36 percent of all crash reports were received electronically. Currently 45 percent of all crash reports are received electronically. This shows an increase of nine percent. Electronic crash reporting increases accuracy and timeliness. - \$263,223.00 FFY2015 Highway Safety Plan Ohio 79

Crash Mapping

This project will develop an application for in-vehicle crash location collection as well as a web-based map solution. This application will target in-vehicle (police cruiser) deployment to better facilitate more accurate and timely crash location data entry and capture. It will also include the ability to provide analytical and mapping capabilities both in-vehicle and downstream via a complimentary web application. Crash information will be processed and distributed to ODPS and ODOT for reporting, statistical analysis and mitigation strategy development. There will be less data clean-up efforts required and a higher level of confidence in the data that is coming directly from the reporting law enforcement officer filling out the crash reports. This will better facilitate more efficient means to provide real-time crash location mapping and analysis and eliminate the post processing that has historically occurred to prepare the data for use. The improved crash data will be used to develop safety mitigation strategies and implement roadside improvements in a more efficient manner. **\$250,000.00**

Crash Pad

This project is to create a centralized electronic traffic crash submission currently being utilized as the Law Enforcement Officer Toolkit (LEOT) and integrate the Ohio Law Enforcement Gateway (OLEG) for more up-to-date data collection from all Ohio Law Enforcement Agencies. This project allows for another method of electronic submission to increase the accuracy and timeliness of crash reports. - **\$300,000.00**

Crash Reconstruction

This project will enhance the ability of the Ohio State Highway Patrol's Crash Reconstruction Unit to collect information and accurately process evidence from crash scenes. The information is used to determine the causative factors of traffic crashes, identify problem areas, problem behaviors and prosecute individuals involved in crashes. The Crash Reconstruction Unit is available to all law enforcement in Ohio. - **\$237,000.00**

EMS Trauma Registry / Incident Reporting System

The project will be based on data definition and programming specification provided by the National Trauma Data Standards (NTDS). The goal will be to create a system that meets the data collection needs of the state of Ohio and is capable of providing improved analysis of the state trauma systems and trauma care, as well as allowing for comparison of data with other state and national data. The Traffic Records Assessment recommended upgrading the Ohio Trauma Registry to meet the National Trauma Data Standard.

The purpose of this project is to improve the accuracy of the data in the EMS Incident Reporting System to meet the standards set forth by National EMS Information System (NEMSIS). In order to be able to collect information that not only meets the standards but also allows for business rules and edit checks to be done automatically by the software will help ensure the completeness and consistency of the data. - **\$280,000.00**

EMS Rehabilitation Registry

The project will upgrade the Rehabilitation Registry to the same standards and the Trauma Registry. - **\$200,000.00**

Citation Tracking

This project will be based on documents from federal and state sources and interviews with key personnel from representative agencies and stakeholders within the State. Ohio's goal for FFY 2015 will be to continue the pilot project with one urban and one rural agency. By the end of the FFY 2015, Ohio will have a baseline of number of citations captured to base future goals for this project. Funds will be spent on software development and equipment. **\$3,153,336**

Road Intersection Inventory Project

This project will improve data collection and reporting of intersection crashes. This will improve the accuracy of crashes and problem identification. - **\$73,000.00**

Traffic Safety Program Management Program Area

Target:

- Ohio will process sub-grantee reimbursement claims in an average of 6 days. In FFY 2013, the average was 13.6 days.
- Ohio will award at least 45 percent of awarded grant funds to local benefit. Currently 48.4 percent is awarded to local benefit.
- Ohio will liquidate 60 percent of its funds in FFY 2015. In FFY 2013, Ohio liquidated 39.82 percent.****
- Ohio will increase mobilization reporting to 85 percent from 71.32 percent in FFY 2013.
- The FFY 2015 goal is for the TSRP to attend regional and national training and to provide at least 30 training opportunities statewide for prosecutors and law enforcement.

**** Liquidation rate does not include 164-HE funds.

Project Title: Traffic Safety Grant Program Management

Description:

Housed under the Ohio Department of Public Safety (ODPS) within the Ohio State Highway Patrol (OSHP), OTSO administers the Section 402 State and Community grants, related National Highway Traffic Safety Administration (NHTSA) awards and initiatives and contracts for traffic safety activities. Expenses incurred include: direct office expenditures, staff salaries, benefits, staff travel, equipment, supplies and other costs necessary to carry out the functions of the Traffic Safety Section. OCJS's Grants Fiscal Monitoring and Compliance Section will monitor traffic safety grants. Each grant will be fiscally monitored each grant year.

Project Number: PA-2015-00-00-00

Project Title: Web-Based Grants Management System

Description:

The Web-based grants management system called GRANTS (Grant Records and Application Network for Traffic Safety) was launched in 2005 to receive grant proposals for FFY 2006. The online system makes the

entire grant management process more efficient and accessible. This system eliminated paper submission while enhancing grant tracking because all agencies are required to submit

their proposal, reports, reimbursement claims and grant revisions through the online system. A grant file can be accessed by multiple viewers from different agencies at the same time provided they have the security level to view the grant. In FFY 2015, the grant management system begins the tenth year of use. The funding allocated to this project is for maintenance service, training and system enhancements.

Budget:

Funding Level \$109,500 Funding Source 402 PA Local Benefit \$0

Project Number: NF-2015-00-00-00

Project Title: Regional Strategy

Description:

The programmatic staff oversees a geographical region of the state, rather than focusing solely on grant program area(s). The state is divided into eight patrol districts and a planner is assigned to manage most agreements within each district. The regional approach will continue in FFY 2015.

The regional strategy:

- Reinforces the national goals by focusing planning staff on lowering the fatal crashes within their region;
- Encourages staff to build relationships with a broader array of traffic safety advocates who have interest in a geographic area of the State and allows staff to identify potential partners who are not involved in the planning and implementation of traffic safety initiatives;
- Reduces the number of planning staff assigned to a grantee agency, allowing for more consistency;
- Broadens planning staff's knowledge of other grant program areas; and
- Encourages communications among planning staff which results in more consistency in the management of grants, both within their region and across the state.

Quarterly meetings, chaired by the OSHP District Captain, are a requirement for each FFY 2015 sub-grantee. Other agencies are encouraged to attend as well. These quarterly meetings are designed to have all sub-grantees coordinating activities and resources within each district. Using this approach, OTSO anticipates more involvement from our partners, better use of resources, and increased liquidation.

Project Title: Traffic Safety Resource Prosecutor Program (TSRP)

Description:

Ohio currently has one TSRP. A TSRP's role is designed to increase the ability of prosecutors and law enforcement to effectively present and prosecute traffic safety violations, particularly focusing on impaired driving. The TSRP works closely with the Law Enforcement Liaisons (LELs) and is a valuable resource to the office and to all of our partners. Throughout *The Countermeasures That Work: A Highway Safety Countermeasure Guide for State Highway Safety Offices Seventh Edition, 2013* laws are mentioned as effective strategies for almost every program area. The TSRP is a vital resource for local communities in traffic safety laws. The TSRP will be conducting classes for law enforcement and prosecutors in FFY 2015 on various traffic safety related issues. The TSRP plans to conduct 20 Cops In Court Classes to train cops throughout Ohio on testifying in court. Also planned for FFY 2015 are ten DUI Boot Camp courses designed for prosecutors in Ohio. This course is designed to update prosecutors on DUI laws and prosecution strategies. Both courses are intended to help DUI Convictions in Ohio.

Project Title:	Law Enforcement Liaisons

Description:

The goal of the Law Enforcement Liaison (LEL) Program is to enhance all aspects of OTSO's relationship with Ohio's law enforcement agencies. The LEL Program consists of a state LEL Coordinator and five field LELs who are placed geographically throughout Ohio. The LELs primary role is to:

- Seek commitments from agencies to participate in the national mobilizations;
- Increase participation in the mobilizations to more than 570 agencies in 2015;
- Increase percentage of agencies reporting in the mobilizations to 85% in 2015. Currently approximately 71 percent of participating agencies are reporting;
- Visit law enforcement agencies to encourage the agencies to issue citations for seat belt and child passenger restraint violations and take a zero tolerance approach on impaired driving and improperly licensed motorcyclists;
- Educate agencies on the need for their officers to wear seat belts at all times;
- Educate law enforcement on laws and regulations pertaining to motorcycles;
- Disseminate information and materials on NHTSA programs and projects;
- Disseminate information and address any traffic safety related issues that arise around the state;
- Encourage accurate and timely submission of crash reports;

- Assist with training for law enforcement agencies and other traffic safety funded agencies;
- Maintain federally funded equipment database to include physically inspecting equipment;
- Assist with TSRP/DRE Training (i.e., ARIDE, Cops In Court, Judges & Prosecutors, etc.);
- DRE Recruitment.

C-1) To decrease traffic fatalities 3.14 percent from the 2007 - 2011 calendar base year average of 1,113 to a 2008 - 2012 year average of 1,078 by December 31, 2013 and to a 2010 - 2014 year average of 1,011 by December 31, 2015.

Current Status:

Ohio's 2008 – 2012 average is 1,087. Ohio will not meet the goal of 1,078. Ohio had a decrease on 2.34 percent, not the 3.14 percent stated. Ohio has restructured its programming and began using a district approach in 2013 to make an impact on these numbers. The preliminary numbers for 2013 show an 11.75 decrease from 2012 to 991. This is a record for Ohio.

FFY 2014 HSP Goal:

C-2) To decrease serious traffic injuries 2.33 percent from the 2007 - 2011 calendar base year average of 10,039 to a 2008 - 2012 year average of 9,805 by December 31, 2013 and to a 2010 - 2014 year average of 9,353 by December 31, 2015.

Current Status:

Ohio's 2018 – 2012 average is 9,901. Ohio will not meet the goal of 9,805. Ohio had a decrease of 1.37 percent instead of the projected 2.33 percent. The redistricting mentioned for the fatality goal has also impacted the serious injury numbers. Preliminary 2013 numbers show an 8.39 percent decrease from 2012 to 8,959.

FFY 2014 HSP Goal:

C-3a) To decrease the fatalities/VMT rate 3.11 percent from the 2007 – 2011 calendar base year average of 1.00 to a 2008 – 2012 year average of .97 by December 31, 2013 and to a 2010 – 2014 year average of .91 by December 31, 2015.

C-3b) To decrease the rural fatalities/VMT rate 2.22 percent from the 2007 – 2011 calendar base year average of 1.98 to a 2008 – 2012 year average of 1.94 by December 31, 2013 and to a 2010 – 2014 year average of 1.85 by December 31, 2015.

C-3c) To decrease the urban fatalities/VMT rate 4.24 percent from the 2007 – 2011 calendar base year average of .53 to a 2008 – 2012 year average of .51 by December 31, 2013 and to a 2010 – 2014 year average of .47 by December 31, 2015.

Current Status:

Ohio's 2008 – 2012 average fatalities/VMT rate is .98. Ohio will not meet the goal of .97. Ohio had a decrease of 2.00 percent instead of the projected 3.11 percent. Ohio's 2008 – 2012 average rural fatalities/VMT rate is 1.90. Ohio exceeded the goal of 1.94. Ohio's 2008 – 2012 average urban fatalities/VMT rate is .53. Ohio will not meet the goal of .51. Ohio's average remained the same from the 2007 – 2011 average. As stated in the fatality goal (C-1), Ohio has restructured its programming and began using a district approach in 2013 to make an impact on these numbers.

C-5) To decrease alcohol impaired driving fatalities 2.31 percent from the 2007 - 2011 calendar base year average of 344 to a 2008 - 2012 year average of 336 by December 31, 2013 and to a 2010 - 2014 year average of 321 by December 31, 2015.

NOTE: Alcohol-impaired driving fatalities are all fatalities in crashes involving a driver or motorcycle operator with a BAC of .08 or greater.

Current Status:

Ohio's 2010 – 2012 average will be 341 which exceeds the goal of 344. Impaired driving is a primary focus in Ohio to keep Ohio's alcohol impaired driving fatalities (.08 or higher) on the decline.

FFY 2014 HSP Goal:

To decrease alcohol related fatal crashes (any impairment level where alcohol was a factor) 2.59 percent from the 2007 - 2011 calendar base year average of 385 to a 2008 - 2012 year average of 375 by December 31, 2013 and to a 2010 - 2014 year average of 356 by December 31, 2015.

Current Status:

Ohio's 2010 – 2012 average alcohol related fatal crashes will be 385. This is the same as the 2007 – 2011 average. Ohio's impaired driving programming is being evaluated to reverse this trend. Plans for increased alcohol enforcement are projected to occur late in FFY 2014 and continue into FFY 2015.

FFY 2014 HSP Goal:

To decrease the number of alcohol related fatal crashes from the 2007 - 2011 calendar base year average of 37.54 percent of all fatal crashes to a 2008 - 2012 average of no more than 37.07 percent of all fatal crashes by December 31, 2013 and to a 2012 - 2014 year average of no more than 36.15 percent by December 31, 2015.

Current Status:

Ohio's 2010 – 2012 average will be 38.47 percent. This is an 2.48 percent increase, not the decrease that was projected. See the above goal status for programming adjustment to correct this.

FFY 2014 HSP Goal:

C-4) To decrease unrestrained passenger vehicle occupant fatalities (all seat positions) 6.25 percent from the 2007 - 2011 calendar base year average of 426 to a 2008 – 2012 year average of 399 by December 31, 2013 and to a 2010 – 2014 year average of 351 by December 31, 2015.

Current Status:

Ohio's 2010 – 2012 average unrestrained passenger vehicle occupant fatalities is 404. Ohio will not meet the goal of 399. This is a decrease of 5.16 percent not the 6.25 percent projected based on trend data.

To decrease the number of unrestrained passenger vehicle occupant fatalities from the 2007 – 2011 calendar base year average of 38.14 percent of all traffic fatalities to a 2008 – 2012 average of no more than 36.92 percent of all traffic fatalities by December 31, 2013 and to a 2010 - 2014 average of no more than 34.61 percent of all traffic fatalities by December 31, 2015.

Current Status:

Ohio's 2010 – 2012 average unrestrained fatality percent of all fatalities is 37.20 percent. While this does not meet the goal of 36.92 percent, it does represent 2.46 percent decrease.

FFY 2014 HSP Goal:

B-1) To increase statewide seat belt compliance 1.27 percent from the 2012 calendar base year usage rate of 82.0 percent to 83.0 percent by December 31, 2013 and to 85.2 percent by December 31, 2015.

Current Status:

FFY 2013 seat belt observations were conducted pre and post CIOT. Last year's results were used to locate low usage areas to increase education, awareness and enforcement prior to observations this year. The FFY 2013 rate is 84.5 percent. This exceeds the goal of 83.0 percent.

FFY 2014 HSP Goal:

C-6) To decrease speeding-related fatalities 1.25 percent from the 2007 - 2011 calendar base year average of 288 to a 2010 - 2012 year average of 284 by December 31, 2013 and to a 2010 - 2014 year average of 277 by December 31, 2015.

Current Status:

Ohio's speed related fatality 2010 – 2012 average is 306. This does not meet the goal of 284. It is an increase of 6.25 percent. Ohio continues to analyze speed related data to determine the best programming methods to begin decreasing speed related fatalities. Speed has been approached on a district level. In FFY 2014, The Ohio State Highway Patrol has purchased a speed trailer for each district (eight) with grant funds. The trailer is housed at the district headquarters, but is available for every law enforcement agency in the district to use to collect speed data on roadway to help determine problem identification to address the speed related fatal crash problems in the district.

FFY 2014 HSP Goal:

To decrease the number of speeding-related fatalities from the 2007 - 2011 calendar base year average of 26.17 percent of all traffic fatalities to a 2008 - 2012 average of no more than 25.84 percent of all traffic fatalities by December 31, 2013 and to a 2010 - 2014 average of no more than 25.20 percent of all traffic fatalities by December 31, 2015.

Current Status:

Ohio's 2010 – 2012 average will be a 8.14 percent increase over the 2009 – 2011 average. Ohio's speed related fatalities will be 28.30 percent of all fatalities. As the speed related fatal crashes are decreased, this number will improve.

C-7) To decrease motorcyclist fatalities 1.25 percent from the 2007 - 2011 calendar base year average of 181 to a 2008 – 2012 year average of 179 by December 31, 2013 and to a 2010 – 2014 year average of 174 by December 31, 2015.

Current Status:

Ohio's 2010 – 2012 average will be 175 which exceeds the goal of 179. Ohio continually analyzes motorcycle crash data to ensure programming is effective.

FFY 2014 HSP Goal:

C-8) To decrease un-helmeted motorcyclist fatalities 1.25 percent from the 2007 - 2011 calendar base year average of 129 to a 2008 - 2012 year average of 127 by December 31, 2013 and to a 2010 - 2014 year average of 124 by December 31, 2015.**

Current Status:

Ohio's 2008 – 2012 un-helmeted motorcyclist fatalities average is 129. Ohio will not meet the goal of 127. Ohio continues to analyze programming to determine what will be effective in the particular area.

FFY 2014 HSP Goal:

To decrease the number of motorcycle fatalities from the 2007 - 2011 calendar base year average of 16.23 percent of all traffic fatalities to a 2008 - 2012 average of no more than 16.03 percent of all traffic fatalities by December 31, 2013 and to a 2010 - 2014 average of no more than 15.63 percent of all traffic fatalities by December 31, 2015.

Current Status:

Ohio's 2008 – 2012 average of 16.10 percent. Ohio will not meet the goal of 16.03 percent projected by past trends. Ohio will continue to focus effective programming towards both motorcyclists and the motoring public (based on problem ID) to keep these numbers declining.

FFY 2014 HSP Goal:

C-9) To decrease drivers age 20 or younger involved in fatal crashes 8.17 percent from the 2007 - 2011 calendar base year average of 181 to a 2008 – 2012 year average of 166 by December 31, 2013 and to a 2010 – 2014 year average of 140 by December 31, 2015.

Current Status:

Ohio's 2010 – 2012 average will be 167, which is well below the 181 projected by past trends. Ohio implemented a statewide peer-to-peer program aimed at youth in FFY 2014 to ensure this trend continues.

FFY 2014 HSP Goal:

To decrease the number of youth (age 20 and under) fatalities from the 2007 - 2011 calendar base year average of 16.36 percent of all traffic fatalities to a 2008 - 2012 average of no more than 15.69 percent of all traffic fatalities by December 31, 2013 and to a 2010 - 2014 average of no more than 14.42 percent of all traffic fatalities by December 31, 2015.

Current Status:

Ohio's 2008 – 2012 average youth (20 and under) fatalities will be 15.61 percent of all traffic fatalities. This will exceed the goal of 15.69 percent. Ohio's statewide peer-to-peer program will help to continue this trend.

FFY 2014 HSP Goal:

C-10) To decrease pedestrian fatalities 1.25 percent from the 2007 - 2011 calendar base year average of 98 to a 2008 - 2012 year average of 97 by December 31, 2013 and to a 2010 - 2014 year average of 94 by December 31, 2015.

Current Status:

Ohio's 2008 – 2012 average is 99. This is an increase of 1.02 percent. Ohio continues to focus pedestrian efforts at the local level.

FFY 2014 HSP Goal:

To decrease the number of pedestrian fatalities from the 2007 - 2011 calendar base year average of 8.82 percent of all fatalities to a 2008 - 2012 average of no more than 8.71 percent of all fatalities by December 31, 2013 and to a 2010 - 2014 average of no more than 8.49 percent by December 31, 2015.

Current Status:

Due to the increase in pedestrian fatalities, the percent of total fatalities has also increased. Ohio will not meet the goal of 8.71 percent. Ohio's 2008 – 2012 is 9.14 percent. As local programming reduces the number of fatalities, this number will improve.

APPENDIX A TO PART 1200 – CERTIFICATION AND ASSURANCES FOR HIGHWAY SAFETY GRANTS (23 U.S.C. CHAPTER 4)

State: Ohio

Fiscal Year: 2015

Each fiscal year the State must sign these Certifications and Assurances that it complies with all requirements including applicable Federal statutes and regulations that are in effect during the grant period. (Requirements that also apply to subrecipients are noted under the applicable caption.)

In my capacity as the Governor's Representative for Highway Safety, I hereby provide the following certifications and assurances:

GENERAL REQUIREMENTS

To the best of my personal knowledge, the information submitted in the Highway Safety Plan in support of the State's application for Section 402 and Section 405 grants is accurate and complete. (Incomplete or incorrect information may result in the disapproval of the Highway Safety Plan.)

The Governor is the responsible official for the administration of the State highway safety program through a State highway safety agency that has adequate powers and is suitably equipped and organized (as evidenced by appropriate oversight procedures governing such areas as procurement, financial administration, and the use, management, and disposition of equipment) to carry out the program. (23 U.S.C. 402(b)(1)(A))

The State will comply with applicable statutes and regulations, including but not limited to:

- 23 U.S.C. Chapter 4—Highway Safety Act of 1966, as amended
- 49 CFR Part 18—Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments
- 23 CFR Part 1200—Uniform Procedures for State Highway Safety Grant Programs

The State has submitted appropriate documentation for review to the single point of contact designated by the Governor to review Federal programs, as required by Executive Order 12372 (Intergovernmental Review of Federal Programs).

FEDERAL FUNDING ACCOUNTABILITY AND TRANSPARENCY ACT (FFATA)

The State will comply with FFATA guidance, *OMB Guidance on FFATA Subward and Executive Compensation Reporting*, August 27, 2010, (*https://www.fsrs.gov/documents/OMB_Guidance_on_FFATA_Subaward_and_Executive_Compensation_Reporting_08272010.pdf*) by reporting to FSRS.gov for each sub-grant awarded:

- Name of the entity receiving the award;
- Amount of the award;

• Information on the award including transaction type, funding agency, the North American Industry Classification System code or Catalog of Federal Domestic Assistance number (where applicable), program source;

• Location of the entity receiving the award and the primary location of performance under the award, including the city, State, congressional district, and country; and an award title descriptive of the purpose of each funding action;

• A unique identifier (DUNS);

• The names and total compensation of the five most highly compensated officers of the entity if:

(i) the entity in the preceding fiscal year received—

(I) 80 percent or more of its annual gross revenues in Federal awards;

(II) \$25,000,000 or more in annual gross revenues from Federal awards; and

(ii) the public does not have access to information about the compensation of the senior executives of the entity through periodic reports filed under section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m(a), 78o(d)) or section 6104 of the Internal Revenue Code of 1986;

• Other relevant information specified by OMB guidance.

NONDISCRIMINATION

(APPLIES TO SUBRECIPIENTS AS WELL AS STATES)

The State highway safety agency will comply with all Federal statutes and implementing regulations relating to nondiscrimination. These include but are not limited to: (a) Title VI of the Civil Rights Act of 1964 (Pub. L. 88-352), which prohibits discrimination on the basis of race, color or national origin (and 49 CFR Part 21); (b) Title IX of the Education Amendments of 1972, as amended (20 U.S.C. 1681-1683 and 1685-1686), which prohibits discrimination on the basis of sex: (c) Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 794), and the Americans with Disabilities Act of 1990 (Pub. L. 101-336), as amended (42 U.S.C. 12101, et seq.), which prohibits discrimination on the basis of disabilities (and 49 CFR Part 27); (d) the Age Discrimination Act of 1975, as amended (42 U.S.C. 6101-6107), which prohibits discrimination on the basis of age; (e) the Civil Rights Restoration Act of 1987 (Pub. L. 100-259), which requires Federal-aid recipients and all subrecipients to prevent discrimination and ensure nondiscrimination in all of their programs and activities; (f) the Drug Abuse Office and Treatment Act of 1972 (Pub. L. 92-255), as amended, relating to nondiscrimination on the basis of drug abuse; (g) the comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (Pub. L. 91-616), as amended, relating to nondiscrimination on the basis of alcohol abuse or alcoholism: (h) Sections 523 and 527 of the Public Health Service Act of 1912, as amended (42 U.S.C. 290dd-3 and 290ee-3), relating to confidentiality of alcohol and drug abuse patient records; (i) Title VIII of the Civil Rights Act of 1968, as amended (42 U.S.C. 3601, et seq.), relating to nondiscrimination in the sale, rental or financing of housing; (j) any other nondiscrimination provisions in the specific statute(s) under which application for Federal assistance is being made: and (k) the requirements of any other nondiscrimination statute(s) which may apply to the application.

THE DRUG-FREE WORKPLACE ACT OF 1988 (41 U.S.C. 8103)

The State will provide a drug-free workplace by:

• Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance is prohibited in the grantee's workplace and specifying the actions that will be taken against employees for violation of such prohibition;

• Establishing a drug-free awareness program to inform employees about:

- o The dangers of drug abuse in the workplace.
- o The grantee's policy of maintaining a drug-free workplace.
- o Any available drug counseling, rehabilitation, and employee assistance programs.

o The penalties that may be imposed upon employees for drug violations occurring in the workplace.

o Making it a requirement that each employee engaged in the performance of the grant be given a copy of the statement required by paragraph (a).

• Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under the grant, the employee will—

o Abide by the terms of the statement.

o Notify the employer of any criminal drug statute conviction for a violation occurring in the workplace no later than five days after such conviction.

• Notifying the agency within ten days after receiving notice under subparagraph (d)(2) from an employee or otherwise receiving actual notice of such conviction.

• Taking one of the following actions, within 30 days of receiving notice under subparagraph (d)(2), with respect to any employee who is so convicted—

o Taking appropriate personnel action against such an employee, up to and including termination.

o Requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency.

• Making a good faith effort to continue to maintain a drug-free workplace through implementation of all of the paragraphs above.

BUY AMERICA ACT

(APPLIES TO SUBRECIPIENTS AS WELL AS STATES)

The State will comply with the provisions of the Buy America Act (49 U.S.C. 5323(j)), which contains the following requirements:

Only steel, iron and manufactured products produced in the United States may be purchased with Federal funds unless the Secretary of Transportation determines that such domestic purchases would be inconsistent with the public interest, that such materials are not reasonably available and of a satisfactory quality, or that inclusion of domestic materials will increase the cost of the overall project contract by more than 25 percent. Clear justification for the purchase of non-domestic items must be in the form of a waiver request submitted to and approved by the Secretary of Transportation.

POLITICAL ACTIVITY (HATCH ACT)

(APPLIES TO SUBRECIPIENTS AS WELL AS STATES)

The State will comply with provisions of the Hatch Act (5 U.S.C. 1501-1508) which limits the political activities of employees whose principal employment activities are funded in whole or in part with Federal funds.

CERTIFICATION REGARDING FEDERAL LOBBYING

(APPLIES TO SUBRECIPIENTS AS WELL AS STATES)

Certification for Contracts, Grants, Loans, and Cooperative Agreements

The undersigned certifies, to the best of his or her knowledge and belief, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal

contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

3. The undersigned shall require that the language of this certification be included in the award documents for all sub-award at all tiers (including subcontracts, subgrants, and contracts under grant, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

RESTRICTION ON STATE LOBBYING

(APPLIES TO SUBRECIPIENTS AS WELL AS STATES)

None of the funds under this program will be used for any activity specifically designed to urge or influence a State or local legislator to favor or oppose the adoption of any specific legislative proposal pending before any State or local legislative body. Such activities include both direct and indirect (e.g., "grassroots") lobbying activities, with one exception. This does not preclude a State official whose salary is supported with NHTSA funds from engaging in direct communications with State or local legislative officials, in accordance with customary State practice, even if such communications urge legislative officials to favor or oppose the adoption of a specific pending legislative proposal.

CERTIFICATION REGARDING DEBARMENT AND SUSPENSION

(APPLIES TO SUBRECIPIENTS AS WELL AS STATES)

Instructions for Primary Certification

1. By signing and submitting this proposal, the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. The prospective participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when the department or agency determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the department or agency to which this proposal is submitted if at any time the prospective primary participant learns its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

5. The terms covered transaction, debarred, suspended, ineligible, lower tier covered transaction, participant, person, primary covered transaction, principal, proposal, and voluntarily excluded, as used in this clause, have the meaning set out in the Definitions and coverage sections of 49 CFR Part 29. You may contact the department or agency to which this proposal is being submitted for assistance in obtaining a copy of those regulations.

6. The prospective primary participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is proposed for debarment under 48 CFR Part 9, subpart 9.4, debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency entering into this transaction.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transaction," provided by the department or agency entering into this covered transaction, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not proposed for debarment under 48 CFR Part 9, subpart 9.4, debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the list of Parties Excluded from Federal Procurement and Non-procurement Programs.

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is proposed for debarment under 48 CFR Part 9, subpart 9.4, suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.

Certification Regarding Debarment, Suspension, and Other Responsibility Matters-Primary Covered Transactions

(1) The prospective primary participant certifies to the best of its knowledge and belief, that its principals:

(a) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded by any Federal department or agency;

(b) Have not within a three-year period preceding this proposal been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or

local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of record, making false statements, or receiving stolen property;

(c) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State or Local) with commission of any of the offenses enumerated in paragraph (1)(b) of this certification; and

(d) Have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State, or local) terminated for cause or default.

(2) Where the prospective primary participant is unable to certify to any of the Statements in this certification, such prospective participant shall attach an explanation to this proposal.

Instructions for Lower Tier Certification

1. By signing and submitting this proposal, the prospective lower tier participant is providing the certification set out below.

2. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

3. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

4. The terms covered transaction, debarred, suspended, ineligible, lower tier covered transaction, participant, person, primary covered transaction, principal, proposal, and voluntarily excluded, as used in this clause, have the meanings set out in the Definition and Coverage sections of 49 CFR Part 29. You may contact the person to whom this proposal is submitted for assistance in obtaining a copy of those regulations.

5. The prospective lower tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is proposed for debarment under 48 CFR Part 9, subpart 9.4, debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.

6. The prospective lower tier participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion—Lower Tier Covered Transaction," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions. (See below)

7. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not proposed for debarment under 48 CFR Part 9, subpart 9.4, debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its

principals. Each participant may, but is not required to, check the List of Parties Excluded from Federal Procurement and Non-procurement Programs.

8. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

9. Except for transactions authorized under paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is proposed for debarment under 48 CFR Part 9, subpart 9.4, suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion—Lower Tier Covered Transactions:

1. The prospective lower tier participant certifies, by submission of this proposal, that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any Federal department or agency.

2. Where the prospective lower tier participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

POLICY ON SEAT BELT USE

In accordance with Executive Order 13043, Increasing Seat Belt Use in the United States, dated April 16, 1997, the Grantee is encouraged to adopt and enforce on-the-job seat belt use policies and programs for its employees when operating company-owned, rented, or personally-owned vehicles. The National Highway Traffic Safety Administration (NHTSA) is responsible for providing leadership and guidance in support of this Presidential initiative. For information on how to implement such a program, or statistics on the potential benefits and cost-savings to your company or organization, please visit the Buckle Up America section on NHTSA's Web site at *www.nhtsa.dot.gov.* Additional resources are available from the Network of Employers for Traffic Safety (NETS), a public-private partnership headquartered in the Washington, DC metropolitan area, and dedicated to improving the traffic safety practices of employers and employees. NETS is prepared to provide technical assistance, a simple, user-friendly program kit, and an award for achieving the President's goal of 90 percent seat belt use. NETS can be contacted at 1 (888) 221-0045 or visit its Web site at *www.trafficsafety.org.*

POLICY ON BANNING TEXT MESSAGING WHILE DRIVING

In accordance with Executive Order 13513, Federal Leadership On Reducing Text Messaging While Driving, and DOT Order 3902.10, Text Messaging While Driving, States are encouraged to adopt and enforce workplace safety policies to decrease crashed caused by distracted driving, including policies to ban text messaging while driving company-owned or - rented vehicles, Government-owned, leased or rented vehicles, or privately-owned when on official Government business or when performing any work on or behalf of the Government. States are also encouraged to conduct workplace safety initiatives in a manner commensurate with the size of the business, such as establishment of new rules and programs or re-evaluation of existing programs to prohibit text messaging while driving, and

education, awareness, and other outreach to employees about the safety risks associated with texting while driving.

ENVIRONMENTAL IMPACT

The Governor's Representative for Highway Safety has reviewed the State's Fiscal Year highway safety planning document and hereby declares that no significant environmental impact will result from implementing this Highway Safety Plan. If, under a future revision, this Plan is modified in a manner that could result in a significant environmental impact and trigger the need for an environmental review, this office is prepared to take the action necessary to comply with the National Environmental Policy Act of 1969 (42 U.S.C. 4321, *et seq.*) and the implementing regulations of the Council on Environmental Quality (40 CFR Parts 1500-1517).

SECTION 402 REQUIREMENTS

The political subdivisions of this State are authorized, as part of the State highway safety program, to carry out within their jurisdictions local highway safety programs which have been approved by the Governor and are in accordance with the uniform guidelines promulgated by the Secretary of Transportation. (23 U.S.C. 402(b)(1)(B))

At least 40 percent (or 95 percent, as applicable) of all Federal funds apportioned to this State under 23 U.S.C. 402 for this fiscal year will be expended by or for the benefit of the political subdivision of the State in carrying out local highway safety programs (23 U.S.C. 402(b)(1)(C), 402(h)(2)), unless this requirement is waived in writing.

The State's highway safety program provides adequate and reasonable access for the safe and convenient movement of physically handicapped persons, including those in wheelchairs, across curbs constructed or replaced on or after July 1, 1976, at all pedestrian crosswalks. (23 U.S.C. 402(b)(1)(D))

The State will provide for an evidenced-based traffic safety enforcement program to prevent traffic violations, crashes, and crash fatalities and injuries in areas most at risk for such incidents. (23 U.S.C. 402(b)(1)(E))

The State will implement activities in support of national highway safety goals to reduce motor vehicle related fatalities that also reflect the primary data-related crash factors within the State as identified by the State highway safety planning process, including:

- Participation in the National high-visibility law enforcement mobilizations;
- Sustained enforcement of statutes addressing impaired driving, occupant protection, and driving in excess of posted speed limits;
- An annual statewide seat belt use survey in accordance with 23 CFR Part 1340 for the measurement of State seat belt use rates;
- Development of statewide data systems to provide timely and effective data analysis to support allocation of highway safety resources;
- Coordination of Highway Safety Plan, data collection, and information systems with the State strategic highway safety plan, as defined in 23 U.S.C. 148(a).

(23 U.S.C. 402(b)(1)(F))

The State will actively encourage all relevant law enforcement agencies in the State to follow the guidelines established for vehicular pursuits issued by the International Association of Chiefs of Police that are currently in effect. (23 U.S.C. 402(j))

The State will not expend Section 402 funds to carry out a program to purchase, operate, or maintain an automated traffic enforcement system. (23 U.S.C. 402(c)(4))

I understand that failure to comply with applicable Federal statutes and regulations may subject State officials to civil or criminal penalties and/or place the State in a high risk grantee status in accordance with 49 CFR 18.12.

I sign these Certifications and Assurances based on personal knowledge, after appropriate inquiry, and I understand that the Government will rely on these representations in awarding grant funds.

<u>John Born</u> Printed name of Governor's Representative for Highway Safety

FFY 2015 Sub-Grantee Certifications and Assurances

The following terms and conditions must be met in order to obtain and conduct a federallyfunded traffic safety program. Upon approval of this grant award, these terms and conditions will become a part of the executed agreement. The term "sub-grantee" refers to the Administering Agency of the project.

1.) Agreement

Any inconsistencies between agreements and any attached documents shall be resolved in favor of the most current revised agreement on the online system, which shall be the controlling document. All activities conducted under this grant program must address problem ID as shown in the county profile and be data driven and evidence-based. "Countermeasures That Work" must be used to determine the work plan activities to achieve the goals of the grant.

2.) Legislative Authority

The Authorizing Official shall obtain the legal legislative authority necessary to implement the activity, to make expenditures and to receive funds, as set forth by this agreement.

3.) Nondiscrimination

The sub-grantee and any sub-contractors (if applicable) shall comply with affirmative action as required by the Ohio Department of Public Safety/Ohio State Highway Patrol (OSHP) program policies and procedures and federal/state regulations. These include but are not limited to: (a) Title VI of the Civil Rights Act of 1964 (Pub. L. 88-352(, which prohibits discrimination on the basis of race, color or national origin (and 49 CFR Part 21); (b) Title IX of the Education Amendments of 1972, as amended (20 U.S.C. 1681 -1683 and 1685-1686), which prohibits discrimination on the basis of sex; (c) Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 794), and the Americans with Disabilities Act of 1990 (Pub. L. 101-336), as amended (42 U.S.C. 12101, et seq.), which prohibits discrimination on the basis of disabilities (and 49 CFR Part 27); (d) the Age Discrimination Act of 1975, as amended (42 U.S.C. 6101-6107), which prohibits discrimination on the basis of age; (3) the Civil Rights Restoration Act of 1987 (Pub. L. 100-259), which requires Federal-aid recipients and all subrecipients to prevent discrimination and ensure nondiscrimination in all of their programs and activities; (f) the Drug Abuse Office and Treatment Act of 1972 (Pub. L. 92-255), as amended, relating to nondiscrimination on the basis of drug abuse; (g) the comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (Pub. L. 91-616(, as amended, relating to nondiscrimination on the basis of alcohol abuse or alcoholism; (h) Sections 523 and 527 of the Public Health Service Act of 1912, as amended (42 U.S.C.290dd-3 and 290ee-3), relating to confidentiality of alcohol and drug abuse patient records; (i) Title VIII of the Civil Rights Act of 1968, as amended (42 U.S.C. 3601, et seq.), relating to nondiscrimination in the sale, rental or financing of housing; (i) any other nondiscrimination provisions in the specific statute(s) under which application for Federal assistance is being made; and (k) the requirements of any other nondiscrimination statute(s) which may apply to the application.

4.) The Drug-Free Workplace Act of 1988 (41 U.S.C. 8103)

The sub-grantee will provide a drug-free workplace by:

- A.) Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance is prohibited in the sub-grantee's workplace and specifying the actions that will be taken against employees for violation of such prohibition;
- B.) Establishing a drug-free awareness program to inform employees about:
 - a. The dangers of drug abuse in the workplace.
 - b. The sub-grantee's policy of maintaining a drug-free workplace.
 - c. Any available drug counseling, rehabilitation, and employee assistance programs.
 - d. The penalties that may be imposed upon employees for drug violations occurring in the workplace.
 - e. Making it a requirement that each employee engaged in the performance of the grant be given a copy of the statement required by paragraph (a).
- C.) Notifying the employee in the statement required by paragraph (A) that, as a condition of employment under the grant, the employee will:
 - a. Abide by the terms of the statement.
 - b. Notify the employer of any criminal drug statute conviction for a violation occurring in the workplace no later than five days after such conviction.
- D.) Notifying the agency within ten days after receiving notice under subparagraph (C)(b) from an employee or otherwise receiving actual notice of such conviction.
- E.) Taking one of the following actions, within 30 days of receiving notice under subparagraph (C)(b), with respect to any employee who is so convicted:
 - a. Taking appropriate personnel action against such an employee, up to and including termination.
 - b. Requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by federal, state, or local health, law enforcement, or other appropriate agency.
- F.) Making a good faith effort to continue to maintain a drug-free workplace through implementation of all of the paragraphs above.

5.) Buy America Act

The sub-grantee will comply with the provisions of the Buy America Act (49 U.S.C. 5323(j)) which contains the following requirements:

Only steel, iron and manufactured products produced in the United States may be purchased with federal funds unless the Secretary of Transportation determines that such domestic purchases would be inconsistent with the public interest; that such materials are not reasonably available and of a satisfactory quality; or that inclusion of domestic materials will increase the cost of the overall project contract by more than 25 percent. Clear justification for the purchase on non-domestic items must be in the form of a waiver request submitted to and approved by the Secretary of Transportation.

6.) Political Activity (Hatch Act)

The sub-grantee will comply, as applicable, with provision of the Hatch Act (5 U.S.C. 1501-1508) which limits the political activities of employees whose principal employment activities are funded in whole or in part with federal funds.

7.) Certification Regarding Federal Lobbying

- A.) No federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, and officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modifications of any federal contract, grant, loan, or cooperative agreement.
- B.) If any funds other than federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence and officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.
- C.) The undersigned shall require that the language of this certification be included in the award documents for all sub-awards at all tiers (including sub-contracts, subgrants, and contracts under grant, loans, and cooperative agreements) and that all sub-recipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of no less than \$10,000 and not more than \$100,000 for each such failure.

8.) Restriction on State Lobbying

None of the funds under this program will be used for any activity specifically designed to urge or influence a state or local legislator to favor or oppose the adoption of any specific legislative proposal pending before any state or local legislative body. Such activities include both direct and indirect (e.g., "grassroots") lobbying activities, with one exception. This does not preclude a state official whose salary is supported with NHTSA funds from engaging in direct communications with state or local legislative officials, in accordance with customary state practice, even if such communications urge legislative officials to favor or oppose the adoption of a specific pending legislative proposal.

9.) Certification Regarding Debarment and Suspension Instructions for Primary Certification

- A.) By signing and submitting this proposal, the prospective primary participant is providing the certification set out below.
- B.) The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. The prospective participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
- C.) The certification in this clause is a material representation of fact upon which reliance was placed when the department or agency determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.
- D.) The prospective primary participant shall provide immediate written notice to the department or agency to which this proposal is submitted if at any time the prospective primary participant learns its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
- E.) The terms covered transaction, debarred, suspended, ineligible, lower tier covered transaction, participant, person, primary covered transaction, principal, proposal, and voluntarily excluded, as used in this clause, have the meaning set out in the Definitions and Coverage sections of 49 CFR Part 29. You may contact the department or agency to which this proposal is being submitted for assistance in obtaining a copy of those regulations.
- F.) The prospective primary participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is proposed for debarment under 48 CFR Part 9, subpart 9.4, debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency entering into this transaction.
- G.) The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transaction," provided by the department or agency entering into this covered transaction, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
- H.) A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not proposed for debarment under 48 CFR Part 9, subpart 9.4, debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is

erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the list of Parties Excluded from Federal Procurement and Non-procurement Programs.

- I.) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
- J.) Except for transactions authorized under paragraph F of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is proposed for debarment under 48 CFR Part 9, subpart 9.4, suspended, debarred, ineligible, or voluntarily excluded from participation in this transactions, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.

<u>Certification Regarding Debarment, Suspension, and Other Responsibility Matters-</u> <u>Primary Covered Transactions:</u>

- A.) The prospective primary participant certifies to the best of its knowledge and belief, that its principals:
 - a. Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded by any federal department or agency;
 - b. Have not within a three-year period preceding this proposal been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (federal, state or local) transaction or contract under a public transaction; violation of federal or state antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of record, making false statements, or receiving stolen property;
 - c. Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (federal, state or local) with commission of any of the offenses enumerated in paragraph (A)(b) of this certification; and
 - d. Have not within a three-year period preceding this application/proposal had one or more public transactions (federal, state, or local) terminated for cause or default.
- B.) Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

Instructions for Lower Tier Certification

- A.) By signing and submitting this proposal, the prospective lower tier participant is providing the certification set out below.
- B.) The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous

certification, in addition to other remedies available to the federal government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

- C.) The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
- D.) The terms covered transaction, debarred, suspended, ineligible, lower tier covered transaction, participant, person, primary covered transaction, principal, proposal, and voluntarily excluded, as used in this clause, have the meanings set out in the Definition and Coverage sections of 49 CFR Part 29. You may contact the person to whom this proposal is submitted for assistance in obtaining a copy of those regulations.
- E.) The prospective lower tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is proposed for debarment under 48 CFR Part 9, subpart 9.4, debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.
- F.) The prospective lower tier participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion – Lower Tier Covered Transactions," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions. (See below)
- G.) A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not proposed for debarment under 48 CFR Part 9, subpart 9.4, debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the List of Parties Excluded from Federal Procurement and Non-procurement Programs.
- H.) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
- I.) Except for transactions authorized under paragraph E of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is proposed for debarment under 48 CFR Part 9, subpart 9.4, suspended, debarred, ineligible, or voluntarily excluded from participation in this transactions, in addition to other remedies available to the

federal government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

<u>Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion –</u> <u>Lower Tier Covered Transactions:</u>

- A.) The prospective lower tier participant certifies, by submission of this proposal, that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any federal department or agency.
- B.) Where the prospective lower tier participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

10.) Policy on Seat Belt Use

In accordance with Executive Order 13043, Increasing Seat Belt Use in the United States, dated April 16, 1997, the Grantee is encouraged to adopt and enforce on-thejob seat belt use policies and programs for its employees when operating companyowned, rented, or personally-owned vehicles. The National Highway Traffic Safety Administration (NHTSA) is responsible for providing leadership and guidance in support of this Presidential initiative. For information on how to implement such a program, or statistics on the potential benefits and cost-savings to your company or organization, please visit the Buckle Up America section on NHTSA's website at www.nhtsa.dot.gov. Additional resources are available from the Network of Employers for Traffic Safety (NETS), a public-private partnership headquartered in the Washington, D.C. metropolitan area, and dedicated to improving the traffic safety practices of employers and employees. NETS is prepared to provide technical assistance, a simple, user-friendly program kit, and an award for achieving the President's goal of 90 percent seat belt use. NETS can be contacted at 9 (888) 221-0045 or visit its website at 222.trafficsafety.org.

The Administering Agency certifies that an "employee seat belt usage policy" is in place that requires employees to wear seat belts while working on agency business. This policy will be made available for review by OTSO representatives upon request.

11.) Policy to Ban Texting Messaging While Driving

In accordance with Executive Order 13513, Federal Leadership On Reducing Text Messaging While Driving, and DOT Order 3902.10, Text Messaging While Driving, States are encouraged to adopt and enforce workplace safety policies to decrease crashes caused by distracted driving, including policies to ban text messaging while driving company-owned or rented vehicles, Government-owned, leased or rented vehicles, or privately-owned when on official Government business or when performing any work on behalf of the Government. States are also encouraged to conduct workplace safety initiatives in a manner commensurate with the size of the business, such as establishment of new rules and programs or re-evaluation of existing programs to prohibit text messaging while driving, and education, awareness, and other outreach to employees about the safety risks associated with testing while driving.

12.) Environmental Impact

The Governor's Representative for Highway Safety reviews the state's fiscal year highway safety planning document (which includes all individual approved grants) and declares that no significant environmental impact will result from implementing projects listed in the Highway Safety Plan. If, under a future revision, this grant will be modified in such a manner that a project would be instituted that could affect environmental quality to the extent that a review and statement would be necessary, this office is prepared to take the action necessary to comply with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) and the implementing regulations of the Council on Environmental Quality (40 CFR Parts 1500-1517).

13.) Limitations

This agreement is a commitment to perform the work identified herein and this authorization is limited to:

- A.) The scope of work performed after the "Authorized to Proceed" and before the "Agreement Termination" dates, as specified in the transmittal letter.
- B.) The scope of work, rates of participations, federal funds, special conditions, and cost category amounts as defined by the Work Plan, Budget, Addendum (as appropriate), and other attachments;
- C.) Actual costs that are incurred in accordance with OMB Circulars A-87, A-21, A-122, 45 CFR Part 74 Appendix E limited to the approved activity.

14.) **Supplanting**

Federal funds must not be used to supplant state or local funds, meaning that federal funds must not be used to replace routine or local expenditures for costs of activities that constitute general expenses required to carry out the overall responsibilities of the sub-grantee and/or its sub-grantees.

15.) **Food**

Costs relating to food for meetings, award banquets, etc. are not allowable.

16.) Pre-Activity

A grant pre-activity is required before any costs can be eligible for reimbursement. OTSO will notify the sub-grantee of the availability of the pre-activity prior to the "Authorized to Proceed Date" in the transmittal letter for the executed agreement. The pre-activity must be reviewed by, but not limited to, the designated project director and fiscal officer. Changes in the project director and/or fiscal officer will required a new pre-activity.

17.) Regional Meetings

Attend regional meetings to coordinate and review activity including current crash data throughout the region to achieve high visibility enforcement and awareness.

18.) Press Release

Each sub-grantee is required to submit a press release to their local media announcing the grant award, including amount and purpose of award. Additional

press releases are required depending on grant type; see Special Conditions beginning on page 22 for additional requirements.

19.) Grant Revisions

Any changes, additions, or deletions to this agreement must be submitted online and approved by OTSO prior to implementing proposed changes. All final revisions to this agreement (either programmatic or fiscal), must be submitted online prior to September 1, 2015. Any requests for revisions after this date will not be approved.

OTSO reserves the right to limit grant amounts at any time based on performance and/or available funding. Any changes made to the executed agreement limiting grant amounts by OTSO shall be made in writing.

20.) Required Personnel

Each proposal/grant is required to have, at a minimum, an authorizing official, a project director and a fiscal officer. See pages 6-7 for a description of each. This information must be kept current. See the help menu on the GRANTS system for directions on how to update/change personnel information.

21.) **GRANTS User Accounts/Password Security**

For security purposes, each person using the GRANTS system must have a separate user name and password. Each account must have its own email account. **Sub-grantee agency personnel must not share passwords with agency staff or ODPS staff.**

22.) Labor Costs

All work (personnel labor costs) reimbursed under this grant must be for actual hours worked. Labor costs based on a percentage of hours worked will not be accepted for reimbursement. Leave hours (i.e., sick, vacation, personal, holiday, etc.) are not reimbursable as direct labor. The employer's share of fringe benefits (i.e., retirement, Workers' Compensation, Medicare, etc.) are eligible for reimbursement. Documentation verifying fringe percentages must be available to the OTSO upon request.

23.) Personnel Activity Reports

Personnel activity reports may be required for any individual working on this federal grant program. These reports, at a minimum, must document date worked, actual activity performed and the number of hours per day to be charged to this agreement. This document must be signed by the individual and his/her immediate supervisor, maintained by the administering agency and submitted as a part of the reimbursement documentation required.

24.) **Sub-Contracts**

All sub-contracts and all purchases made under a sub-contract with any one vendor in excess of a combined total of \$5,000 must be submitted to the OTSO for review prior to their execution and are subject to the same laws, regulations, and policies that govern this agreement. Contracts and procurements must include "Special Provisions" as provided by OTSO. Do not include a specific contractor's name/vendor's name in the proposal/grant.

All supplies, materials, incentives, promotional items, education materials, and/or equipment that are purchased as a part of this sub-contract must be submitted to and approved by OTSO on a Request to Purchase form prior to incurring the cost.

Any training courses must be submitted to and approved by OTSO on a Request to Purchase form prior to scheduling.

25.) Equipment

All non-expendable equipment (i.e., having a useful life of one year or more and cost \$1,000 or more) shall be entered into the OTSO equipment inventory system. All purchased equipment must be used for approved traffic safety activities throughout its useful life. All purchases must be submitted to and approved by OTSO on a Request to Purchase form prior to incurring the cost.

26.) Central Services

Costs for certain operational services provided to an agency on a centralized basis are unallowable. To be eligible for a reimbursement, a cost must be documented with an actual transfer of funds.

27.) Rate/Cost Allocation Charges

Costs that cannot be charged as an actual cost and are charged to a program on a percentage basis (e.g., phone, copies, postage, etc.) can be reimbursed based on a rate/cost allocation plan. Any agency wanting to claim these costs must submit to OTSO a copy of their agency's rate/cost allocation plan showing the following: the list of programs/grants the costs are being distributed between, the percentage being charged to each program/grant, the list of costs being charged (with explanation if not clear), the dollar amount being charged for those costs, and the grand total being charged to the programs/grants. If the rate/cost allocation plan shows more costs than you want to claim on your grant, mark which costs you are claiming on the grant.

28.) Supplies, Materials, Incentives, Promotion Items, Educational Materials

All supplies, materials, incentives, promotional items and educational materials must be used for approved traffic safety activities throughout its useful life. All purchases must be submitted to and approved by the OTSO on a Request to Purchase form prior to incurring the cost. Outreach efforts should be made and materials should be provided to reach the county's ethnic and/or limited English speaking populations.

Alcohol is not allowed to be purchased with funds from this grant.

The sub-grantee must submit a final draft copy of all promotional materials to the OTSO for approval prior to production. In addition:

- A.) All materials shall include federal sponsorship credit and/or disclaimer clauses as directed by the OTSO. The credit line shall state: Funded by U.S. DOT/NHTSA and ODPS.
- B.) All public service announcements funded with federal funds, in whole or in part, must be closed captioned for the hearing impaired.

C.) All data results, reports, equipment, supplies and other materials (including but not limited to electronic versions) developed by the sub-grantee must be available to the ODPS/OTSO upon request.

29.) Request for Bids

OTSO will not reimburse for costs incurred by a sub-grantee for "requests for bids" for any services or purchases.

30.) Travel

Any request for travel and associated costs must be submitted to and approved by OTSO on a Request to Purchase form prior to incurring any travel related costs.

Attendance at any conference/seminar/workshop that charges a registration fee must be submitted to and approved by OTSO on a Request to Purchase form prior to registration. All conferences/seminars/workshops must be traffic safety related; an agenda must be provided to OTSO.

A current travel policy must be submitted with the grant proposal. OTSO will not reimburse for meals provided by the conference. Alcohol is not allowed to be purchased with funds from this grant.

All claims for travel reimbursement must be accompanied by a Conference Workshop Reporting form.

31.) Training

The cost of training personnel for traffic safety purposes may be funded when the training supports both the goals and scope of work of the approved grant program and the goals of the OTSO. All training requests and purchases must be submitted to and approved by OTSO on a Request to Purchase form prior to incurring the cost.

32.) **Program Income**

NHTSA and OTSO encourage grantees/sub-grantees to generate program income. Program income means gross income received by the grantee or sub-grantee directly generated by a grant-supported activity or earned only as a result of the grant agreement during the grant period. Program income may be added to the funds committed to the grant agreement. Program income shall be used to further the objectives of the program area under which it was generated. Program income generated through the federal grant agreement must be properly and accurately documented (e.g., activity generating income, amount generated, how funds were/will be used in support of traffic safety, invoices, etc.). Income will be reviewed during an OTSO grant monitoring visit, and this information must be reported as part of the activity report.

33.) Reimbursement Claims

This agreement will operate on a reimbursement basis only. The administering agency must first incur the costs for approved expenditures and then apply for the reimbursement. Appropriate and accurate documentation will be required for each expense. Claim schedules are set up either monthly or quarterly based on sub-grantees selection on the pre-activity form. Any changes from this schedule must be

made by the sub-grantee in writing. Each sub-grantee must submit reimbursement claims by the due date assigned to the claim in the GRANTS System.

34.) Denial of Costs

OTSO may deny costs for non-compliance with OTSO policies and procedures, terms and conditions and/or federal and state regulations by requesting the cost(s) be removed from the online claim. A written response to all denials must be provided to OTSO within 30 days after the date transmitted to the sub-grantee or the sub-grantee relinquishes all rights to the denied cost(s).

35.) Narrative Progress Reports

The timetable for submission of narrative progress reports will be determined by OTSO. Each sub-grantee must submit progress reports by the due date assigned to the report in the GRANTS System.

36.) Monitoring

Programmatic and fiscal monitoring of grants shall be conducted in accordance with U.S. DOT/NHTSA and OTSO guidelines. Programmatic and fiscal monitoring may include representatives from the federal and/or state government.

37.) Sub-Grantee on Notice

Sub-Grantees that fail to meet performance standards and/or grant requirements may be placed in "Sub-Grantee on Notice" status. This designation will last until an agency satisfies agreed upon requirements. For more information about Sub-Grantee on Notice, contact OTSO.

38.) Final Report and Final Claim

A final comprehensive annual project activity report must be submitted to OTSO by November 1.

- A.) Final reports not received by November 1 will result in a 10 percent penalty deduction to the final claim reimbursement.
- B.) If a final project activity report is received after November 15, the final claim will not be reimbursed.

A properly documented final claim for reimbursement must be submitted to OTSO by November 1.

- A.) Final claims not received by November 1 will result in a 10 percent penalty deduction in final claim reimbursement.
- B.) Final claims received after November 15 will not be reimbursed.

39.) Records Retention

All records relating to project activity and/or expenditures must be maintained for review by representatives of the federal or state government for at least three years following the final reimbursement payment.

40.) Management Letter/Audit Report Submission

As a pass-through agency for federal funding, OTSO is required by the Office of Management and Budget (OMB) Circular A-133 Audits of States, Local Governments,

and Non-Profit Organizations to ensure you have met the audit requirements of the circular.

To access the Circular, visit: <u>http://www.whitehouse.gov/omb/circulars/index.html</u>

You are required to retain a copy of your most recent Audit Report, Management Letter and/or Single Audit Report and provide to ODPS/OTSO upon request.

41.) **Termination of Agreement**

Either OTSO or the sub-grantee may terminate this Agreement for any reason by giving the other party 30 days written notice. If the Agreement is cancelled under this provision, OTSO shall reimburse the sub-grantee for approved work completed and documented to that date. Upon termination all data results, reports and other materials developed by the sub-grantee will become the property of OTSO. All of the equipment, materials and/or supplies provided to the sub-grantee for use under this agreement must be returned to OTSO upon request within 30 days of said written notice. Should any change in federal funding adversely affect OTSO's ability to complete the fiscal year's activities, OTSO has the right to revise or terminate the agreement in writing.

42.) End of Grant

If a subsequent grant is not awarded after the end of the grant period, all data results, reports, equipment, supplies and other materials developed by the sub-grantee must be returned to OTSO upon request within 30 days.

Special Conditions

In addition to Terms and Conditions # 1 – 42, the following Special Conditions apply to OVI Task Forces (OVITF), Selective Traffic Enforcement Program (STEP), Impaired Driving Enforcement Program (IDEP), Safe Communities (SC) and General (GG) grant awards:

Selective Traffic Enforcement Program/Impaired Driving Enforcement Program/OVI Task Forces

43.) Enforcing Seat Belt Laws

The agency will enforce all seat belt and child restraint laws on all traffic stops made under this grant.

44.) Site Selection

Justification for sites selected for enforcement activities must be documented and maintained as a part of the sub-grantee's file for this agreement.

45.) Training Certification

The sub-grantee must assure that all enforcement personnel involved in approved overtime enforcement-related activities are certified in the following type(s) of training, as appropriate:

Alcohol-related traffic enforcement – (Arresting officer only): Standard Field Sobriety Testing (SFST)

Speed management-related traffic enforcement – Electronic Speed Measuring Device Training (ESMD)

46.) Mandatory Blitzes

Funding for all OTSO identified blitzes must be used for saturation patrols and OVI checkpoints only. Directing traffic, conducting parking detail at events, crash investigations, any non-traffic safety related activities, or any activities not identified in scope of work or work plan are not reimbursable activities.

47.) National Enforcement Campaigns

All agencies utilizing overtime enforcement funds from OTSO are required to participate in the "Click It or Ticket" (CIOT) mobilization and the "Drive Sober or Get Pulled Over" (DSOGPO) alcohol crackdown.

Scheduled dates for the national enforcement campaigns are:

CIOT: May 18 – May 31, 2015

DSOGPO: August 21 – September 7, 2015

48.) Press Releases

In addition to the grant award press release, OVI Task Forces are required to conduct three press conference events (one in coordination with the Drive Sober or Get Pulled Over alcohol crackdown), promote the task force through press releases and publicize checkpoints as required by law. STEP and IDEP must attempt to publicize its local efforts during each blitz and national enforcement campaign prior to the enforcement activity and again with the results of the enforcement effort. OTSO will provide media toolkits for the blitzes and enforcement campaigns to assist with these efforts.

49.) Enforcement Hours Eligibility

Direct labor hours expended in traffic safety enforcement programs must be over and above the normal active pay status work week as defined in the sub-grantee's current labor agreement or departmental policy. Part-time permanent staff members are eligible for funding, with prior approval by OTSO. Only one officer per patrol car will be funded as part of traffic enforcement grants. All full time officers working on the OTSO grant must be paid their actual overtime hourly rate.

50.) Monthly Enforcement Reports

Whether or not a sub-grantee conducts grant-related activity, each sub-grantee must submit an enforcement report monthly. The monthly enforcement report must be submitted online to OTSO by the 15th calendar day of the following month. Failure to submit these reports in a timely manner will cause a delay in payment of claims, may jeopardize funding for present and future projects and may result in being placed in "Sub-Grantee on Notice" status.

51.) Transportation Costs

OTSO will reimburse a maximum of five percent (dollars) of direct labor costs (saturation patrol and checkpoint hours for both the lead and participating agencies) for the agency to put towards fuel/transportation costs. Do not include coordination or education costs in the labor costs. Mileage logs, receipts, etc. are not required to be submitted with reimbursement claims, but must be maintained by the agency for auditing purposes.

52.) Education Efforts

OTSO will reimburse for hour/costs spent towards education efforts. These efforts can be used towards educating students, the general public at events, or officers and must be consistent with problem identification. Education efforts must be submitted to and approved by OTSO on a Request to Purchase form prior to incurring any costs. A total of five percent (dollars) of direct labor costs (saturation patrol and checkpoint hours for both the lead and participating agencies) will be allowed towards education efforts. Do not include coordination costs in the labor costs.

OVI Task Forces Only

53.) Participating Law Enforcement Agencies

Participating law enforcement agencies performing activity under this grant must be paid for activity performed before reimbursement will be paid to the lead agency.

54.) **Documentation for Overtime Activity with Participating Agencies**

Documentation (check numbers, EFT, or DD) that the lead agency paid participating agencies working under the grant must be provided. Additional information may be requested.

Safe Communities

55.) **Coalition Meetings**

Safe Communities programs must conduct a minimum of four coalition meetings during the grant period. Copies of signature rosters and the coalition meeting agenda must be kept on file and made available during an OTSO grant monitoring visit.

56.) Kick-Off Events

Each Safe Communities program is required to conduct a "Click It or Ticket" and a "Drive Sober or Get Pulled Over" kick-off event. Each Safe Communities must conduct their own event in their own county. The CIOT event must be no earlier than May 11, 2015 and no later than May 22, 2015. The DSOGPO event must be no earlier than August 14, 2015 and no later than August 28, 2015. These events must include participation, at a minimum, by your coalition members, local law enforcement, community leaders, and the media. Additional participation in an adjacent county's event will be considered on a case by case basis.

57.) Fatal Crash Data Review Committee

A Fatal Data Review Committee will meet in any quarter that a fatality has been reported in the county to review fatal crash reports to identify patterns or trends that could increase impact of traffic safety countermeasures.

58.) Reporting of Fatality Information

In order for communities to be kept informed on fatal crashes occurring in their areas, each Safe Communities program is required to report to their local media, at least quarterly, on the fatal crashes occurring in the communities. This notification will be structured similar to a template developed by OTSO. Notification shall be sent to the media no later than the 15th of the month following the ending quarter. For example: Fatalities occurring in October, November and December must be reported by January

15th. Media can include: television, radio, newspapers, etc. Copies of these releases must be kept in file and will be subject to review by OTSO.

59.) Monthly Activity Report

Each sub-grantee must submit online monthly reports by the 15th calendar day of the following month.

60.) **Personnel Activity Reports**

Personnel activity reports are required for all individuals working on this federal grant program. These reports, at a minimum, must document date worked, actual activity performed and the number of hours per day to be charged to this agreement. This document must be signed by the individual and his/her immediate supervisor. It must be included as a part of the reimbursement documentation.

61.) Self-sufficiency

All Safe Communities programs must work towards self-sufficiency. Efforts to work towards this goal should be reported in activity reports, but as a minimum in the final comprehensive annual activity report.

General Grants

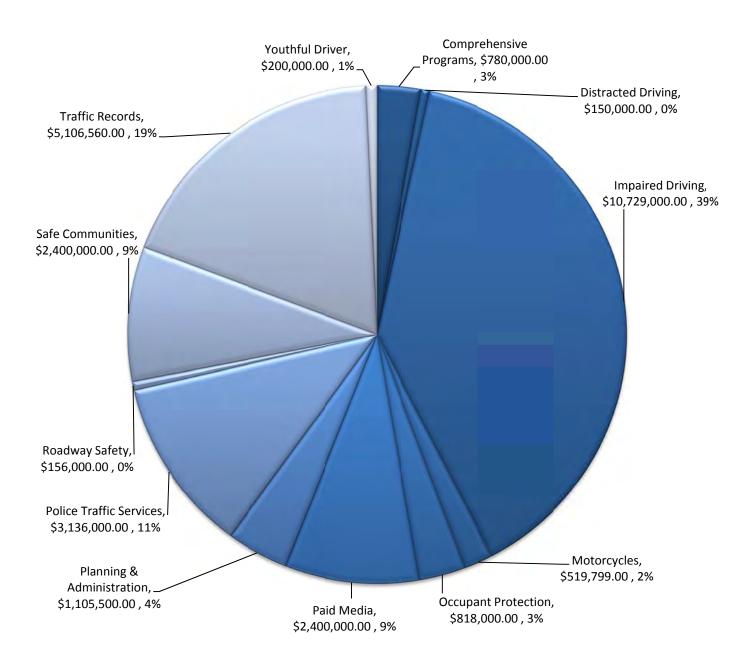

62.) **Personnel Activity Reports**

Personnel activity reports are required for all individuals working on this federal grant program. These reports, at a minimum, must document date worked, actual activity performed and the number of hours per day to be charged to this agreement. This document is to be signed by the individual and his/her immediate supervisor. It must be included as a part of the reimbursement documentation.

Appendix C – Teen Traffic Safety Program Certifications and Assurances

APPENDIX C TO PART 1200 – ASSURANCES FOR TEEN TRAFFIC SAFETY PROGRAM

State: Ohio

Fiscal Year: 2015

The State has elected to implement a Teen Traffic Safety Program—a statewide program to improve traffic safety for teen drivers—in accordance with 23 U.S.C. 402(m).

In my capacity as the Governor's Representative for Highway Safety, I have verified that-

- The Teen Traffic Safety Program is a separately described Program Area in the Highway Safety Plan, including a specific description of the strategies and projects, and appears in HSP page number(s) <u>72.</u>
- as required under 23 U.S.C. 402(m), the statewide efforts described in the pages identified above include peer-to-peer education and prevention strategies the State will use in schools and communities that are designed to
 - o increase seat belt use;
 - o reduce speeding;
 - o reduce impaired and distracted driving;
 - o reduce underage drinking; and
 - o reduce other behaviors by teen drivers that lead to injuries and fatalities

APPENDIX D TO PART 1200 – CERTIFICATIONS AND ASSURANCES FOR NATIONAL PRIORITY SAFETY PROGRAM GRANTS (23 U.S.C. 405)

State: Ohio

Fiscal Year: 2015

Each fiscal year the State must sign these Certifications and Assurances that it complies with all requirements, including applicable Federal statutes and regulations that are in effect during the grant period.

In my capacity as the Governor's Representative for Highway Safety, I:

- certify that, to the best of my personal knowledge, the information submitted to the National Highway Traffic Safety Administration in support of the State's application for Section 405 grants below is accurate and complete.
- understand that incorrect, incomplete, or untimely information submitted in support of the State's application may result in the denial of an award under Section 405.
- agree that, as condition of the grant, the State will use these grant funds in accordance with the specific requirements of Section 405(b), (c), (d), (e), (f) and (g), as applicable.
- agree that, as a condition of the grant, the State will comply with all applicable laws and regulations and financial and programmatic requirements for Federal grants.

Part 1: Occupant Protection (23 CFR 1200.21)

All States: [Fill in all blanks below.]

The State will maintain its aggregate expenditures from all State and local sources for occupant protection programs at or above the average level of such expenditures in fiscal years 2010 and 2011. (23 U.S.C. 405(a)(1)(H))

- The State will participate in the Click it or Ticket national mobilization in the fiscal year of the grant. The description of the State's planned participation is provided as HSP attachment or page # pages 55-58, 85-86.
- The State's occupant protection plan for the upcoming fiscal year is provided as HSP attachment or page # pages 55-61.
- Documentation of the State's active network of child restraint inspection stations is provided as HSP attachment or page # <u>Attachment A.</u>
- The State's plan for child passenger safety technicians is provided as HSP attachment or page # <u>Attachment B.</u>

Lower Seat belt Use States: [Check at least 3 boxes below and fill in all blanks under those checked boxes.]

The State's primary seat belt use law, requiring all occupants riding in a passenger motor vehicle to be restrained in a seat belt or a child restraint, was enacted on _/_/_ and last amended on _/_/_, is in effect, and will be enforced during the fiscal year of the grant.

Legal citation(s):

The State's occupant protection law, requiring occupants to be secured in a seat belt or age-appropriate child restraint while in a passenger motor vehicle and a minimum fine of \$25, was enacted on _/_/_ and last amended on _/_/_, is in effect, and will be enforced during the fiscal year of the grant.

Legal citations:

- Requirement for all occupants to be secured in seat belt or age appropriate child restraint
- Coverage of all passenger motor vehicles
- Minimum fine of at least \$25
- Exemptions from restraint requirements

The State's seat belt enforcement plan is provided as HSP attachment or page # pages 57-58, 62-64.

The State's high risk population countermeasure program is provided as HSP attachment or page $\frac{\# 57 - 59, 72}{2}$.

The State's comprehensive occupant protection program is provided as HSP attachment or page #___.

[Check one box below and fill in any blanks under that checked box.]

The State's NHTSA-facilitated occupant protection program assessment was conducted on 08/19/2013;

OR

☐ The State agrees to conduct a NHTSA-facilitated occupant protection program assessment by September 1 of the fiscal year of the grant. (This option is available only for fiscal year 2013 grants.)

Part 2: State Traffic Safety Information System Improvements (23 CFR 1200.22)

• The State will maintain its aggregate expenditures from all State and local sources for traffic safety information system programs at or above the average level of such expenditures in fiscal years 2010 and 2011.

[Fill in at least one blank for each bullet below.]

- A copy of [*check one box only*] the ⊠ TRCC charter or the □ statute legally mandating a State TRCC is provided as HSP attachment # ___ or submitted electronically through the TRIPRS database on <u>06/12/14</u>.
- A copy of meeting schedule and all reports and other documents promulgated by the TRCC during the 12 months preceding the application due date is provided as HSP attachment # ____ or submitted electronically through the TRIPRS database on <u>06/12/14</u>.
- A list of the TRCC membership and the organization and function they represent is provided as HSP attachment # ____ or submitted electronically through the TRIPRS database on <u>06/12/14</u>.
- The name and title of the State's Traffic Records Coordinator is: Captain Art Combest
- A copy of the State Strategic Plan, including any updates, is provided as HSP attachment # ____ or submitted electronically through the TRIPRS database on <u>06/16/14</u>.
- [Check one box below and fill in any blanks under that checked box.]

The following pages in the State's Strategic Plan provides a written description of the performance measures, and all supporting data, that the State is relying on to demonstrate achievement of the quantitative improvement in the preceding 12 months of the application due date in relation to one or more of the significant data program attributes: pages 78-80 (Crash Data Export).

OR

□ If not detailed in the State's Strategic Plan, the written description is provided as HSP attachment # ___.

• The State's most recent assessment or update of its highway safety data and traffic records system was completed on 12/06/2009.

☑ Part 3: Impaired Driving Countermeasures (23 CFR 1200.23)

All States:

- The State will maintain its aggregate expenditures from all State and local sources for impaired driving programs at or above the average level of such expenditures in fiscal years 2010 and 2011.
- The State will use the funds awarded under 23 U.S.C. 405(d) only for the implementation of programs as provided in 23 CFR 1200.23(i) in the fiscal year of the grant.

Mid-Range State:

• [Check one box below and fill in any blanks under that checked box.]

The statewide impaired driving plan approved by a statewide impaired driving task force was issued on $_/_/_$ and is provided as HSP attachment # $_$.

OR

For this first year of the grant as a mid-range State, the State agrees to convene a statewide impaired driving task force to develop a statewide impaired driving plan and submit a copy of the plan to NHTSA by September 1 of the fiscal year of the grant.

 A copy of information describing the statewide impaired driving task force is provided as HSP attachment # ___.

High-Range State:

• [Check one box below and fill in any blanks under that checked box.]

 \Box A NHTSA-facilitated assessment of the State's impaired driving program was conducted on __/_/_;

OR

For the first year of the grant as a high-range State, the State agrees to conduct a NHTSA-facilitated assessment by September 1 of the fiscal year of the grant;

• [Check one box below and fill in any blanks under that checked box.]

For the first year of the grant as a high-range State, the State agrees to convene a statewide impaired driving task force to develop a statewide impaired driving plan addressing recommendations from the assessment and submit the plan to NHTSA for review and approval by September 1 of the fiscal year of the grant;

OR

 \Box For subsequent years of the grant as a high-range State, the statewide impaired driving plan developed or updated on __/__/_ is provided as HSP attachment # ___.

 A copy of the information describing the statewide impaired driving task force is provided as HSP attachment # ___.

Ignition Interlock Law: [Fill in all blanks below.]

The State's ignition interlock law was enacted on __/_/_ and last amended on __/_/_, is in effect, and will be enforced during the fiscal year of the grant.
 Legal citation(s):

□ Part 4: Distracted Driving (23 CFR 1200.24)

[*Fill in all blanks below.*] **Prohibition on Texting While Driving**

The State's texting ban statute, prohibiting texting while driving, a minimum fine of at least \$25, and increased fines for repeat offenses, was enacted on __/_/__ and last amended on __/_/__, is in effect, and will be enforced during the fiscal year of the grant.

Legal citations:

- _____ Prohibition on texting while driving
- Definition of covered wireless communication devices
- _____ Minimum fine of at least \$25 for first offense
- _____ Increased fines for repeat offenses
- _____ Exemptions from texting ban

Prohibition on Youth Cell Phone Use While Driving

The State's youth cell phone use ban statute, prohibiting youth cell phone use while driving, driver license testing of distracted driving issues, a minimum fine of at least \$25, increased fines for repeat offenses, was enacted on $_/_/_$ and last amended on $_/_/_$, is in effect, and will be enforced during the fiscal year of the grant.

Legal citations:

- _____ Prohibition on youth cell phone use while driving
- Driver license testing of distracted driving issues
- _____ Minimum fine of at least \$25 for first offense
- _____ Increased fines for repeat offenses
- _____ Exemptions from youth cell phone use ban

Part 5: Motorcyclist Safety (23 CFR 1200.25)

[Check at least 2 boxes below and fill in any blanks under those checked boxes.]

- Motorcycle riding training course:
- Copy of official State document (e.g., law, regulation, binding policy directive, letter from the Governor) identifying the designated State authority over motorcyclist safety issues is provided as HSP attachment # <u>C</u>.
- Document(s) showing the designated State authority approving the training curriculum that includes instruction in crash avoidance and other safety-oriented operational skills for both in-class and on-the-motorcycle is provided as HSP attachment # <u>D</u>.
- Document(s) regarding locations of the motorcycle rider <u>E</u>.
- Document showing that certified motorcycle rider training instructors teach the motorcycle riding training course is provided as HSP attachment # <u>F</u>.
- Description of the quality control procedures to assess motorcycle rider training courses and instructor training courses and actions taken to improve courses is provided as HSP attachment #<u>G</u>.
- Motorcyclist awareness program:
- Copy of official State document (e.g., law, regulation, binding policy directive, letter from the Governor) identifying the designated State authority over motorcyclist safety issues is provided as HSP attachment # <u>C</u>.
- Letter from the Governor's Representative for Highway Safety regarding the development of the motorcyclist awareness program is provided as HSP attachment # <u>H</u>.
- Data used to identify and prioritize the State's motorcyclist safety program areas is provided as HSP attachment or page # <u>I</u>.
- Description of how the State achieved collaboration among agencies and organizations regarding motorcycle safety issues is provided as HSP attachment # or page # <u>J</u>.
- Copy of the State strategic communications plan is provided as HSP attachment # K.
- Reduction of fatalities and crashes involving motorcycles:
- Data showing the total number of motor vehicle crashes involving motorcycles is provided as HSP attachment or page #___.
- Description of the State's methods for collecting and analyzing data is provided as HSP attachment or page #___.

□ Impaired driving program:

- Data used to identify and prioritize the State's impaired driving and impaired motorcycle operation problem areas is provided as HSP attachment or page #___.
- Detailed description of the State's impaired driving program is provided as HSP attachment or page #___.
- The State law or regulation defines impairment. Legal citation(s):

Reduction of fatalities and accidents involving impaired motorcyclists:

- Data showing the total number of reported crashes involving alcohol-impaired and drugimpaired motorcycle operators is provided as HSP attachment or page #___.
- Description of the State's methods for collecting and analyzing data is provided as HSP attachment or page #___.
- The State law or regulation defines impairment. Legal citation(s):

Ohio

Use of fees collected from motorcyclists for motorcycle programs: [*Check one box below and fill in any blanks under the checked box.*]

- Applying as a Law State—
 - The State law or regulation requires all fees collected by the State from motorcyclists for the purpose of funding motorcycle training and safety programs are to be used for motorcycle training and safety programs. Legal citation(s):

AND

- The State's law appropriating funds for FY ____ requires all fees collected by the State from motorcyclists for the purpose of funding motorcycle training and safety programs be spent on motorcycle training and safety programs. Legal citation(s):
- Applying as a Data State—
 - Data and/or documentation from official State records from the previous fiscal year showing that *all* fees collected by the State from motorcyclists for the purpose of funding motorcycle training and safety programs were used for motorcycle training and safety programs is provided as HSP attachment #__.

□ Part 6: State Graduated Driver Licensing Laws (23 CFR 1200.26)

[Fill in all applicable blanks below.]

The State's graduated driver licensing statute, requiring both a learner's permit stage and intermediate stage prior to receiving a full driver's license, was enacted on $_/_/_$ and last amended on $_/_/_$, is in effect, and will be enforced during the fiscal year of the grant.

Learner's Permit Stage—requires testing and education, driving restrictions, minimum duration, and applicability to novice drivers younger than 21 years of age.

Legal citations:

- _____ Testing and education requirements
- Driving restrictions
- Minimum duration
- _____ Applicability to notice drivers younger than 21 years of age
- Exemptions from graduated driver licensing law

Intermediate Stage—requires driving restrictions, minimum duration, and applicability to any driver who has completed the learner's permit stage and who is younger than 18 years of age.

Legal citations:

- Driving restrictions
- _____ Minimum duration
- _____ Applicability to any driver who has completed the learner's permit stage and is younger than 18 years of age
- _____ Exemptions from graduated driver licensing law

ADDITIONAL REQUIREMENTS DURING BOTH LEARNER'S PERMIT AND INTERMEDIATE STAGES

Prohibition enforced as a primary offense on use of a cellular telephone or any communications device by the driver while driving, except in case of emergency. Legal citation(s):

Requirement that the driver who possesses a learner's permit or intermediate license remain conviction-free for a period of not less than six consecutive months immediately prior to the expiration of that stage. Legal citation(s):

License Distinguishability (*Check one box below and fill in any blanks under that checked box.*)

Requirement that the State learner's permit, intermediate license, and full driver's license are visually distinguishable. Legal citation(s):

OR

□ Sample permits and licenses containing visual features that would enable a law enforcement officer to distinguish between the State learner's permit, intermediate license, and full driver's license, are provided as HSP attachment #____.

OR

Description of the State's system that enables law enforcement officers in the State during traffic stops to distinguish between the State learner's permit, intermediate license, and full driver's license, are provided as HSP attachment #____.

Attachment A

Ohio Inspection Stations

All agencies listed conduct fitting stations for Ohio residents. The Ohio Buckles Buckeyes (OBB) sites are the designated agency in each county to distribute child safety restraints to low income families. Certified CPS Technicians are available during posted hours.

Ohio's Occupant Protection Program

Recruitment, Training and Retention of CPS Technicians in Ohio

With funding from the Ohio Traffic Safety Office at the Ohio Department of Public Safety who receives funding from the National Highway Traffic Safety Administration, the Ohio Department of Health (ODH) maintains a state coordinator and a statewide network of Occupant Protection Regional Coordinators (OPRCs). Ohio's network is comprised of seven regions. See map on page 166.

The statewide coordinator, housed at ODH, serves as a resource and provides technical support and assistance to Ohio's regional coordinators, the OPRCs. ODH collects child restraint fines deposited into the Child Highway Safety Fund and utilizes those funds to purchase child safety restraints for low income families. The goal of the Ohio Buckles Buckeyes (OBB) program is to increase the availability of child safety seats for families who could not otherwise afford them and to increase correct installation and proper use of child safety seats for all Ohio families.

The availability of child safety seats through the OBB program also adds to the positive recruitment and retention of child passenger safety (CPS) technicians in Ohio. Providing a steady stream of new seats to the community provides CPS technicians with opportunities to practice their installation and educational skills.

OPRCs are a crucial part of Ohio's regional network. Each of the OPRCs is required to be a CPS instructor or senior checker with access to a CPS instructor within their parent organization. The OPRCs have developed relationships on the local level to serve as a resource for their communities and ensure compliance with current national occupant protection standards.

The OPRCs work closely with an OBB site in every Ohio county to provide technical assistance, training and educational resources. They also assist the OBB sites in the implementation, coordination and evaluation of their distribution programs.

The OPRCs also coordinate CPS check-up events and establish fitting station sites at the local level. Car seat checks and fitting stations are specific locations sponsored by community organizations where parents and other caregivers can receive education and training from a certified CPS technician in how to properly install and use their child safety seat.

With technical support and assistance from the ODH coordinator, the OPRCs are responsible for maintaining and increasing the number of technicians in their region, thereby maintaining Ohio's pool of technicians. ODH conducts monthly calls with the OPRCs to coordinate the

activities of the OPRCs across the state. Throughout the year, the ODH coordinator and OPRCs identify potential gaps in Ohio's CPS network and recruit new technicians and partners as needed to ensure Ohio's network continues to run smoothly.

Summary of Trainings

The OPRCs offer multiple training opportunities to increase and maintain the pool of CPS technicians throughout Ohio. These trainings are important to ensure there are trained technicians in all communities to staff the check-up events, fitting stations and OBB sites. Ohio follows the national child passenger safety certification training program with the certifying body – Safe Kids Worldwide and curriculum provided by the National Highway Traffic Safety Administration. Multiple training opportunities are offered throughout the year. The ODH coordinator tracks trainings across regions to ensure adequate variation in opportunities and availability of instructors to complete trainings.

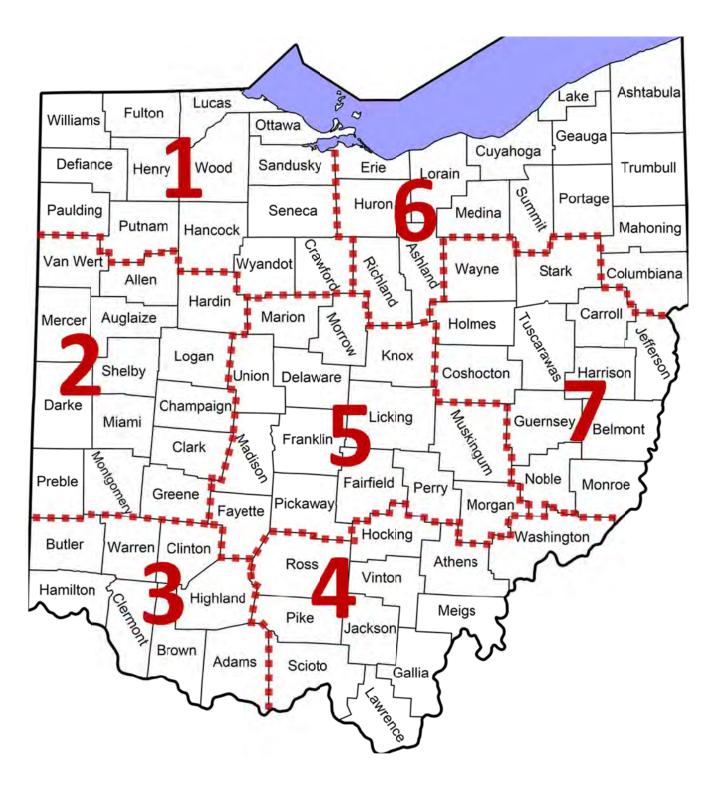

32 *Hour Certification Courses* – At least one 32-hour technician certification course is offered in each region each federal fiscal year. The 32 hour certification course is required for those interested in becoming child passenger safety technicians. In federal fiscal year 2013, 17 courses were offered through the OPRC Program.

Renewal/Refresher Courses – OPRCs offer training opportunities to retain technicians in their regions. Refresher and renewal courses are offered for technicians to obtain required CEUs, community education hours, and seat installation check offs to recertify their technician status. In federal fiscal year 2012, 63 courses were offered through the OPRC Program.

Statewide/Regional Conference – The OPRCs have partnered with Safe Kids Ohio to offer a statewide occupant protection conference for the past six years. The statewide conference provides both CPS technicians and advocates the opportunity to come together to improve youth occupant protection in Ohio. In an additional effort to retain CPS technicians in Ohio, a small stipend is offered for OBB coordinators to travel to the statewide conference where they can receive their CEUs to retain their certification.

Car Seat Checks

The OPRCs conduct a minimum of three community-based car seat check events each year within their regions. A minimum of 27 car seat checkup events are offered throughout Ohio each year to give existing technicians an opportunity to get their seats checked off and maintain their CPS certification status. Offering multiple car seat check events has the added benefit of educating Ohio's families on how to properly install their child safety seat.

Ohio Revised Code - 4508.08 Motorcycle safety and education program.

There is hereby created in the department of public safety the motorcycle safety and education program. The director of public safety shall administer the program in accordance with the following guidelines:

(A) The program shall include courses of instruction conducted at vocational schools, community colleges, or other suitable locations, by instructors who have obtained certification in the manner and form prescribed by the director. The courses shall meet standards established in rules adopted by the department in accordance with Chapter 119. of the Revised Code. The courses may include instruction for novice motorcycle operators, instruction in motorist awareness and alcohol and drug awareness, and any other kind of instruction the director considers appropriate. A reasonable tuition fee, as determined by the director, may be charged. The director may authorize private organizations or corporations to offer courses without tuition fee restrictions, but such entities are not eligible for reimbursement of expenses or subsidies from the motorcycle safety and education fund created in section <u>4501.13</u> of the Revised Code.

(B) In addition to courses of instruction, the program may include provisions for equipment purchases, marketing and promotion, improving motorcycle license testing procedures, and any other provisions the director considers appropriate.

(C) The director shall evaluate the program every two years and shall periodically inspect the facilities, equipment, and procedures used in the courses of instruction.

(D) The director shall appoint at least one training specialist who shall oversee the operation of the program, establish courses of instruction, and supervise instructors. The training specialist shall be a licensed motorcycle operator and shall obtain certification in the manner and form prescribed by the director.

(E) The director may contract with other public agencies or with private organizations or corporations to assist in administering the program.

(F) Notwithstanding any provision of Chapter 102. of the Revised Code, the director, in order to administer the program, may participate in a motorcycle manufacturer's motorcycle loan program.

(G) The director shall contract with an insurance company or companies authorized to do business in this state to purchase a policy or policies of insurance with respect to the establishment or administration, or any other aspect of the operation of the program.

Effective Date: 09-26-2003

Training Curriculum

National Standards: Ohio has adopted the National Highway Traffic Safety Administration's (NHTSA) Model National Standards for Entry-Level Rider Training curriculum (August 2011). These educational standards establish baseline content that all entry-level riders must be taught in motorcycle rider training classes held in Ohio. The model standards are grouped into the following six sections: Motorcycle Pre-Ride Tasks, Vehicle Control Skills, Street Strategies, Roadway Management Skills, Tasks Related to Carrying Passengers, Cargo, Group Riding, and Touring, and Factors Adversely Affecting Rider Performance.

Ohio Administrative Code - 4501-53-02 Basic rider course.

(A) The basic rider course (BRC) curriculum shall be approved by the director and shall include, at a minimum, the following topics:

(1) A classroom portion that covers the following:

- (a) Course introduction;
- (b) Introduction to motorcycling;
- (c) Preparing to ride;
- (d) Street strategies;
- (e) Knowledge test;
- (f) Wrap-up.

(2) A range portion that covers the following:

- (a) Motorcycle familiarization;
- (b) Using the friction zone;
- (c) Starting and stopping drill;
- (d) Shifting and stopping;
- (e) Adjusting speed and turning;
- (f) Control-skills practice;
- (g) Cornering;
- (h) Matching gears to speed;
- (i) Stopping quickly;
- (j) Limited-space maneuvers;
- (k) Pressing to initiate lean;
- (I) Cornering judgment;
- (m) Negotiating curves;
- (n) Stopping quickly in a curve;
- (o) Obstacles and lane changes;
- (p) Avoiding hazards;
- (q) Skills practice;
- (r) Skill test.

(3) Such material shall not be taught out of sequence or modified by instructors, unless authorized by the motorcycle Ohio coordinator.

(B) The BRC shall have the following instructor to student ratio:

(1) Classroom – one instructor may teach a maximum of twenty-four registered students;

(2) Range – one instructor may instruct no fewer than two students nor more than six students on motorcycles. Two instructors shall instruct no more than twelve students on motorcycles;

(3) The maximum capacity for on-cycle instruction is twelve students.

(C) Students shall have a valid temporary instruction motorcycle identification card (TIPIC), a motorcycle endorsement, or a motorcycle-only license prior to participating in range instruction.

(D) Unless otherwise approved by the department, the BRC shall use training motorcycles provided by the provider with one hundredcc to five hundredcc engine displacement.

(E) Every student participating in the BRC range instruction must wear proper riding gear, which includes helmet and eye protection that is in compliance with Chapter 4501-17 of the Administrative Code, sturdy over-the-ankle footwear, long-sleeved shirt or jacket, sturdy full-length pants without holes or tears, and full-fingered gloves.

(F) Students successfully completing the BRC shall be issued a completion card for the purpose of course verification.

(G) Upon completion of the BRC, the provider shall submit, electronically, to the department, a student report form, in a format prescribed by the director.

Replaces: 4501-53-02 Effective: 04/21/2011 R.C. <u>119.032</u> review dates: 02/02/2016 Promulgated Under: <u>119.03</u> Statutory Authority: R.C. <u>4508.08</u> Rule Amplifies: R.C. <u>4508.08</u> Prior Effective Dates: 9/26/03 (Emer.), 12/26/03, 2/2/06

Ohio Administrative Code - 4501-53-12 Basic rider course two.

(A) The basic rider course two (BRC-2) curriculum shall be approved by the director and shall include, at a minimum, five hours of range work in the following topics:

- (1) Control at low speed;
- (2) Stopping quickly;
- (3) Limited-space maneuvers;
- (4) Cornering judgment;
- (5) Cornering finesse;
- (6) Stopping quickly in a curve;
- (7) Hazard avoidance: swerving and stopping quickly;
- (8) Multiple curves;
- (9) Alcohol/drug effects.

(B) Such material shall not be taught out of sequence or modified by instructors unless authorized by the motorcycle Ohio coordinator or there are serious weather conditions.

(C) The BRC-2 shall have the following instructor to student ratio:

(1) One instructor may instruct no fewer than two students and no more than six students and six passengers. Two instructors shall instruct no more than twelve students and twelve passengers;

(2) The maximum capacity for on-cycle instruction is twelve students and twelve passengers.

(D) Students shall have a motorcycle endorsement or a motorcycle-only license prior to participating in range instruction.

(E) Instructors and students shall use their own motorcycles during the course. Private providers may allow use of private provider motorcycles.

(F) Every student participating in the BRC-2 range instruction must wear proper riding gear, which includes helmet and eye protection that is in compliance with Chapter 4501-17 of the Administrative Code, sturdy over-the-ankle footwear, long-sleeved shirt or jacket, sturdy full-length pants without holes or tears, and full-fingered gloves.

(G) Students successfully completing the BRC-2 shall be issued a completion card.

(H) Upon completion of the BRC-2, the provider shall submit, electronically, to the department, a student report form, in a format prescribed by the director.

Replaces: 4501-53-12 Effective: 04/21/2011 R.C. <u>119.032</u> review dates: 02/02/2016 Promulgated Under: <u>119.03</u> Statutory Authority: R.C. <u>4508.08</u> Rule Amplifies: R.C. <u>4508.08</u> Prior Effective Dates: 2/2/06

Ohio Administrative Code - 4501-53-14 Basic rider course for returning rider.

(A) The basic rider course for returning rider (BRC-RR) curriculum shall be approved by the director and shall include, at a minimum, the following topics:

(1) A classroom portion that covers the following:

- (a) Street strategies;
- (b) Knowledge test;
- (c) Wrap-up.

(2) A range portion that covers the following:

- (a) Matching gears to speed;
- (b) Stopping quickly;
- (c) Limited-space maneuvers;
- (d) Pressing to initiate lean;
- (e) Cornering judgment;
- (f) Negotiating curves;
- (g) Stopping quickly in a curve;
- (h) Obstacles and lane changes;
- (i) Avoiding hazards;
- (j) Skills practice;
- (k) Skill test.

(3) Such material shall not be taught out of sequence or modified by instructors, unless authorized by the motorcycle Ohio coordinator.

(B) The BRC-RR shall have the following instructor to student ratio:

(1) Classroom – one instructor may teach a maximum of twenty-four registered students;

(2) Range – one instructor may instruct no fewer than two students nor more than six students on motorcycles. Two instructors shall instruct no more than twelve students on motorcycles;

(3) The maximum capacity for on-cycle instruction is twelve students.

(C) Students shall have a valid temporary instruction motorcycle identification card (TIPIC), a motorcycle endorsement, or a motorcycle-only license prior to participating in range instruction.

(D) Unless otherwise approved by the department, the BRC-RR shall use training motorcycles provided by the provider with 100cc to 500cc engine displacement.

(E) Every student participating in the BRC-RR range instruction must wear proper riding gear, which includes helmet and eye protection that is in compliance with Chapter 4501-17 of the Administrative Code, sturdy over-the-ankle footwear, long-sleeved shirt or jacket, sturdy full-length pants without holes or tears, and full-fingered gloves.

(F) Students successfully completing the BRC-RR shall be issued a completion card for the purpose of course verification.

(G) Upon completion of the BRC-RR, the provider shall submit, electronically, to the department, a student report form, in a format prescribed by the director.

Effective: 04/21/2011 R.C. <u>119.032</u> review dates: 02/02/2016 Promulgated Under: <u>119.03</u> Statutory Authority: R.C. <u>4508.08</u> Rule Amplifies: R.C. <u>4508.08</u>

Ohio Administrative Code - 4501-53-15 Advanced rider course.

(A) The advanced rider course (ARC) curriculum shall be approved by the director and shall include, at a minimum, five hours of range work in the following topics:

- (1) Basic control;
- (2) Quick stops;

(3) Stopping demonstration;

- (4) Curve adjustments;
- (5) Cornering and swerving;
- (6) Multiple curves;
- (7) Decreasing radius curves;
- (8) Gap analysis and safety margins.

(B) Such material shall not be taught out of sequence or modified by instructors, unless authorized by the motorcycle Ohio coordinator.

(C) The ARC course shall consist of four hours of classroom activities. Classroom activities use small group discussions and interactive activities to address personal risk management strategies; options for cornering, braking, and swerving; and strategies to improve visual perception to identify collision traps.

(D) The ARC shall have the following instructor to student ratio:

(1) Classroom activities – one instructor may teach a maximum of twenty-four registered students;

(2) Range – one instructor may instruct no fewer than two students nor more than six students on motorcycles. Two instructors shall instruct no more than twelve students on motorcycles.

(3) The maximum capacity for on-cycle instruction is twelve students.

(E) Students shall have a valid motorcycle endorsement or a motorcycle-only license prior to participating in range instruction.

(F) Instructors and students shall use their own motorcycles during the course. Private providers may allow use of private provider motorcycles. Passengers are not permitted in the advanced rider course.

(G) Every student participating in the ARC range instruction must wear proper riding gear, which includes helmet and eye protection that is in compliance with Chapter 4501-17 of the Administrative Code, sturdy over-the-ankle footwear, long-sleeved shirt or jacket, sturdy full-length pants without holes or tears, and full-fingered gloves.

(H) Students successfully completing the ARC shall be issued a completion card for the purpose of course verification.

(I) Upon completion of the ARC, the provider shall submit, electronically, to the department, a student report form, in a format prescribed by the director.

Effective: 04/21/2011 R.C. <u>119.032</u> review dates: 02/02/2016 Promulgated Under: <u>119.03</u> Statutory Authority: R.C. <u>4508.08</u>Rule Amplifies: R.C. <u>4508.08</u>

Ohio Administrative Code - 4501-53-03 Instructor qualifications for certification to teach.

(A) The department shall certify an individual to teach the BRC if the individual meets the following conditions:

(1) Submits to the department a completed application on a form approved by the director.

No applicant shall submit an application that contains false or misleading information;

(2) Possesses a high school diploma or GED;

(3) Possesses a current first aid card and a current CPR card or equivalent;

(4) Is currently an experienced motorcycle operator, licensed for at least three years preceding the date of the application with a valid motorcycle endorsement, and currently rides a motorcycle on a regular basis;

(5) Has a driving record free of any of the following:

(a) Three or more chargeable crashes within the three years preceding the date of application;

(b) Three or more moving violation convictions under Chapter 4511. of the Revised Code, or equivalent convictions from another jurisdiction, within the three years preceding the date of application;

(c) An accumulation of more than five points under Chapter 4510. of the Revised Code, or equivalent action from another jurisdiction, within the three years preceding the date of application;

(d) A twelve-point administrative action under section <u>4510.037</u> of the Revised Code, or equivalent action from another jurisdiction, within the ten years preceding the date of application;

(e) A suspension under section <u>4511.19</u> of the Revised Code, or equivalent conviction from another jurisdiction, within ten years preceding the date of application.

(6) Successfully completes an instructor preparation course approved by the director;

(7) Successfully completes the BRC within the two calendar years preceding the date the instructor preparation course is being offered;

(8) Upon request, submits a criminal abstract provided and dated by the bureau of criminal identification and investigation within forty-five days of such request;

(9) Has not been convicted of, pled guilty to, had a judicial finding of guilt for, or had a judicial finding of eligibility for treatment in lieu of conviction for, any of the following:

(a) Any felony;

(b) A misdemeanor involving moral turpitude;

(c) A misdemeanor of the first or second degree which is reasonably related to a person's ability to serve safely and honestly in connection with a motorcycle training course;

(d) A violation of any federal, state, county, or municipal narcotics law;

(e) Any act committed in another state or jurisdiction that, if committed in Ohio, would constitute a violation set forth in this paragraph.

(10) Has not been adjudicated mentally incompetent by a court of law;

(11) Does not engage in the illegal use of controlled substances, alcohol, or other habit-forming drugs or chemical substances while performing the duties of a motorcycle instructor;

(12) Has not committed fraud or material deception in applying for, or obtaining, certification to teach under this chapter;

(13) Upon request, provides an original signed statement from the applicant's physician, on the physician's letterhead, certifying that the applicant is mentally and physically capable of providing motorcycle safety instruction;

(B) In addition to meeting the requirements in paragraphs (A)(1) to (A)(5) and (A)(8) to (A)(13) of this rule, motorcycle instructors certified by another state or military motorcycle safety program, who have successfully completed an instructor preparation course and the BRC, shall successfully complete a special MO training session conducted by an MO chief instructor.

(C) The department may access an applicant's driving record to verify that the applicant meets the requirements of this rule.

(D) The department may observe and evaluate all aspects of the conduct of any course.

(E) An individual's certification to teach shall expire on December thirty-first of the year of certification, and may be renewed annually upon application to the department pursuant to rule <u>4501-53-05</u> of the Administrative Code.

(F) The department shall certify an individual to teach the BRC-2, BRC-RR, and/or ARC if the individual meets the conditions of paragraphs (A)(1) to (A)(6) and (A)(8) to (A)(13) of this rule and the individual attends a course specific workshop or training course provided by the department.

Effective: 04/21/2011 R.C. <u>119.032</u> review dates: 02/02/2011 and 02/02/2016 Promulgated Under: <u>119.03</u> Statutory Authority: R.C. <u>4508.08</u> Rule Amplifies: R.C. <u>4508.08</u> Prior Effective Dates: 9/26/03 (Emer.), 12/26/03, 2/2/06

Ohio Administrative Code - 4501-53-04 Instructor professional standards.

Each instructor certified to teach pursuant to this chapter shall maintain and convey the following professional standards:

(A) Provide training that conforms to standards of other persons certified to teach under similar circumstances;

(B) Wear proper riding gear while traveling to, from, and during teaching MO courses, attending MO functions, or whenever any MO logo clothing is worn. Proper riding gear includes helmet and eye protection that is in compliance with Chapter 4501-17 of the Administrative Code, sturdy over-the-ankle footwear, long-sleeved shirt or jacket, sturdy full-length pants without holes or tears, and full-fingered gloves;

(C) Maintain an alcohol-free and drug-free course environment;

(D) Conduct themselves in a professional manner, including appearance and behavior, and not discriminate in the provision of motorcycle training on the basis of race, color, religion, sex, or national origin;

(E) Provide instruction within the scope of the instructor's certification to teach in accordance with this chapter;

(F) Consistently demonstrate a standard of knowledge and competency that at least meets the minimal level required under the instructor's certification to teach;

(G) Report to the department any suspicion or knowledge of a violation of this chapter or the failure of any motorcycle training provider to conform to the rules of this chapter;

(H) Report to the department in writing within ten days of the occurrence of any of the following events;

(1) The instructor receives a moving traffic violation;

(2) The instructor is involved in a chargeable crash;

(3) The instructor is convicted of an offense that assesses points against the instructor's driver's license;

(4) The instructor receives any license suspension, cancellation, or revocation;

(5) The instructor is convicted of any criminal offense listed in this chapter.

(I) Refrain from misrepresenting the instructor's professional qualifications or credentials or committing fraud in conducting a motorcycle training course or in obtaining certification to teach;

(J) Refrain from conducting for compensation private training regarding motorcycle use on public streets and highways;

(K) Complete additional BRC, BRC-RR, BRC-2, or ARC instructor training as requested by the department, including the annual instructor workshop;

(L) Maintain a current first aid card and a current adult CPR card . Present valid, dated cards upon request and/or sign the annual application for verification of cards.

Effective: 04/21/2011

R.C. <u>119.032</u> review dates: 02/02/2011 and 02/02/2016 Promulgated Under: <u>119.03</u> Statutory Authority: R.C. <u>4508.08</u> Rule Amplifies: R.C. <u>4508.08</u> Prior Effective Dates: 9/26/03 (Emer.), 12/26/03, 2/2/06

Ohio Administrative Code - 4501-53-05 Renewal of certification to teach.

(A) Each instructor seeking renewal of the instructor's certification to teach shall, within thirty days of the expiration date of the current certification period, submit a renewal application to the department on a form prescribed by the director.

(B) Renewal applications received more than thirty days after the expiration date of the last certification period shall not be considered valid, and the applicant shall complete a new application in accordance with rule <u>4501-53-03</u> of the Administrative Code.

(C) The application for renewal shall be signed, dated, and shall contain a statement affirming that the applicant meets the requirements for certification to teach set forth in this chapter.

(D) The department shall renew certification to teach issued under this chapter for any instructor who meets the following:

(1) Satisfies the requirements for certification to teach as set forth in rules 4501-53-03 and 4501-53-04 of the Administrative Code;

(2) Has taught in Ohio, per the "Motorcycle Ohio Policy and Procedure Manual" (2011), the minimum number of basic rider courses for MO during the most recent certification period. This requirement may be waived for good cause upon approval of the department. The "Motorcycle Ohio Policy and Procedure Manual" (2011) may be electronically accessed at http://www.motorcycle.ohio.gov/index.stm.

(3) Upon request, submits a criminal abstract provided and dated by the bureau of criminal identification and investigation within forty-five days of such request.

(E) In addition to the requirements listed in paragraph (D) of this rule, a BRC-2 instructor shall also, within the past three years, have taught at least one BRC-2 or attended a BRC-2 update provided by the department.

Effective: 04/21/2011 R.C. <u>119.032</u> review dates: 02/02/2011 and 02/02/2016 Promulgated Under: <u>119.03</u> Statutory Authority: R.C. <u>4508.08</u> Rule Amplifies: R.C. <u>4508.08</u> Prior Effective Dates: 9/26/03 (Emer.), 12/26/03, 3/24/06 Ohio FFY2015 Highway Safety Plan

Ohio Administrative Code - 4501-53-06 Private provider qualifications for certification of approval.

(A) All motorcycle training courses taught pursuant to section <u>4508.08</u> of the Revised Code shall be taught through an approved provider by an instructor certified to teach under this chapter.

(B) A private agency, corporation, or organization seeking to become an approved private provider shall submit a completed application to the department, on a form approved by the director, which demonstrates compliance with this rule.

(1) No authorized official shall submit an application that contains false or misleading information;

(2) The site coordinator shall submit with the application a criminal abstract provided and dated by the bureau of criminal identification and investigation not more than sixty days prior to the date the director receives the application. If there is no designated site coordinator, the authorized official must submit such criminal abstract.

(C) The department shall issue a private provider certification of approval to any applicant who demonstrates that the motorcycle training course for which it seeks approval meets the following requirements:

(1) The established place of business is owned, leased, or rented by the private provider;

(2) A private provider maintains at least one fixed geographic location in which a training site is operated and where training is conducted, at least one office in a fixed geographic location where records are maintained, and at least one classroom where students are instructed:

(a) The use of a mobile or modular structure as a training facility is prohibited unless the structure is installed on a permanent foundation;

(b) Neither a private provider nor its office shall consist of a house trailer, tent, temporary stand, post office box, rooming house, or apartment;

(c) Neither a private provider nor its office shall be located within a residence or a room in a hotel or motel;

(d) No private provider may share any office or classroom with any other provider unless the same person owns both.

(3) The private provider's office meets the following standards:

(a) Has adequate space to maintain the required records;

(b) Has a permanent wall of sufficient construction to prevent distractions and noise in the classroom. If no permanent wall exists, the office shall remain closed for business during classroom instruction;

(c) Is located in the same county as, or in a county adjacent to, the provider for which student records are being stored.

(4) The private provider's classroom meets the following standards:

(a) Comfortably accommodates at least twelve students and two instructors, and has sufficient space to contain tables and chairs or desks for all students;

(b) Is equipped with a variety of audio and visual training aids that support the course curriculum;

(c) Is reasonably free of visible and audible distractions and presents an atmosphere adequate for learning;

(d) Has a clean and functional restroom that is available for student use within its facility;

(e) Conforms to all federal, state, and local fire, building, and safety regulations.

(5) Range instruction occurs on a suitable riding range, owned or leased by the provider, which shall consist of the following:

(a) A surface of asphalt or concrete approximately two hundred feet by three hundred feet in size, which is free from obstructions, loose gravel and debris, is capable of being blocked off from all vehicular and pedestrian traffic, and is marked to provide a clear path of travel for the students and visible cone positions for the instructor.

(6) The private provider assumes responsibility, or designates such responsibility to a site coordinator, for the following:

(a) Administration and operation of the motorcycle training course;

(b) Ongoing review and evaluation of the course content, instructors, and student performance;

(c) Assignment of instructors and scheduling of program courses;

(d) Preparation or approval of all documents required to be submitted to the department;

(e) Assuring the adequacy of all course training materials.

(f) Assuring the safe operating condition of all motorcycles used by students in the BRC or BRC-RR.

(7) The course meets the curriculum requirements as set forth in this chapter;

(8) The private provider has a sufficient number of certified BRC/ BRC-2instructors to ensure that student:teacher ratios for all courses, taught at their facility, comply with this chapter;

(9) The private provider submits written course policies and procedures for the director's approval, including all of the following:

(a) Curriculum listed by topics;

(b) Instructor requirements;

(c) Student/teacher ratio;

(d) Insurance provider and limits in compliance with rule $\frac{4501-53-13}{4501-53-13}$ of the Administrative Code.

(e) Attendance requirements;

- (i) Tardiness;
- (ii) Course completion;
- (iii) Make-up.
- (f) ADA policy administration;
- (g) Registration;
 - (i) Refund;
 - (ii) Walk-in.

(h) Use of student-owned motorcycles in the BRC and BRC-RR;

(i) Record keeping;

(j) Course evaluation;

- (k) Student eligibility requirements;
- (I) Harassment and discrimination policies;
- (m) Complaint procedures.

(D) A certificate of approval issued under this rule shall expire on December thirty-first of the year the certificate is issued and may be renewed annually upon application to the department pursuant to rule <u>4501-53-09</u> of the Administrative Code.

Effective: 04/21/2011 R.C. <u>119.032</u> review dates: 02/02/2011 and 02/02/2016 Promulgated Under: <u>119.03</u> Statutory Authority: R.C. <u>4508.08</u> Rule Amplifies: R.C. <u>4508.08</u> Prior Effective Dates: 9/26/03 (Emer.), 12/26/03, 2/2/06

Ohio Administrative Code - 4501-53-07 Public provider qualifications for certification of approval.

(A) All motorcycle training courses taught pursuant to section <u>4508.08</u> of the Revised Code must be taught through an approved provider by an instructor certified to teach under this chapter of the Administrative Code.

(B) To become an eligible public provider, a public agency or recognized training facility must follow state procurement procedures, including grant application procedures, as administered by the department.

(1) No authorized official shall submit a grant application that contains false or misleading information;

(2) The authorized official shall submit with the grant application a criminal abstract provided and dated by the bureau of criminal identification and investigation not more than sixty days prior to the date the director receives the grant application.

(C) A certification of approval issued under this rule shall expire on December thirty-first of the calendar year in which the grant was approved.

Effective: 04/21/2011 R.C. <u>119.032</u> review dates: 02/02/2011 and 02/02/2016 Promulgated Under: <u>119.03</u> Statutory Authority: R.C. <u>4508.08</u> Rule Amplifies: R.C. <u>4508.08</u> Prior Effective Dates: 2/2/06

Ohio Administrative Code - 4501-53-09 Renewal of private provider certification of approval.

(A) Each private provider seeking renewal of certification of approval shall have its authorized official submit a renewal application to the department on a form prescribed by the director.
(B) If a renewal application is not postmarked or received by the department at least thirty days prior to the expiration of the current approval period, the authorized official must submit an original application in accordance with rule <u>4501-53-06</u> of the Administrative Code.

(C) The renewal application shall be signed, dated, and shall contain a statement affirming that the private provider meets the requirements for a certification of approval.

(D) The department shall renew a certification of approval if all of the following apply:

(1) The application for renewal is completed and submitted to the department no later than the thirtieth day prior to expiration of the current approval period;

(2) The course remains in compliance with the requirements for approval as set forth in this chapter, and with the private provider's written policies and procedures as approved by the director.

(3) Upon request, the site coordinator submits a criminal abstract provided and dated by the bureau of criminal identification and investigation within forty-five days of such request. If there is no designated site coordinator, the authorized official shall submit such criminal abstract.

(E) In considering an application for renewal of certification of approval, the department may consider any information relevant to the requirements for approval as set forth in this chapter and Chapter 4508. of the Revised Code.

Effective: 04/21/2011 R.C. <u>119.032</u> review dates: 02/02/2011 and 02/02/2016 Promulgated Under: <u>119.03</u> Statutory Authority: R.C. <u>4508.08</u> Rule Amplifies: R.C. <u>4508.08</u> Prior Effective Dates: <u>9/26/03</u> (Emer.), <u>12/26/03</u>, <u>2/2/06</u>

Ohio Administrative Code - 4501-53-11 Provider professional standards.

(A) A provider's authorized official and site coordinator, if applicable, shall report to the department any suspicion or knowledge of a violation of this chapter or failure of any instructor to conform to the rules in this chapter or Chapter 4508. of the Revised Code.

(B) The conviction of an authorized official or site coordinator of a felony, or an equivalent conviction from another jurisdiction, or any misdemeanor of the first or second degree which is reasonably related to a person's ability to serve safely and honestly in connection with a motorcycle training program, or an equivalent conviction from another jurisdiction, shall be grounds to deny issuing or renewing a certificate or grounds for suspending or revoking a previously issued certificate.

R.C. <u>119.032</u> review dates: 02/02/2011 and 02/02/2016 Promulgated Under: <u>119.03</u> Statutory Authority: R.C. <u>4508.08</u> Rule Amplifies: R.C. <u>4508.08</u> Prior Effective Dates: 9/26/03 (Emer.), 12/26/03, 2/2/06

Motorcycle Ohio Quality Control

<u>Peer Observer -</u> The Peer Observer Program is a resource provided to motorcycle safety Instructors. It provides a link in creating and maintaining a quality rider education program by assisting each individual Instructor in developing exceptional teaching capabilities. The purpose of the program is to: A) identify the Instructor's teaching strengths and encourage their continued use to benefit the students; B) identify areas needing improvement to enhance the Instructor's capabilities; C) provide the observer, as well as the Instructor, with opportunities for professional growth; and D) improve the Instructors and the program through shared experiences and constructive feedback.

Peer Observers are active Motorcycle Ohio Instructors who are trained in peer observer techniques and guidelines. Peer Observers must be on the certified list of Motorcycle Ohio Instructors.

<u>Assisting with an IPC -</u> Motorcycle Ohio certified Instructors, who volunteer, are selected by MO to assist the Chief Instructors with Instructor prep courses, as needed. This experience helps to strengthen the Instructors' knowledge and teaching skills by performing demonstrations, model teaching to the Instructor candidates and may teach the basic course during the student teaching weekend.

<u>Chief Instructor Evaluation -</u> Chief Instructors are available to assist MO in performing evaluations with Instructors who are experiencing difficulty in teaching either the classroom or range. The goal of the Chief Instructor, on any visit to a course, is to help MO Instructors correct problem areas and enhance the Instructor's capabilities.

<u>Specialized Workshops -</u> Upon occasion, Motorcycle Ohio may make workshops available to address topics of interest or areas of concern for Instructors. These workshops may be regional or statewide in scope. The purpose of the workshops is to provide a better understanding of program services and course instruction.

Motorcycle Ohio holds a mandatory Instructor Refresher Workshop every year. Each instructor has to attend in order to keep their certification to teach in Ohio.

Program Evaluation

The ODPS, at its discretion, may initiate inquiries of students, former students or employees in any course in order to evaluate the effectiveness of the course or investigate information concerning problems or complaints. Additionally, MO may conduct training facility and Instructor evaluations. Evaluation visits may be announced or unannounced.

Ohio Administrative Code - 4501-53-08 Provider inspections.

(A) All provider facilities may be inspected at any time by the department for compliance with the rules set forth in this chapter. The provider's authorized official or site coordinator shall make any records accessible to the department for copying.

(B) Providers found to be in non-compliance with any rule of this chapter shall be notified by the department and directed to come into compliance by the next motorcycle training session.(C) Providers found to be in non-compliance on subsequent inspections for the same

infraction may have disciplinary action taken against the provider's certification pursuant to an adjudicatory hearing under Chapter 119. of the Revised Code;

(D) The director may observe and evaluate courses of instruction at any time to ensure compliance with the rules set forth in this chapter.

Replaces: former 4501-53-07 R.C. <u>119.032</u> review dates: 02/02/2011 and 02/02/2016 Promulgated Under: <u>119.03</u> Statutory Authority: R.C. <u>4508.08</u> Rule Amplifies: R.C. <u>4508.08</u> Prior Effective Dates: 9/26/03 (Emer.), 12/26/03, 02/02/06

Ohio Administrative Code - 4501-53-10 Administrative actions.

(A) The director, pursuant to an adjudicatory hearing under Chapter 119. of the Revised Code, may deny any application for certification when the director determines an applicant, instructor, or provider may have violated any of the provisions of this chapter or Chapter 4508. of the Revised Code.

(B) The director, pursuant to an adjudicatory hearing under Chapter 119. of the Revised Code, may issue a written reprimand, or suspend, revoke, or place on probationary status certification issued by the department under this chapter if the director discovers an applicant, instructor, or provider has violated any provision of this chapter or Chapter 4508. of the Revised Code.

Motorcycle Safety Strategic Planning Work Group

This work group was established in 2005 to provide input on development of the motorcycle safety strategic plan. The Ohio Department of Transportation (ODOT), the Ohio State Highway Patrol (OSHP), Miami University, motorcycle dealers, the American Motorcyclist Association (AMA), motorcyclist organizations, and motorcycle-related businesses will continue to participate in the meetings and assist with implementation of the strategic plan in FFY 2014. The group continues to meet twice a year; once prior to the riding season and again in the middle of the season. Topics discussed include: engineering issues, enforcement issues, current legislation, awareness and crash trends.

Below is the 2014 Media Plan. FFY 2015's media plan will be similar. Once the final comprehensive paid media plan is developed, it will be submitted to NHTSA for review and approval prior to implementation. The plan will be adjusted based upon feedback from NHTSA's media buyer, Ohio's current crash data and information received from the 2014 telephone survey analysis. The locations have been highlighted (beginning on page 205) to show the plan is designed to educate motorists in those jurisdictions where the incidence on motorcycle crashes is highest. The plan refers to cities; see the chart below for the county to compare with attachment I.

City	County
Cleveland	Cuyahoga
Columbus	Franklin
Cincinnati	Hamilton
Toledo	Lucas

Major metropolitan media markets cover the top 13 counties in attachment I.

Ohio Department of Public Safety

Media Recommendation "St. Patrick's Day" Drive Sober Campaign March 8 – 17, 2014

January 27, 2014

The following recommends a media investment strategy to support an advertising program on behalf of the Ohio Public Safety's "Saint Patrick's Day" campaign.

The general objective of the advertising program is create awareness of enforcement efforts to reduce impaired driving statewide leading up to and including the March 17th St. Patrick's Day celebrations.

<u>Givens</u>

The following parameters have been agreed to:

- The total budget will not exceed \$75,000
- The advertising should provide coverage throughout the state of Ohio
- Flight dates are Saturday, March 8 through Monday, March 17, 2014
- Creative units available include a: 30 television spot,:30 radio spot and 728x90 animated banners.
- PSA units (unpaid media) will be negotiated to at least match the paid schedule
- Media will complement the national NHTSA media buy once made available as best as possible.

Target Audience

The target audience has been identified as Men 18-34 years of age throughout the state of Ohio. Qualitative research information has generally identified the **younger men (16-24 years) within this demographic as the most "at risk" drivers and passengers.**

<u>Markets</u>

There are 9 television markets (Nielsen DMAs) that cover every county in Ohio.

The major markets of Cleveland (32%), Columbus (20%) and Cincinnati (20%) comprise <u>73%</u> of the television homes in Ohio. The smaller markets will only be included as budget permits since the national media plan provides umbrella throughout Ohio,

Media Strategy/Tactics

To extend the reach of the national media campaign, the majority of the budget will be focused on a media mix of television, radio and online/mobile advertising.

- <u>Television</u> is emotionally stimulating. It allows for the high degree of creativity; sight, sound and action necessary for influencing or shaping viewpoints and attitudes toward impaired driving. A statewide cable buy is recommended.
 - This medium will provide a good opportunity to extend the reach of this campaign in Ohio, both geographically and demographically.
 - <u>Cable Television</u> provides the best opportunity to deliver frequency of exposure to our target statewide in <u>local sports</u> programming on FOXSPORTSOHIO. Historically this regional sports network over delivers bonus airings and is not including in any national media plans. FSO has also been a good partner with the state in producing PSA's with their talent and the Reds. In 2013, they produced a CIOT PSA with Reds talent and a PSA for a free seat belt wrap giveaway at three Reds games. The wrap included the logo of all three entities. With a similar annual investment in 2014 we would anticipate a comparable promotion.
 - FOXSPORTSOHIO reaches 3.7 million homes in Ohio (with some additional coverage in northern Kentucky and South Indiana). This cable network broadcasts the Cleveland Cavaliers (NBA), Columbus Blue Jackets (NHL) and Cincinnati Reds (MLB) spring training games and associated programming. Additionally, statewide, it carries other

well-known pertinent programming for this target, such as coach's shows, automotive and other major local, regional and national sports events. 40 GRPS equates to approx. 42 pre/in/post games and 42 Bonus: 30's...

Television	Budget Recommended
FOXSPORTSOHIO	\$15,000

- <u>Radio</u> is an excellent support or reminder medium (since there can be no visual treatment). Radio is also a very effective means to reach a <u>"mobile"</u> audience – offering the potential to immediately impact or affect impaired driving behavior. It is efficiently priced to help build frequency in a selected "lifestyle" programming format in a market and provides an opportunity to participate in local promotions or advertise on regionally owned stations that may not be part of a national radio network. We recommend a combination of local spot market radio and ONN Network radio.
 - Radio spot buys (:30) are planned in the 3 major metro markets in Ohio. A 100 Total Paid GRP goal is recommended per market. The daypart mix planned is 25% Morning Drive; 25% Midday; 25% Afternoon Drive; 10% in Evenings and 15% on Weekends. Primary formats planned are Active Rock, Classic Rock and Sports.
 - ONN is a statewide news, weather and sports network with one or two affiliate (AM and/or FM) stations in small rural, medium and major markets in Ohio. ONN currently has 75+ radio station affiliates reaching over 1.1 million adults in all 88 counties in Ohio. Station formats cannot be cherry picked within the ONN Network. It is purchased as a whole and will provide broad coverage throughout the state. A majority of their affiliates are in small towns where their network station is the major, if not only, source of information for that community. Historically, this has been an efficient radio buy for Ohio Public Safety messages. A schedule of 15 spots over the flight week (M-Sa 6a-7p) and matching PSA schedule is recommended. Budget \$5,500.

Radio Market	Budget Recommended
Cincinnati	\$4,500
Cleveland	\$7,000
Columbus	\$6,500
ONN Network	\$5,500
Radio Total	\$23.500

- Digital advertising is recommended this year to support the national effort targeting the highest at risk segment of young men 18-34 with an emphasis on 16-24 throughout Ohio. As consumer acceptance of mobile ads continue to increase, a mixture of targeted display awareness banners (35-40%) and mobile (60-65%) are recommended. Tracking reports will be available to monitor and adjust this campaign. The plan (minimum 3.2 million impressions/\$35,000 budget) includes EA.com, ESPN.com and MobileFuse.com and Yahoo Mobile.
 - EA.com is #1 in mobile gaming. Mobile and Tablet banners and interstitials will run on Mobile, Tablet and DIGA (Digital In-Game ads) in contextually relevant games in Ohio.
 - ESPN.com is an American Sports portal covering the NFL, NBA, MLB, MLS and more. Desktop and Mobile ads will rotate run of network statewide.
 - MobileFuse.com is a premium Smartphone network that offers brand safe content as well as aggressive optimizations with sufficient inventory to run interstitial ads efficiently and as value added statewide.

- Yahoo Mobile available through Dispatch Digital provides the opportunity to reach users of Yahoo web pages on mobile devices. The agency recommends focusing on the major DMA markets of Cleveland, Columbus and Cincinnati.
- Creative recommended include a mixture of 300x50; 216x36; 168x28; 120x20; 728x90; 320x50; 924x50; 512x128; 512x512 as available by the state.

Media Budget: \$75,000

Following is a budget summary for the paid media schedule recommended for this campaign. It also includes a small contingency allowance for any production, traffic or other media requirements to meet our goals.

Media	Total Investment (\$)*
Television Regional Sports Cable	\$15,000
Radio Spot Radio Regional Network Radio	\$18,000 \$ 5,500
Digital	\$35,000
Contingency	\$ 1,500
GRAND TOTAL	\$75,000

*Includes Agency Fee

Client Approval: _____ Date: _____

Ohio Department of Public Safety

Media Recommendation "Click It or Ticket" (CIOT) Seat Belt Mobilization Campaign May 12-26, 2014

January 27, 2014

The following recommends a media investment strategy to support an advertising program on behalf of the Ohio Public Safety's seat belt campaign, *Click It or Ticket*.

The general objective of the advertising program is create awareness of the benefits of seat belt usage statewide at a sufficient level that will not only save lives and support enforcement efforts during a crackdown period in May, but will also provide measurable results of increased seat belt usage.

Givens

The following parameters have been agreed to:

- The total budget will not exceed \$500,000
- The advertising should provide coverage throughout the state of Ohio
- National mobilization flight weeks are May 12-26, 2014
- Creative units available include a: 30 television spot; :30 radio spot and :30 Hispanic versions of each
- PSA units (unpaid media) will be negotiated to at least match the paid schedule
- Media will compliment the national NHTSA media buy as best as possible
 - Historically, the NHTSA plan consists of Network Cable Television (60%), Network Radio (13%) and Digital (17%) media (online, videogames, etc.)
 - The agency assumes that a similar strategy will be executed in 2014
 - In previous years, NHTSA recommended no more than 200 GRPS per week in television and 150 GRPS per week in radio to support the national media weights.

Target Audience

The target audience has been identified as Men 18-34 years of age throughout the state of Ohio. Qualitative research information has generally identified the **younger men** (**16-24 years**) **within this demographic as the most "high risk" drivers and passengers.** These men are also less likely to use safety belts if they travel in pick-up trucks, consume alcohol, or ride at night time and/or are African American and Latino males.

<u>Markets</u>

There are 9 television markets (Nielsen DMAs) that cover every county in Ohio. The major markets of Cleveland (32%), Columbus (20%) and Cincinnati (20%) comprise <u>73%</u> of the television homes in Ohio. The smaller markets will only be included as budget permits since generally the national media plan will provide some exposure throughout Ohio.

Market	2014 TV Homes	% Ohio
Cincinnati	908,440	20%
Cleveland-Akron-Canton	1,484,530	32%
Columbus	928,530	20%
Major Markets	3,342,940	73%
Dayton	480,430	10%
Toledo	415,000	9%
Youngstown	261,300	6%
Lima	69,170	2%
Also covered by Dayton & Columbus		
Zanesville	33,150	1%
Also covered by Columbus		
Ohio Total	4,599,160	100%
Wheeling/Steubenville	135,430	
Est. 50% in Ohio Counties		

Media Strategy/Tactics

0

To extend the reach of the national media campaign, the media investment will include a broad media mix of:

- <u>Television</u> is emotionally stimulating. It allows for the high degree of creativity; sight, sound and action necessary for influencing or shaping viewpoints and attitudes toward seat belt safety. A combination of spot television and statewide cable is recommended.
 - This medium will provide a good opportunity to extend the reach of this campaign in Ohio, both geographically and demographically.
 - Dayparts and programming selected are those effective against our target, but generally not included in the national plan -Early Fringe (15%), Prime Access (15%), Prime Time (50%) and local Sports (20%). Generally the programming on the Independent stations will receive the heaviest emphasis for this young demo.

Spot TV is recommended at a paid level of 200 GRPS for the last 2 weeks of the

mobilization period.

 TV Market
 Budget Recommended

 Cincinneti
 \$25,000

TV Market	Budget Recommended
Cincinnati	\$25,000
Cleveland	\$50,000
Columbus	\$25,000
Spot TV Total	\$100,000

- <u>Cable Television</u> provides the best opportunity to deliver frequency of exposure to our target in <u>local sports</u> programming. Otherwise, the national buy usually provides strong coverage of all the networks appropriate for our target. (ESPN, FX, Comedy, etc.) Therefore, to extend the reach statewide and include the more rural areas that may not be reached through spot television, schedules on STO (Sportstime Ohio) and FOXSPORTSOHIO are recommended. These are regional sports networks not usually included in the NHTSA plan, but they are the primary carriers of the 2 major MLB teams in Ohio. Historically both sport networks <u>over</u> deliver bonus airings.
 - FOXSPORTSOHIO reaches 3.7 million homes in Ohio (with some additional coverage in northern Kentucky and South Indiana). This Fox cable network broadcasts the Cleveland Cavaliers and Cincinnati Reds (southern Ohio) games and associated programming. Additionally, statewide, it carries other well-known pertinent programming for this target, such as coach's shows, "The Final Score" and other major local, regional and national sports events. 70 GRPS are recommended. FSO has also been a good partner with the state in producing PSA's with their talent and the Reds. In 2013, they produced a CIOT PSA with Reds talent and a PSA for a free seat belt wrap giveaway at three Reds games. The wrap included the logo of all three entities. With a similar annual investment in 2014 we would anticipate a comparable promotion.
 - STO reaches 2.9 million homes in primarily Northern Ohio The network, owned & operated by the Cleveland Indians, includes not only Cleveland/Akron/Canton, but also homes in Toledo, Lima, Columbus, Zanesville, and Youngstown. Programming consists of pre/ingame/post Indians coverage as well as other local sports events or sports syndicated programs. There is also a partnership with local broadcast television partners (i.e. WKYC/NBC in Cleveland, WWHO Columbus,

WLIO Lima and WYFX Youngstown) for Indians game broadcasts. 50 GRPS are recommended.

• <u>Local Hispanic television</u> buys in Cleveland and Columbus will support the national network television overlay. These are the only markets with all Hispanic programming at this time to extend the reach to portion of the Latino population in Ohio.

Television	Budget Recommended
FOXSPORTSOHIO	\$25,500
STO	\$18,000
WQHS – Cleveland Hispanic	\$4,000
WCPX – Columbus Hispanic	\$2,500
Misc. TV Total	\$50,000

- <u>Radio</u> is an excellent support or reminder medium (since there can be no visual treatment). Radio is also a very effective means to reach a <u>"mobile"</u> audience – offering the potential to immediately impact or affect seat belt behavior. It is efficiently priced to help build frequency in a selected "lifestyle" programming format in a market and provides an opportunity to participate in local promotions or advertise on regionally owned stations that may not be part of a national radio network. We recommend a combination of local spot market radio, ONN Network radio, Hispanic radio to maximize reach and frequency.
 - Radio spot buys (:30) are planned in the major metro markets in Ohio. A 200 Total
 Paid GRP goal is recommended .The daypart mix planned is 25% Morning Drive; 40%
 Afternoon Drive; 20% in Evenings and 15% on Weekends. Primary formats planned
 are Rock, Alternative, Urban, and Country, as appropriate for each market.
 - ONN is a statewide news, weather and sports network with one or two affiliate (AM and/or FM) stations in small rural, medium and major markets in Ohio. ONN currently has 75+ radio station affiliates reaching over 1.1 million adults in all 88 counties in Ohio. Station formats cannot be cherry picked within the ONN Network. It is purchased as a whole and will provide umbrella coverage throughout the state. A majority of their affiliates are in small towns where their network station is the major, if not only, source of information for that community. Historically, this has been an efficient radio buy for Ohio Public Safety messages. A schedule of 25 spots (M-Sa 6a-7p) and matching PSA schedule is recommended.
 - Hispanic radio buys are recommended in the Cincinnati, Columbus and Cleveland markets. Since some of these stations only air Hispanic programming on the weekends, an investment of \$3,000 will be sufficient for this campaign period.

Radio Market	Budget Recommended
Cincinnati	\$9,000
Cleveland	\$15,000
Columbus	\$13,000
ONN Network	\$10,000
Hispanic	\$3,000
Radio Total	\$50,000

• Sports marketing partnerships with the Cincinnati Reds, Cleveland Indians, Columbus Clippers, Toledo Mudhens and Columbus Crew are also recommended to support the CIOT campaign. The agency will endeavor to renew each of these at no rate increase over previous

0

years. They generally include a strong radio component, as well as, interior and exterior signage. The geographic coverage for the teams includes a network of stations in the region that extend beyond just the metro market that the team primarily serves.

- The Cincinnati Reds (MLB) buy includes: 30 spots, live drop-in billboards in WLW locally and their radio network in pre, in-game, and post game broadcasts. Also included are home plate signs (with television broadcast visibility) and other signage throughout the park. A separate agreement with WLW includes a 3x/week morning drive sponsorship with the voices of the Reds "Tom and Marty Brennaman Report".
 - \$60,500 Cincinnati Reds
 - \$17,500 WLW
- The Cleveland Indians (MLB) buy includes a :30 spot and open/close billboards in pre/in/post game coverage on WTAM radio and its regional Northeast Ohio radio network. Additional exposure includes 2 spots per week in the local Tribe Talk radio program and Stadium Scoreboard feature and PA messaging and Home Plate signage for 2 selected games in May.
 - \$31,000 Cleveland Indians
- The Columbus Clippers include a :30 radio spot in/post games on WMNI. This minor league team also includes concourse signs, program ad, and video board signage at the stadium. A television spot is also aired on the closed circuit televisions for home games.
 - \$12,850 Columbus Clippers
- The Columbus Crew (MLS) includes four :30 (or two :60) spots in each of their Spanish radio soccer game broadcasts, as well as signage at the stadium gates and traffic exits.
 - \$7,750 Columbus Crew
- The Toledo Mudhens minor league baseball team has created four ballpark exit gate signs and includes seat belt safety public service announcements, LED ribbon and video boards within their stadium during home games.
 - \$4,200 Toledo Mudhens

	Budget Recommended
Reds & WLW	\$78,000.00
Indians	\$ 3,000.00
Mudhens	\$ 4,200.00
Clippers	\$12,850.00
Crew	\$ 7,750.00
Sports Marketing Total	\$133,800.00

0

- Digital advertising is recommended this year to support the national effort targeting the highest at risk segment of young men 18-34 with an emphasis on 16-24 throughout Ohio. As consumer acceptance of mobile ads continue to increase, a mixture of targeted display awareness banners (35-40%) and mobile (60-65%) are recommended. Tracking reports will be available to monitor and adjust this campaign. The plan (minimum 8 million impressions/\$85,000 budget) includes EA.com, ESPN.com and MobileFuse.com and Yahoo Mobile.
 - EA.com is #1 in mobile gaming. Mobile and Tablet banners and interstitials will run on Mobile, Tablet and DIGA (Digital In-Game ads) in contextually relevant games in Ohio.

- ESPN.com is an American Sports portal covering the NFL, NBA, MLB, MLS and more. Desktop and Mobile ads will rotate run of network statewide.
- MobileFuse.com is a premium Smartphone network that offers brand safe content as well as aggressive optimizations with sufficient inventory to run interstitial ads efficiently and as value added statewide.
- Yahoo Mobile available through Dispatch Digital provides the opportunity to reach users of Yahoo web pages on mobile devices. The agency recommends focusing on the major DMA markets of Cleveland, Columbus and Cincinnati.
- Creative recommended include a mixture of 300x50; 216x36; 168x28; 120x20; 728x90; 320x50; 924x50; 512x128; 512x512 as available by the state.
- <u>Non-traditional</u> advertising is also recommended as part of this campaign.
 - A combination of rural movie theatre ads, inserts in monthly paychecks stubs and GSTV gas station TV ads have been positively received in the past and is recommended to continue in 2014. We expect to hold the same rates as the past several years.
 - A media buy in <u>movie theaters</u> in key rural counties statewide will also help to extend this message to this young male target. As executed the last couple years, this "rural" movie theater campaign will include a :30 spot before every film in theaters. The target counties include Athens, Belmont, Erie, Knox, Pickaway, Preble, Richland, Ross, Sandusky, Seneca, Shelby, Trumbull, Tuscarawas, Washington, Wayne and Wood. May is also has high potential for new action based movies introduced for the summer.
 - We also recommend advertising on 299,000 payroll paychecks in Ohio that are distributed to hourly employers of Kroger and temporary staffing companies (i.e. Tempay, Inc., Payroll Solutions, Reserve Staff, CBS Staffing, I Force, Staffmark).. The employee demographics for these hourly employees are overwhelmingly young workers on a weekly pay cycle. (19% are ages 16-20, 44% are 21-30, 21% 31-40, 9% 41-55, and 7% 55+). Through the same firm, we have the opportunity to advertise on 76,000 inserts in the monthly billing to Ohio Safe Auto Car Insurance. Since these consumers are usually "minimal" car insurance customers it also appears to be well targeted opportunity. As added value, Ohio Public Safety will receive a no charge quarter page ads in June.
 - GSTV broadcasts television news programming on the pumps at select gas stations throughout the state of Ohio. This form of advertising is very pertinent as drivers are at the pump when viewing this safety message. An adjacency to sports (ESPN) programming will help to target more male than female drivers. As station agreements have changed from 2013, a proposal will be developed for review and client approval at a \$10,000 budget level. In 2013 television advertising was available in Speedway stations in Cleveland, Cincinnati and Dayton. A \$10,000 is expected to deliver at least 2 gas stations per market or 59 screens.

Media Budget: \$500,000

Following is a budget summary for the paid media schedule recommended for this major campaign. A contingency budget is included to accommodate any production, traffic or other media opportunities/ goal requirements.

Media	Total Investment (\$)*
Television	
Spot TV	\$100,000.00
Regional Sports Cable	\$43,500.00
Hispanic TV	\$6,500.00
Radio	
Spot Radio	\$50,000.00
Network, Hispanic	\$13,000.00
Sports Marketing	\$133,800.00
Digital	\$85,000.00
Non-Traditional	
Movies	\$44,000.00
Payday Perx	\$20,900.00
GSTV	\$10,000.00
Contingency	\$ 6,300.00
GRAND TOTAL	\$500,000.00

Ohio Department of Public Safety

Media Recommendation Spring & Fall Motorcycle Safety Campaigns *April - October 2014*

January 27, 2014

The following recommends a media investment strategy to support an advertising program on behalf of the Ohio Public Safety's motorcycle campaign.

The general objective of the advertising program is to remind motorcyclists to ride the road safely throughout the motorcycle riding season in Ohio.

Givens

The following parameters have been agreed to:

- To avoid overlap of important national safety initiatives, the CIOT seat belt safety weeks at the end of May will be excluded for any broadcast plans, as well as, the impaired driving campaign weeks before the July 4th and Labor Day holidays.
 - The total budget will not exceed \$250,000 to "introduce" the campaign in the spring/early summer.
 - An additional "sustaining" budget of \$80,000 will be allocated by Ohio Public Safety to support this campaign in the fall.
- As research is available, statewide coverage is optimal with a focus on "hot spots" throughout the state where the incidences of motorcycle crash and fatality accidents are highest.
- Creative units available include a : 30 television spots, :30 radio spots: outdoor billboards and Full Page/4 Color magazine ads.
- The target audience is Men 18-54 years old who ride motorcycles
- PSA units (unpaid media) will be negotiated to match (1:1 or better) the paid schedules

Media Strategy/Tactics

The agency recommends a media mix of statewide cable/radio networks; spot radio; Ohio motorcycle magazine ads, billboards and truck ads in key high fatality regions or counties. This strategy is consistent with recent years.

<u>Television</u> is emotionally stimulating. It allows for the high degree of creativity; sight, sound and action necessary for influencing or shaping viewpoints and attitudes toward motorcycle safety.

- A combination of the two statewide sports cable television <u>networks</u> are recommended to provide the demographic and geographic coverage to metro and rural areas throughout Ohio.
 - FOXSPORTSOHIO reaches 3.7 million homes in Ohio (with some additional coverage in northern Kentucky and South Indiana). This cable network broadcasts Cincinnati Reds (southern/central Ohio) programming as well as other well-known pertinent programming for this target. FSO has also been a good partner with the state in producing PSA's with their talent and the Reds. In 2013, they produced a CIOT PSA with Reds talent and a PSA for a free seat belt wrap giveaway at three Reds games. The wrap included the logo of all three entities. With a similar annual investment in 2014 we would anticipate a comparable promotion.
 - For the April to mid-May Spring period, we expect to duplicate the successful plans executed the last few years on FOXSPORTSOHIO which included:
 - 125 GRPS delivered 40 in game :30 Reds spots and 40 post game spots in the games; a "matching" bank of 80 :30 spots; 25 Reds in-game billboards and a pre-produced interview with Reds host and an Ohio spokesperson.
 - For the Fall period beginning in August, FOXSPORTSOHIO included
 - 30 in game :30 Reds spots and 30 post game spots; a "matching" bank of 60 :30 spots (80 GRPS)
 FFY2015 Highway Safety Plan
 205

- STO reaches 2.7 million homes in primarily Northern Ohio. The network's coverage includes not only Cleveland, but also homes in Toledo, Lima, Columbus, Zanesville, and Youngstown. Programming consists of pre and post Indians game broadcasts as well as other local sports events or sports syndicated programs.
 - Similar to the last couple years, the April-mid-May Spring campaign on STO will include:
 - 17 Indians in-game :30 spots (approx. 1x per each game broadcast during that period) and 22 Bruce Drennan "All Bets are Off" <u>live</u> reads (which are usually stretched out to provide more value than a :30 spot). This program is daily from 4pm-6pm. The host announcer is a motorcycle enthusiast and supporter of motorcycle safety, reflected in his live reads. A "matching" bank of :30 spots will run ROS throughout other STO evening programming. Est. 70 GRPS

Cable Television	Spring 2014	Fall 2014	Total
FOXSPORTSOHIO	\$50,000	\$33,000	\$88,000
STO	\$25,000		\$25,000
Total	\$75,000	\$33,000	\$113,000

- <u>Radio</u> is an excellent support or reminder medium (since there can be no visual treatment). It is efficiently priced to help build frequency in a selected "lifestyle" programming format in a market. We recommend a combination of ONN Network radio for statewide rural reach and local spot market radio.
 - ONN is a statewide news, weather and sports network with one or two affiliate (AM and/or FM) stations in small rural, medium and major markets in Ohio. ONN currently has 75+ radio station affiliates reaching over 1.1 million adults in all 88 counties in Ohio. A majority of their affiliates are in small towns where their network station is the major, if not only, source of information for that community. It is assumed also that there are many potential motorcyclists that reside in the city, but are weekend warriors who ride away from the city at any opportunity. Historically, this has been an efficient radio buy for Ohio Public Safety messages. For the Spring period, we recommend a schedule of 30 :30 spots (\$15,000) and a sustaining schedule of 25 :30 paid spots in the Fall (\$10,000). Schedules will be matched at least 1:1 and value added online extension may be considered.
 - Radio spot buys (:30) are planned in the 3 major metro markets. In 2011, the major metros of Cleveland/Akron, Columbus and Cincinnati each had a significant number of "hot spots" identified within their coverage area. Pending 2014 research on the target counties, the markets and budgets recommended in the spot radio buy may be re-visited. Spot radio will be implemented during the spring introductory period only (April). Primary formats considered are Classic Rock, Sports and Country, as appropriate for each market. Promotions and/or online extensions (i.e. the "Hog Report" on the Akron country station) will be explored in 2014 also. 150 total GRPS per market are recommended in April.

Radio	Spring 2014	Fall 2014	Total
ONN Network	\$15,000.00	\$10,000.00	\$25,000.00
Cincinnati	\$ 7,000.00	0	\$7,000.00
Cleveland/Akron	\$13,000.00	0	\$13,000.00
Columbus	\$10,000.00	0	\$10,000.00
Total	\$45,000.00	\$10,000	\$55,000.00

- Through it's larger than life graphic opportunities, <u>out of home</u> advertising provides the opportunity to remind or impact motorcyclists' driving behavior as they are on the road throughout the motorcycle season.
 - We recommend a 3 month campaign (begins mid-April) of 30 sheet posters for the introductory phase of this plan.
 - For the "sustaining" campaign, we recommend that the billboards in each county be reduced at least 50% from the introductory period and continued from August through October (3 months).
 - The outdoor campaign will provide ongoing awareness from April to September in key locations. Actual poster street locations or maps will be provided for the client's approval near the posting date each month. The paid locations will be matched with as many billboards as possible depending upon availability and the amount of additional posters that the state is willing to print and ship. The estimates will include producing posters for a sufficient matching campaign. Once the key geographies are identified for this campaign, the outdoor billboards will be an effective media for pinpointing messages as best as possible to locations as near as possible to troublesome crash sites. Based on expenditures last year, the agency has allocated a budget of <u>\$56,500</u> for spring and <u>\$34,500</u> for the fall sustaining period.
 - Truck Tail backs is recommended on trucks travelling targeted and major interstates in Ohio. The maximum investment recommended is \$21,000. Within this budget, we expect at least 15 trucks for 2 months paid (April/May) and matching no charge 2 months (June/July).
- <u>Digital</u> advertising is recommended this year to support the national effort targeting the highest at risk segment of young men 18-34 with an emphasis on 16-24 throughout Ohio. As consumer acceptance of mobile ads continue to increase, a mixture of targeted display awareness banners (35-40%) and mobile (60-65%) are recommended. Tracking reports will be available to monitor and adjust this campaign. The plan (minimum 4.5 million impressions/\$50,000 budget) includes EA.com, ESPN.com and MobileFuse.com and Yahoo Mobile.
 - EA.com is #1 in mobile gaming. Mobile and Tablet banners and interstitials will run on Mobile, Tablet and DIGA (Digital In-Game ads) in contextually relevant games in Ohio.
 - ESPN.com is an American Sports portal covering the NFL, NBA, MLB, MLS and more. Desktop and Mobile ads will rotate run of network statewide.
 - MobileFuse.com is a premium Smartphone network that offers brand safe content as well as aggressive optimizations with sufficient inventory to run interstitial ads efficiently and as value added statewide.
 - Yahoo Mobile available through Dispatch Digital provides the opportunity to reach users of Yahoo web pages on mobile devices. The agency recommends focusing on the major DMA markets of Cleveland, Columbus and Cincinnati.
 - Creative recommended include a mixture of 300x50; 216x36; 168x28; 120x20; 728x90; 320x50; 924x50; 512x128; 512x512 as available by the state.
- <u>Magazine</u> advertising in the statewide publication, *Ridin'On*, is recommended. Field research indicates that magazines are well read by motorcycle enthusiasts in Ohio. Bonus editorial, club coverage and or other marketing opportunities will be explored. A magazine also offers a long shelf life and potential for high pass along readership.
 - *Ridin' On* is a free monthly magazine that focuses on all aspects of the motorcycle riding community, covering local stories and related events throughout the region (Ohio, Kentucky, E. Indiana, W. Pennsylvania and N. W. Virginia). Nearly 20,000 copies are distributed through a network of 850 locations includes motorcycle dealers, FFY2015 Highway Safety Plan 207

cycle shops and motorcycle businesses. This is a nice quality magazine published on color glossy paper stock, 8.25" x 10.75" format. Space and material deadlines are one month prior to the issue date. The April issue deadline is March 10th. The agency intends to secure the same rate as heavily discounted since 2011 for 3 ads in the Spring (April, May, June)_and 3 more ads in the sustaining period (July, August, Sept.)

Summary

Following is a budget summary for the paid media schedule recommended for the spring and Fall Motorcycle campaigns

Budget: \$330,000

Media	Spring 2014	Fall 2014	TOTAL
			Motorcycle
			2014
Cable Television	\$75,000	\$33,000	\$113,000
Radio	\$45,000	\$10,000	\$55,000
Digital	\$50,000	0	\$50,000
Out of Home	\$77,500	\$34,500	\$112,000
Magazine	\$2,500	\$2,500	\$ 5,000
GRAND TOTAL	\$250,00.00	\$80,000.00	\$330,000.00

Ohio Department of Public Safety

Media Recommendation 1st Half 2014 "Sustained" Media January – June 2014

Includes Summer Impaired Driving Campaign June 23-July 6, 2014

> Submitted: January 27, 2014

A budget for "sustaining" media in the 1st half 2014 will include the Summer Impaired Driving Campaign, <u>as well as</u>, other seat belt and alcohol impaired driving opportunities that will extend awareness beyond the major NHTSA campaigns windows.

SUMMER IMPAIRED DRIVING CAMPAIGN

The following recommends a media investment strategy to support an advertising program on behalf of the Ohio Public Safety's alcohol safety campaign through the July 4th holiday.

Givens

The following parameters have been agreed to:

- The budget goal is no more than \$100,000.
- The advertising should provide coverage statewide as affordable
- NHTSA Flight weeks are Monday, June 23– July 6, 2014
 - Paid advertising through June 30^{th} end of client fiscal year.
 - \circ No charge PSAs to carry campaign through July 6^{th} end date.
- Creative units available are :30 English and :30 Hispanic radio spots.
- The target audience is Men 21-34 years
- PSA units (unpaid media) should match on 1:1 basis (or better).

Media Tactics

- <u>Radio</u> is an excellent frequency or reminder medium in the summer. Radio is also a very effective means to <u>reach a "mobile"</u> audience offering the potential to immediately impact behavior in regards to drinking and driving.
 - Radio buys (:30) will be planned with a daypart mix of 30% Morning Drive; 10% Midday; 40% Afternoon Drive; 10% in Evenings and 10% on Weekends. Primary formats planned are Rock, Alternative, Rhythmic & Contemporary Hits, Sports and Country, as appropriate for each market. The markets are the top 3 populated metro markets in Ohio: Cincinnati, Cleveland, and Columbus. 175 paid GRPS are recommended. Additionally, stations with Latino programming will be included within the spot radio budget.
 - ONN is a statewide news, weather and sports network with one or two affiliate (AM and/or FM) stations in small rural, medium and major markets in Ohio. ONN currently has 75+ radio station affiliates reaching over 1.1 million adults in all 88 counties in Ohio. A majority of their affiliates are in small towns where their network station is the major, if not only, source of information for that community. Historically, this has been an efficient radio buy for Ohio Public Safety messages. A one week schedule (12 paid spots) will be matched at least 1:1.

Radio	Budget Recommended
Cincinnati	\$8,000
Cleveland	\$13,500
Columbus	\$12,000
ONN Network	\$4,500
Hispanic	\$2,000
TOTAL	\$40,000

• There are two statewide television sports networks that broadcast MLB games. The agency recommends an investment in both FOXSPORTSOHIO and STO. FSO has been a good partner with the state in producing promotions and PSA's with their on-air talent and the Reds. In 2013, they produced a CIOT PSA with Reds talent and a PSA for a free seat belt wrap

giveaway at three Reds games. The wrap included the logo of all three entities. With a similar annual investment in 2014 we would anticipate a comparable promotion and perhaps include a promotion and PSA this year focused on impaired driving. FSO purchased STO last year, but at this time the sales departments are still separate. We anticipate that they will merge by mid-year and we can extend a value added promotion to northern Ohio through STO.

- .A budget of \$20,000 between the two (\$10,500 FOXSPORTSOHIO/\$9,500 STO) will be sufficient for this short time period at the end of June.
- In Cleveland, there are 165 free-standing and backlit kiosks available. This opportunity is not available in other Ohio markets. The agency recommends targeting sports arena and bar/nightlife districts, which includes 7 locations in the "warehouse" district, 2 locations in the "tower city" district and 11 locations in the "Gateway" district (Progressive Field & Q Arena). The kiosks are 3 sided with an informational city map on one face and advertising posters on the other 2 faces. The average daily circulation is estimated to be 25,000 per face. The agency intends to negotiate the same rate as allocated since 2010, which included a 20% discount to book 3 periods in advance. The 3 periods recommended line up with national "impaired driving" periods June 7-July 5 (bonus July 5-August 8); August 9-September 5 (bonus September 6-October 3); and December 6 January 12 (bonus November 8-December 5). The annual cost of 20 locations is \$16,800 and will be equally divided between the Summer, Fall and Holiday Impaired campaigns.
- Digital advertising is recommended this year to support the national effort targeting the highest at risk segment of young men 18-34 with an emphasis on 16-24 throughout Ohio. As consumer acceptance of mobile ads continue to increase, a mixture of targeted display awareness banners (35-40%) and mobile (60-65%) are recommended. Tracking reports will be available to monitor and adjust this campaign. The plan (minimum 2.5 million impressions/\$30,000 budget) includes EA.com, ESPN.com and MobileFuse.com and Yahoo Mobile.
 - EA.com is #1 in mobile gaming. Mobile and Tablet banners and interstitials will run on Mobile, Tablet and DIGA (Digital In-Game ads) in contextually relevant games in Ohio.
 - ESPN.com is an American Sports portal covering the NFL, NBA, MLB, MLS and more. Desktop and Mobile ads will rotate run of network statewide.
 - MobileFuse.com is a premium Smartphone network that offers brand safe content as well as aggressive optimizations with sufficient inventory to run interstitial ads efficiently and as value added statewide.
 - Yahoo Mobile available through Dispatch Digital provides the opportunity to reach users of Yahoo web pages on mobile devices. The agency recommends focusing on the major DMA markets of Cleveland, Columbus and Cincinnati.
 - Creative recommended include a mixture of 300x50; 216x36; 168x28; 120x20; 728x90; 320x50; 924x50; 512x128; 512x512 as available by the state.
- Digital advertising is recommended this year to support the national effort targeting the highest at risk segment of young men 18-34 with an emphasis on 16-24 throughout Ohio. As consumer acceptance of mobile ads continue to increase, a mixture of targeted display awareness banners (35-40%) and mobile (60-65%) are recommended. Tracking reports will be available to monitor and adjust this campaign. The plan (minimum 2.7 million impressions/\$3,000 budget) includes EA.com, ESPN.com and MobileFuse.com and Yahoo Mobile.
 - EA.com is #1 in mobile gaming. Mobile and Tablet banners and interstitials will run on Mobile, Tablet and DIGA (Digital In-Game ads) in contextually relevant games in Ohio.
 - ESPN.com is an American Sports portal covering the NFL, NBA, MLB, MLS and more. Desktop and Mobile ads will rotate run of network statewide.

- MobileFuse.com is a premium Smartphone network that offers brand safe content as well as aggressive optimizations with sufficient inventory to run interstitial ads efficiently and as value added statewide.
- Yahoo Mobile available through Dispatch Digital provides the opportunity to reach users of Yahoo web pages on mobile devices. The agency recommends focusing on the major DMA markets of Cleveland, Columbus and Cincinnati.
- Creative recommended include a mixture of 300x50; 216x36; 168x28; 120x20; 728x90; 320x50; 924x50; 512x128; 512x512 as available by the state.

Summer Impaired Driving Media Budget

MEDIA	BUDGET*
RADIO (:30)	\$40,000.00
FOXSPORTSOHIO & STO Network Cable TV	\$20,000.00
Cleveland Downtown Kiosks	\$5,600.00
Digital	\$30,000.00
GRAND TOTAL	\$100,000.00

*Budget investment includes agency fee.

NON TRADITIONAL

The agency also recommends several "NON TRADITIONAL" local advertising opportunities for Ohio Public Safety for the remainder of this budget to supplement the national advertising campaigns. The media recommended has been proven in the past and rates are expected to remain consistent with 2013.

SEAT BELT MESSAGING

• HUDDLE TICKETS \$67,000

 Huddle High Schools, Inc. distributes high school tickets for regular season events (sports, plays, etc.) for high schools throughout Ohio. Last year Ohio Public Safety cosponsored 137 high schools (2 million ticket backs) in southeast Ohio, Columbus and Cleveland markets with a <u>seat belt safety</u> message during the school year. We would expect to execute the same program in 2014 at no increase in the rate.

• MOORE BUS SHELTERS - \$35,000

• The agency recommends continuation of the 50 rural bus shelter locations statewide. The current creative is "<u>Buckle up</u> in your truck". 25 of the signs were "refreshed" last year. This budget includes an opportunity to refresh or change the message on the remaining 25 shelters.

• GSTV - \$12,000.00

 Gas Station Television Advertising is available in Speedway stations in Cleveland, Cincinnati and Dayton. A :30 <u>seat belt</u> television commercial airs at the pump as the broadcast delivers news programming. A \$12,000 will yield approximately 8 gas stations, 62 screens and an adjacency to ESPN sports programming. These funds would extend the reach of the CIOT campaign with GSTV.

• CINCINNATI REDS \$11,000

• The sports marketing partnership negotiated for the CIOT campaign includes the opportunity to use their broadcast talent for PSA messaging and a car seat promotion for a "talent" and promotion fee of \$11,000.

IMPAIRED DRIVING MESSAGES (ALCOHOL)

• ICE BOX WRAPS \$31,000

• AllOver Media provides an opportunity for an alcohol message on "frozen" billboards in targeted gas station locations in Ohio. Ice Box wraps are roughly 8'x4'x4" and

present a dramatic message regarding alcohol safety while driving to consumers as they are in their car or truck. Their research indicates that consumers spend 3-5 minutes at the gas pump per visit and 67.3% visit their local station 4x per month. The negotiated proposal last year for \$31,000 in 2013 included 15 ice boxes in high traffic locations and an additional 10 ice boxes at selected marinas. A 3month paid commitment also included bonus door clings (6"x6") at each of the stations selected and a bonus 4th month. Many of the ice boxes remain wrapped longer than 4 months, but that cannot be guaranteed.

• BUS/TRANSIT ADVERTISING \$33,000

The agency recommends Bus Transit advertising in Cleveland in 2014. (Neither Cincinnati or Columbus will accept state advertising). Bus tail signs (back of busses) are impactful in reaching drivers in traffic and on highways in Cleveland. RTA advertising may help to increase exposure in lower income areas and major sports and casino complexes in and surrounding the major metros. The movement, size and color are difficult to ignore and it has the potential to touch many people in different places at different times. We estimate 40 Busses over two months with an impaired driving message. Similar to last year, it is expected that they will match this paid buy with backlit dioramas in the Tower City, Quicken Loans Arena and Jacobs Field.

• TRUCK ADVERTISING \$15,000

• Truck Tail backs is recommended on trucks travelling targeted and major interstates in Ohio. The agency suggests extending the Motorcycle message initiated in the Spring Motorcycle safety campaign or a Drive Sober message. The maximum investment recommended is \$15,000. Within this budget, we expect at least 10 more trucks.

• CINCINNATI REDS \$21,000

• An opportunity to partner with Kroger is currently in development. The agency recommends reserving these funds to encourage further discussion in the upcoming months. Once details are refined, a proposal will be submitted to the client for final review and approval.

Ohio Public Safety

Media Recommendation Fall Impaired Driving Campaign August 13 – September 1, 2014

> Submitted: January 27, 2014

The following recommends a media investment strategy to support an advertising program on behalf of the Ohio Public Safety's Impaired Driving campaign during the August – September 2014 national mobilization period.

Givens

The following parameters have been agreed to:

- The total budget will not exceed \$300,000
- The advertising should provide broadcast coverage statewide
- Flight weeks are August 13 through September 1, 2014
- Creative units available include a: 30 television spot, : 30 English radio spots and :30 Hispanic radio spot
- The target audience is Men 18-34 years
- PSA units (unpaid media) should match on a 1:1 basis (or better) and will be scheduled within the flight as much as possible
- Media will compliment NHTSA media efforts

Media Tactics

- <u>Radio</u> is an excellent frequency or reminder medium (since there can be no visual treatment) to the television efforts executed by NHTSA. Radio is also a very effective means to <u>reach a "mobile"</u> audience offering the potential to immediately impact behavior in regards to drinking and driving.
 - Radio buys (:30) will be planned with a daypart mix of 30% Morning Drive; 10% Midday; 40% Afternoon Drive; 10% in Evenings and 10% on Weekends. Primary formats planned are Rock, Alternative, Rhythmic & Contemporary Hits, Sports and Country, as appropriate for each of the Ohio markets. A paid GRP level of 100 GRPS is recommended for Cleveland, Cincinnati, and Columbus.
 - ONN is a statewide news, weather and sports network with one or two affiliate (AM and/or FM) stations in small rural, medium and major markets in Ohio. ONN currently has 75+ radio station affiliates reaching over 1.1 million adults in all 88 counties in Ohio. Station formats cannot be cherry picked within the ONN Network. It is purchased as a whole and will provide umbrella coverage throughout the state. A majority of their affiliates are in small towns where their network station is the major, if not only, source of information for that community. Historically, this has been an efficient radio buy for Ohio Public Safety messages. A minimum schedule of 12 spots per week (Mon-Sat) for 2 weeks and matching PSA schedule for \$8,500 is recommended.
 - A Hispanic radio buy (:30) is recommended on stations that include Latino programming either 24/7 or on weekends. A maximum of \$3,000 would be required for this effort in Cleveland, Columbus, and Cincinnati.

)		
))

Radio Markets	Budget Recommendation
Cincinnati	\$4,500.00
Cleveland	\$7,500.00
Columbus	\$6,500.00
ONN Network	\$8,500.00
Hispanic	\$3,000.00
TOTAL	\$30,000.00

- It is understood that <u>television</u> plays a major role in the NHTSA campaign during this period. Therefore, we do not recommend a spot television buy. However, we do recommend statewide <u>sports</u> cable buys and sports marketing sponsorships that include Ohio NFL team televised preseason games as follows:
 - There are two statewide TV sports networks that will broadcast the MLB. We recommend an investment of <u>\$15,000</u> on FOXSPORTSOHIO (home of the Reds); and <u>\$10,000</u> on STO (home of the Indians). Buys will not be isolated to the MLB baseball games, but will also include other programming throughout the weeks of the flight, such as NASCAR races, coach's shows and other sports entertainment programs. FSO has been a good partner with the state in producing promotions and PSA's with their on-air talent and the Reds. In 2013, they produced a CIOT PSA with Reds talent and a PSA for a free seat belt wrap giveaway at three Reds games. The wrap included the logo of all three entities. With a similar annual investment in 2014 we would anticipate a comparable promotion and perhaps include a promotion and PSA this year focused on impaired driving. FSO purchased STO last year, but at this time the sales departments are still separate. We anticipate that they will merge by mid-year and we can extend a value added promotion to northern Ohio through STO.
- o Sports Marketing partnerships

Pre-season Football is underway during this time frame. Therefore, media and in stadium involvement is very appropriate for a responsible alcohol campaign with the Cleveland Browns, Cincinnati Bengals and Ohio State University. The combination of all 3 teams will reach fans throughout Ohio via their flagship stations, network affiliates and stadium home game attendance. The recommended investment will be no more than investments in past years and all teams have incorporated matching value added elements in their packages which are generally extensions beyond pre-season.

- A Bengals buy includes television, print and stadium signage. They also have the ability in 2014 to incorporate radio, so the current buy may be tweaked moving forward.
 - Full page ad in the program
 - One :30 TV spots and 1 drop-in in each preseason telecast and one :30 in each of 6 "Bengals Weekly" weekend programs.
 - Two :30's on internal television monitors during all games; Two minutes of LED sideline 4th quarter signage for all games; Concession stand message for one game, exterior stadium signage and an effort to air additional PSA announcements as available.
 - The Bengals have also partnered with the state in the past with providing spokespersons for PSAs.
- The Browns buy includes television, radio, stadium signage and digital.
 - 2:30's in each of 3 televised pre-season, pre-game shows and an on field graphic in-game for each of 3 preseason games. (Equated to 37 seconds of TV exposure per game last year)
 - Ten :30 <u>network</u> radio spots in the pre-game radio programming. And a radio PSA recorded by Browns player, Cameron Jordan.
 - 200,000 impressions on their website
 - Exterior stadium signage.
- The Ohio State University Football buy includes statewide network radio, and scoreboard messages.
 - One :30 pre-game and one :30 post game radio spot in the IMG radio network for all regular games. (Bowl games are not included.) In game live reads in the first half and fourth quarter of each game.

• \Post-game scoreboard message at each home game.

0		
	FOXSPORTSOHIO	\$15,000
	STO	\$10,000
	Cleveland Browns	\$62,000
	Cincinnati Bengals	\$61,000
	OSU Football	\$58,000
	TOTAL	\$206,000.00

- Digital advertising is recommended this year to support the national effort targeting the highest at risk segment of young men 18-34 with an emphasis on 16-24 throughout Ohio. As consumer acceptance of mobile ads continue to increase, a mixture of targeted display awareness banners (35-40%) and mobile (60-65%) are recommended. Tracking reports will be available to monitor and adjust this campaign. The plan (minimum 3.2 million impressions/\$35,000 budget) includes EA.com, ESPN.com and MobileFuse.com and Yahoo Mobile.
 - EA.com is #1 in mobile gaming. Mobile and Tablet banners and interstitials will run on Mobile, Tablet and DIGA (Digital In-Game ads) in contextually relevant games in Ohio.
 - ESPN.com is an American Sports portal covering the NFL, NBA, MLB, MLS and more. Desktop and Mobile ads will rotate run of network statewide.
 - MobileFuse.com is a premium Smartphone network that offers brand safe content as well as aggressive optimizations with sufficient inventory to run interstitial ads efficiently and as value added statewide.
 - Yahoo Mobile available through Dispatch Digital provides the opportunity to reach users of Yahoo web pages on mobile devices. The agency recommends focusing on the major DMA markets of Cleveland, Columbus and Cincinnati.
 - Creative recommended include a mixture of 300x50; 216x36; 168x28; 120x20; 728x90; 320x50; 924x50; 512x128; 512x512 as available by the state..
- <u>Non-traditional</u> advertising recommendations include the statement stuffers as executed in the past and Kiosk advertising in high traffic downtown Cleveland sports and bar areas.
 - Continue advertising on 299,000 payroll paychecks in Ohio that are distributed to hourly employers of Kroger and temporary staffing companies (i.e. Tempay, Inc., , Payroll Solutions, Reserve Staff, CBS Staffing, I Force, Staffmark).. The employee demographics for these hourly employees are overwhelmingly young workers on a weekly pay cycle. (19% are ages 16-20, 44% are 21-30, 21% 31-40, 9% 41-55, and 7% 55+). Through the same firm, we have the opportunity to advertise on 76,000 inserts in the monthly billing to Ohio Safe Auto Car Insurance. Since these consumers are usually "minimal" car insurance customers it also appears to be well targeted opportunity. As added value, Ohio Public Safety will receive a no charge quarter page ad re-run on the paychecks in September. Recommended budget is \$20,850.00.
 - In Cleveland, there are 165 free-standing and backlit kiosks available. This opportunity is not available in other Ohio markets. The agency recommends targeting sports arena and bar/nightlife districts, which includes 7 locations in the "warehouse" district, 2 locations in the "tower city" district and 11 locations in the "Gateway" district (Progressive Field & Q Arena). The kiosks are 3 sided with an informational city map on one face and advertising posters on the other 2 faces. The average daily circulation is estimated to be 25,000 per face. The agency intends to negotiate the same rate as allocated since 2010, which

included a 20% discount to book 3 periods in advance. The 3 periods recommended line up with national "impaired driving" periods - June 7-July 5 (bonus July 5-August 8); August 9-September 5 (bonus September 6-October 3); and December 6 – January 12 (bonus November 8-December 5). The annual cost of 20 locations is \$16,800 and will be equally divided between the Summer, Fall and Holiday Impaired campaigns.

• Media Budget

Ohio Department of Public Safety

Media Recommendation 2nd Half 2014 "Sustained" Media July - December 2014

> Submitted January 27, 2014

A budget of \$165,000 for "sustaining" media in the 2nd half 2014 will allow for ongoing awareness of seat belt and impaired driving initiatives.

The following non-traditional media recommendations include continuation of the baseball and soccer sports marketing partnerships into the 2^{nd} half of the year; and the extension of transit and truck ads in the Fall.

SPORTS MARKETING PARTNERSHIPS - \$129,300

- Sports marketing partnerships with the Cincinnati Reds, Cleveland Indians, Columbus Clippers and Columbus Crew are recommended to maintain awareness through the 2014 season for each. Most buys include radio and television spots, as well as, interior and exterior signage and all include a matching public service commitment. The combination of the teams' coverage also generally includes a broad fan base and radio network in the region beyond just the metro market that it primarily serves. The messages can be changed to focus on alcohol during the Fall Impaired campaign prior to Labor Day. Distracted driving or seat belt messages could also be integrated into the schedules as desired. The agency does not expect these annual sponsorship costs to increase from previous investment levels.
 - The Cincinnati Reds (MLB) buy is primarily radio and includes :30 spots, live drop-in billboards on their radio network in pre, in-game, and post game broadcasts. Also included are rotational signs (with television broadcast visibility) and other signage throughout the park from July through the end of the season. Additionally, an agreement with WLW also includes a 3x/week morning drive sponsorship with the voices of the Reds "Tom and Marty Brennaman". The Reds have established a very positive relationship with the state through various public service opportunities with the team.
 - \$60,500.00 Reds
 - \$17,100 WLW-AM
 - The Cleveland Indians (MLB) buy is also primarily radio. It includes a :30 spot and open/close billboards in pre/in/post game coverage on WTAM and its associated radio network. Additional exposure includes 2 spots per week in the local Tribe Talk radio program and Stadium Scoreboard and PA messaging. Total \$31,000 for July through the end of the season.
 - The Columbus Clippers Minor League team includes a :30 radio spots in/post game on WMNI. They also include concourse signs, program ad, and video board signage at the stadium. A television spot is also aired on the closed circuit televisions for home games. Total \$13,000 for July through end of the season.
 - The Columbus Crew (MLS) includes four :30 (or two :60) spots in each of their <u>Spanish</u> radio game broadcasts, as well as signage at the stadium gates and traffic exits. Total \$7,700.

• BUS/TRANSIT ADVERTISING \$15,000

• The agency recommends Bus Transit advertising in Cleveland in 2014. (Neither Cincinnati or Columbus will accept our advertising). Bus tail signs (back of busses) are impactful in reaching drivers in traffic and on highways in Cleveland. RTA advertising may help to increase exposure in lower income areas and major sports and casino complexes in and surrounding the major metros. The movement, size and color are difficult to ignore and it has the potential to touch many people in different places at different times. We estimate 20 Busses over two months. Similar to last year, it is expected that they will match this paid buy with backlit dioramas in the Tower City, Quicken Loans Arena and Jacobs Field.

• TRUCK ADVERTISING \$15,000

 Truck Tail backs is recommended on trucks travelling targeted and major interstates in Ohio. The agency suggests a Motorcycle message. However, it is also very appropriate as a Drive Sober campaign extension into the Fall. The maximum investment recommended is \$15,000. Within this budget, we expect at least 10 trucks for 2 months paid (August/September) and matching no charge 2 months (October/November).

Following is a budget summary for sustaining media coverage in the 2^{nd} half of 2014. Included is a small "contingency" fund for not only production or traffic costs, but also costs that may need to be addressed for teams that may advance to playoffs.

2 ND HALF SUSTAINED MEDIA		BUDGET*
Sports Marketing Partnerships	Seat Belt/Alcohol	\$129,300.00
Transit/Truck	Alcohol	\$30,000.00
Contingency (Production/Playoffs/Traffic)		\$5,700.00
TOTAL		\$165,000.00

*Budget investment includes agency fee

Ohio Department of Public Safety

Holiday Impaired Driving Plan

December 10, 2014 – December 31, 2014

Submitted: January 27, 2014 The following recommends a media investment strategy to support an advertising program on behalf of the Ohio Public Safety's alcohol safety campaign prior to and throughout the 2014 winter holidays.

Givens

The following parameters have been agreed to:

- The total budget will not exceed \$100,000
- The advertising should provide coverage statewide as affordable
- Flight weeks are December 10-31, 2014
- Creative units available are :30 English and :30 Hispanic radio spots.
- The target audience is Men 21-34 years
- PSA units (unpaid media) should match on 1:1 basis (or better) and will be scheduled within the flight as much as possible

Media Tactics

- Radio will be the primary media negotiated for this campaign. It is an excellent frequency or reminder medium (since there can be no visual treatment) and will support the strong television campaign to be executed nationally. Radio is also a very effective means to reach a "mobile" audience offering the potential to immediately impact behavior in regards to drinking and driving.
 - The ONN statewide radio network will provide coverage to more rural areas throughout the state. ONN currently has 75+ radio station affiliates reaching over 1.1 million adults in all 88 counties in Ohio. At least 2 paid spots per day from 6am-7pm and matching bonus spots will be executed over 16 days leading up to January 1.
 - ONN Network \$11,200
 - Hispanic radio schedules will be included to impact the Hispanic populations in Cleveland, Columbus, and Cincinnati as executed for campaigns previously in the year.
 - Hispanic Radio \$3,400
- Regional sports and Hispanic television stations will provide support to the national television buys. The agency recommends continuation of the successful relationship with the statewide cable network, FOXSPORTSOHIO. The Cleveland Cavaliers programming will be the primary focus at this time of year, supported by other sports programming (i.e. college football, basketball, Blue Jackets) that FOXSPORTSOHIO carries from Mid-December through January 1. Hispanic :30 radio and television buys are also recommended to support the national
 - effort directed to this market.
 - o FOXSPORTSOHIO \$17,000
 - o Hispanic TV \$3,000 (Cleveland/Columbus)
- Online advertising is recommended this year to support the national effort targeting the highest at risk segment of young men 18-34 with an emphasis on 16-24 throughout Ohio. As consumer acceptance of mobile ads continue to increase, a mixture of targeted display awareness banners (35-40%) and mobile (60-65%) are recommended. Tracking reports will be available to monitor and adjust this campaign. The plan (minimum 4.5 million impressions/\$50,000 budget) includes EA.com, ESPN.com and MobileFuse.com and Yahoo Mobile.
 - EA.com is #1 in mobile gaming. Mobile and Tablet banners and interstitials will run on Mobile, Tablet and DIGA (Digital In-Game ads) in contextually relevant games in Ohio.
 - ESPN.com is an American Sports portal covering the NFL, NBA, MLB, MLS and more. Desktop and Mobile ads will rotate run of network statewide.

- MobileFuse.com is a premium Smartphone network that offers brand safe content as well as aggressive optimizations with sufficient inventory to run interstitial ads efficiently and as value added statewide.
- Yahoo Mobile available through Dispatch Digital provides the opportunity to reach users of Yahoo web pages on mobile devices. The agency recommends focusing on the major DMA markets of Cleveland, Columbus and Cincinnati.
- Creative recommended include a mixture of 300x50; 216x36; 168x28; 120x20; 728x90; 320x50; 924x50; 512x128; 512x512 as available by the state.
- In Cleveland, there are 165 free-standing and backlit kiosks available. This opportunity is not available in other Ohio markets. The agency recommends targeting sports arena and bar/nightlife districts, which includes 7 locations in the "warehouse" district, 2 locations in the "tower city" district and 11 locations in the "Gateway" district (Progressive Field & Q Arena). The kiosks are 3 sided with an informational city map on one face and advertising posters on the other 2 faces. The average daily circulation is estimated to be 25,000 per face. The agency intends to negotiate the same rate as allocated since 2010, which included a 20% discount to book 3 periods in advance. The 3 periods recommended line up with national "impaired driving" periods June 7-July 5 (bonus July 5-August 8); August 9-September 5 (bonus September 6-October 3); and December 6 January 12 (bonus November 8-December 5). The annual cost of 20 locations is \$16,800 and will be equally divided between the Summer, Fall and Holiday Impaired campaigns.
- .A contingency allowance is included for any production, traffic or other media opportunities (i.e. football playoffs) or other requirements to meet the media goals.

Ohio Department of Public Safety

Media Recommendation 1st Quarter 2015 Sustained Super Bowl Saint Patrick's Day

January-March 2014

January 27, 2014

The following recommends a media investment strategy to support an advertising program on behalf of the Ohio Public Safety's "responsible alcohol" campaigns.

The general objective of the advertising program is create awareness of enforcement efforts to reduce impaired driving statewide leading up to and including the Super Bowl and through the March 17th St. Patrick's Day celebrations.

Givens

The following parameters have been agreed to:

- The total budget will not exceed \$205,000
- The advertising should provide coverage throughout the state of Ohio
- Flight dates are January 1 March 17, 2015
- Creative units available include a: 30 television spot; :30 radio spot and 728x90 animated banners.
- PSA units (unpaid media) will be negotiated to at least match the paid schedule
- Media will complement the national NHTSA media buy once made available as best as possible.

Target Audience

The target audience has been identified as Men 18-34 years of age throughout the state of Ohio. Qualitative research information has generally identified the **younger men** (16-24 years) within this **demographic as the most "at risk" impaired drivers and passengers.**

<u>Markets</u>

There are 9 television markets (Nielsen DMAs) that cover every county in Ohio.

The major markets of Cleveland (32%), Columbus (20%) and Cincinnati (20%) comprise <u>73%</u> of the television homes in Ohio. The smaller markets will only be included as budget permits since the national media plan will provides umbrella throughout Ohio,

Media Strategy/Tactics

0

SUPER BOWL

- <u>Television</u> is emotionally stimulating. It allows for the high degree of creativity; sight, sound and action necessary for influencing or shaping viewpoints and attitudes toward seat belt safety. A combination of spot television and statewide cable is recommended.
 - This medium will provide a good opportunity to extend the reach of this campaign in Ohio, both geographically and demographically.
 - <u>Spot TV</u> is recommended on the station in the major metro markets broadcasting the Super Bowl. A min. 100 GRP packaged buy will include programming up to and including the Super Bowl. (Market budgets may fluctuate depending on the success of the NFL teams in either Cleveland or Cincinnati.)

TV Market	Budget Recommended
Cincinnati	\$ 50,000
Cleveland	\$ 50,000
Columbus	\$ 30,000
Spot TV Total	\$130,000

ST. PATRICK'S DAY

- <u>Cable Television</u> provides the best opportunity to deliver frequency of exposure to our target in <u>local sports</u> programming. To extend the reach statewide and include the more rural areas that may not be reached through spot television, schedules on FOXSPORTSOHIO is recommended leading up to St. Patrick's Day.
 - FOXSPORTSOHIO reaches 3.7 million homes in Ohio (with some additional coverage in northern Kentucky and South Indiana). This cable network broadcasts the Cleveland Cavaliers (NBA), Columbus Blue Jackets (NHL). Additionally, statewide, it carries other well-known pertinent programming for this target, such as coach's shows, automotive and other major local, regional and national sports events. 40 GRPS equates to approx. 42 pre/in/post games and 42 Bonus :30's.

Television	Budget Recommended
FOXSPORTSOHIO	\$15,000
Cable TV Total	\$15,000

- <u>Radio</u> is an excellent support or reminder medium (since there can be no visual treatment). Radio is also a very effective means to reach a <u>"mobile"</u> audience – offering the potential to immediately impact or affect seat belt behavior. It is efficiently priced to help build frequency in a selected "lifestyle" programming format in a market and provides an opportunity to participate in local promotions or advertise on regionally owned stations that may not be part of a national radio network. We recommend a combination of local spot market radio and ONN Network radio leading up to St. Patrick's Day.
 - Radio spot buys (:30) are planned in the 3 major metro markets in Ohio. A 100 Total Paid GRP goal is recommended per market. The daypart mix planned is 25% Morning Drive; 25% Midday,: 25% Afternoon Drive; 10% in Evenings and 15% on Weekends. Primary formats planned are Active Rock, Classic Rock and Sports.
 - ONN is a statewide news, weather and sports network with one or two affiliate (AM and/or FM) stations in small rural, medium and major markets in Ohio. ONN currently has 75+ radio station affiliates reaching over 1.1 million adults in all 88 counties in Ohio. Station formats cannot be cherry picked within the ONN Network. It is purchased as a whole and will provide umbrella coverage throughout the state. A majority of their affiliates are in small towns where their network station is the major, if not only, source of information for that community. Historically, this has been an efficient radio buy for Ohio Public Safety messages. A minimum schedule of 15 spots over the flight week (M-Sa 6a-7p) and matching PSA schedule is recommended.

Radio Market	Budget Recommended
Cincinnati	\$4,500
Cleveland	\$7,000
Columbus	\$6,500
ONN Network	\$5,500
Radio Total	\$23,500

0

• Digital advertising is recommended this year to support the national effort targeting the highest at risk segment of young men 18-34 with an emphasis on 16-24 throughout Ohio. As consumer acceptance of mobile ads continue to increase, a mixture of targeted display awareness banners

(35-40%) and mobile (60-65%) are recommended. Tracking reports will be available to monitor and adjust this campaign. The plan (minimum 3.2 million impressions/\$35,000 budget) includes EA.com, ESPN.com and MobileFuse.com and Yahoo Mobile.

- EA.com is #1 in mobile gaming. Mobile and Tablet banners and interstitials will run on Mobile, Tablet and DIGA (Digital In-Game ads) in contextually relevant games in Ohio.
- ESPN.com is an American Sports portal covering the NFL, NBA, MLB, MLS and more. Desktop and Mobile ads will rotate run of network statewide.
- MobileFuse.com is a premium Smartphone network that offers brand safe content as well as aggressive optimizations with sufficient inventory to run interstitial ads efficiently and as value added statewide.
- Yahoo Mobile available through Dispatch Digital provides the opportunity to reach users of Yahoo web pages on mobile devices. The agency recommends focusing on the major DMA markets of Cleveland, Columbus and Cincinnati.
- Creative recommended include a mixture of 300x50; 216x36; 168x28; 120x20; 728x90; 320x50; 924x50; 512x128; 512x512 as available by the state.

Media Budget: \$205,000

Following is a budget summary for the paid media schedule recommended for these two campaigns in 1st quarter 2015:

Media	Super Bowl	St. Patrick's Day
	Media \$ *	Media \$ *
Television		
Spot TV	\$130,000.00	
Regional Sports Cable		\$15,000
Radio		
Spot Radio		\$18,000
Regional Network Radio		\$ 5.500
Digital		\$35,000
Contingency		\$1,500
GRAND TOTAL	\$130,000	\$75,000
	\$150,000	\$75,000

*Includes Agency Fee
